

# RULE-MAKING ORDER

**CR-103P (May 2009)**  
**(Implements RCW 34.05.360)**

**Agency:** Department of Revenue

**Permanent Rule Only**

**Effective date of rule:**

**Permanent Rules**

31 days after filing.

Other (specify) ( If less than 31 days after filing, a specific finding under RCW 34.05.380(3) is required and should be stated below)

**Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?**

Yes  No If Yes, explain:

**Purpose:** The rules being amended under this proposal are: WAC 458-20-17802, 458-20-19301, 458-20- 217, 458-20-229, 458-20-240, 458-20-24001A, 458-20-24003, and 458-20-255.

This proposal incorporates new terms used for informal review hearings under recently adopted WAC 458-20-100 Informal administrative reviews. The eight rules in this proposal are having the terms "Appeals Division" changed to "Administrative Review and Hearings Division;" and "appeal" changed to "review." Also, the term "section" is replaced with "rule."

**Citation of existing rules affected by this order:**

Repealed:

Amended: WAC 458-20-17802, 458-20-19301, 458-20- 217, 458-20-229, 458-20-240, 458-20-24001A, 458-20-24003, and 458-20-255

Suspended:

**Statutory authority for adoption:** RCW 82.32.300 and 82.01.060(2)

**Other authority :**

**PERMANENT RULE (Including Expedited Rule Making)**

Adopted under notice filed as WSR 16-07-078 on March 17, 2016.

Describe any changes other than editing from proposed to adopted version: The proposal included a repealer for WAC 458-20-252 that was erroneously filed in WSR 16-07-078. Pursuant to RCW 34.05.335, the Department of Revenue filed WSR 16-08-018 that withdrew the repealer for WAC 458-20-252 and proceeded with the expedited rule-making process for the eight rules being adopted.

If a preliminary cost-benefit analysis was prepared under RCW 34.05.328, a final cost-benefit analysis is available by contacting:

**WSR 16-12-075**

**Note: If any category is left blank, it will be calculated as zero.  
No descriptive text.**

Count by whole WAC sections only, from the WAC number through the history note.  
A section may be counted in more than one category.

**The number of sections adopted in order to comply with:**

<b>Federal statute:</b>	New	Amended	Repealed
<b>Federal rules or standards:</b>	New	Amended	Repealed
<b>Recently enacted state statutes:</b>	New	Amended	Repealed

**The number of sections adopted at the request of a nongovernmental entity:**

New	Amended	Repealed
-----	---------	----------

**The number of sections adopted in the agency's own initiative:**

New	Amended	8	Repealed
-----	---------	---	----------

**The number of sections adopted in order to clarify, streamline, or reform agency procedures:**

New	Amended	8	Repealed
-----	---------	---	----------

**The number of sections adopted using:**

<b>Negotiated rule making:</b>	New	Amended	Repealed
<b>Pilot rule making:</b>	New	Amended	Repealed
<b>Other alternative rule making:</b>	New	Amended	Repealed

AMENDATORY SECTION (Amending WSR 14-21-104, filed 10/15/14, effective 12/14/14)

**WAC 458-20-17802 Collection of use tax by county auditors and department of licensing—Measure of tax.** (1) **Introduction.** The department of revenue (department) has authorized county auditors and the department of licensing to collect the use tax imposed by chapter 82.12 RCW when a person applies to transfer the certificate of title of a vehicle acquired without the payment of sales tax. See RCW 82.12.045. This rule explains how county auditors, their subagents, and the department of licensing determine the measure of the use tax. This rule does not relieve a seller registered with the department of the statutory requirement to collect sales tax when selling tangible personal property, including vehicles. RCW 82.08.020 and 82.08.0251. The use tax reporting responsibilities of Washington residents in other situations and the general nature of the use tax are addressed in WAC 458-20-178 (Use tax). The application of tax to vehicles acquired by Indians and Indian tribes is discussed in WAC 458-20-192 (Indians—Indian country).

Vehicle licensing locations and information about vehicle titles and registration are available from the department of licensing on their web site at: [dol.wa.gov](http://dol.wa.gov). This information is also available by contacting the local county auditor's office listed in the government pages of a telephone directory.

(2) **What is use tax based on?** For purposes of computing the amount of use tax due, the value of the article used is the measure of tax. The value of the article used is generally the purchase price. If the purchase price does not represent the true value of the article used, the value must be determined as nearly as possible according to the retail selling price at place of use of similar vehicles of like quality and character. RCW 82.12.010.

(3) **Use of automated system to verify measure of tax.** When a person applies to transfer the certificate of title of a vehicle, county auditors, their subagents, or the department of licensing must verify that the purchase price represents the true value. In doing so, county auditors, their subagents, or the department of licensing compare the vehicle's purchase price to the average retail value of comparable vehicles using an automated valuing system. The automated valuing system identifies the average retail value using a data base that is provided by a regional industry standard source specializing in providing valuation services to local, state, and federal governments, and the private sector.

In limited situations, the automated valuing system's data base may not provide the average retail value for a vehicle. For example, the automated valuing system's data base does not provide average retail value information for collectible vehicles or vehicles that are over twenty years of age. In the absence of an average retail value, county auditors, their subagents, or the department of licensing will determine the true value as nearly as possible according to the retail selling price at place of use of similar vehicles of like character and quality. To assist in this process, the department of revenue and the department of licensing may approve the use of alternative valuing authorities as necessary.

(4) **What happens when the purchase price is presumed to represent the true value?** County auditors, their subagents, or the department of

licensing will use the purchase price to compute the amount of use tax due when the purchase price represents the vehicle's true value. County auditors, their subagents, or department of licensing will presume the purchase price represents the vehicle's true value if one of the following conditions is met:

(a) The vehicle's average retail value, as provided by the automated valuing system, is less than \$5,000.

For example, a person buys a vehicle for \$2,800. The automated valuing system indicates that the vehicle's average retail value is \$4,900. The purchase price is presumed to represent the vehicle's true value because the average retail value is less than \$5,000.

(b) The vehicle's purchase price is not more than \$2,000 below the average retail value as provided by the automated valuing system.

For example, a person buys a used vehicle for \$10,000. The automated valuing system indicates the vehicle's average retail value is \$11,500. When compared to the average retail value, the purchase price is not more than \$2,000 below the average retail value. Consequently, the purchase price is presumed to represent the vehicle's true value.

(5) **What happens when the purchase price is not presumed to represent the true value?** If the vehicle's purchase price is not presumed to be the true value as explained in subsection (4) of this rule, a person may remit use tax based on the average retail value as indicated by the automated valuing system or substantiate the true value of the vehicle using any one of the following methods.

(a) **Industry-accepted pricing guide.** A person applying to transfer a certificate of title may provide the county auditor, a subagent, or the department of licensing with documentation from one of the various industry-accepted pricing guides. The value from the industry-accepted pricing guide must represent the retail value of a similarly equipped vehicle of the same make, model, and year in a comparable condition. The purchase price is presumed to represent the vehicle's true value if the purchase price is not more than \$2,000 below the retail value.

For example, a person buys a vehicle for \$3,500. The automated valuing system indicates that the vehicle's average retail value is \$5,700. An industry-accepted pricing guide shows that the retail value of a similarly-equipped vehicle in a comparable condition of the same make, model, and year is \$5,000. When compared to the retail value established by the industry-accepted pricing guide, the purchase price is not more than \$2,000 below the retail value. Consequently, the purchase price is presumed to represent the vehicle's true value.

(b) **Declaration of buyer and seller.** A person applying to transfer a certificate of title may provide to the county auditor, a subagent, or the department of licensing a Declaration of Buyer and Seller Regarding Value of Used Vehicle Sale (REV 32 2501) to substantiate that the purchase price is the true value of the vehicle. The declaration must be signed by both the buyer and the seller and must certify to the purchase price and the vehicle's condition under penalty of perjury. The department may review a declaration and assess additional tax, interest, and penalties. A person may ~~((appeal))~~ seek review of an assessment to the department as provided in WAC 458-20-100 ~~((Appeals))~~ Informal administrative reviews.

The declaration is available on the department's web site at [dor.wa.gov](http://dor.wa.gov). It is also available at all vehicle licensing locations, department's field offices, or by writing:

Department of Revenue

Taxpayer Services  
P.O. Box 47478  
Olympia, WA 98504-7478

(c) **Written appraisal.** A person applying to transfer a certificate of title may present to the county auditor, a subagent, or the department of licensing a written appraisal from an automobile dealer, insurance or other vehicle appraiser to substantiate the true value of the vehicle. If an automobile dealer performs the appraisal, the dealer must be currently licensed with the department of ~~((licensing's))~~ licensing dealer services division or be a licensed vehicle dealer in another jurisdiction.

The written appraisal must appear on company stationery or have the business card attached and include the vehicle description, including the vehicle make, model, and identification number (VIN). The person performing the appraisal must certify that the stated value represents the retail selling price of a similarly equipped vehicle of the same make, model, and year in a comparable condition. The department may review an appraisal and assess additional tax, interest, and penalties. A person may ~~((appeal))~~ seek review of an assessment to the department as provided in WAC 458-20-100 ~~((Appeals))~~ Informal administrative reviews).

(d) **Declaration of use tax.** A person applying to transfer a certificate of title may present to the county auditor, a subagent, or the department of licensing a Declaration of Use Tax (REV 32 2486e) to substantiate the true value of the vehicle. An authorized employee of the department must complete the declaration. Determining the true value may require a visual inspection that is not available at all department locations.

(e) **Repair estimate.** A person applying to transfer a certificate of title may present to the county auditor, a subagent, or the department of licensing a written repair estimate, prepared by an auto repair or auto body repair business. This estimate will then be used to assist with determining the true value of the vehicle. The written estimate must appear on company stationery or have the business card attached. In addition, the written estimate must include the vehicle description, including the vehicle make, model, and identification number (VIN), and an itemized list of repairs. The department may review an appraisal and assess additional tax, interest, and penalties. A person may ~~((appeal))~~ seek review of an assessment to the department as provided in WAC 458-20-100 ~~((Appeals))~~ Informal administrative reviews).

The purchase price is presumed to represent the true value if the total of the purchase price and the repair estimate is not more than \$2,000 below the average retail value. For example, a person purchases a vehicle with extensive bumper damage for \$1,700. The automated valuing system indicates that the vehicle's average retail value is \$6,000. An estimate from an auto body repair business indicates a cost of \$2,500 to repair the bumper damage. The purchase price is presumed to represent the vehicle's true value because when the total of the purchase price and the repair estimate ( $\$1,700 + \$2,500 = \$4,200$ ) is compared to the average retail value, the total is not more than \$2,000 below the average retail value (\$6,000).

AMENDATORY SECTION (Amending WSR 87-23-008, filed 11/6/87)

**WAC 458-20-19301 Multiple activities tax credits.** (1) Introduction. Under the provisions of RCW 82.04.440 as amended effective August 12, 1987, Washington state's business and occupation taxes imposed under chapter 82.04 RCW were adjusted to achieve constitutional equality in the tax treatment of persons engaged in intrastate commerce (within this state only) and interstate commerce (between Washington and other states). The business and occupation tax system taxes the privilege of engaging in specified business activities based upon "gross proceeds of sales" (RCW 82.04.070) and the "value of products" (RCW 82.04.450) produced in this state. In order to maintain the integrity of this taxing system, to eliminate the possibility of discrimination between taxpayers, and to provide equal and uniform treatment of persons engaged in extracting, manufacturing, and/or selling activities regardless of where performed, a statutory system of internal and external tax credits was adopted, effective August 12, 1987. This tax credits system replaces the multiple activities exemption which, formerly, assured that the gross receipts tax would be paid only once by persons engaged in more than one taxable activity in this state in connection with the same end products. Unlike the multiple activities exemption which only prevented multiple taxation from within this state, the credits of the new system apply for gross receipts taxes paid to other taxing jurisdictions outside this state as well.

(2) Definitions. For purposes of this (~~section~~) rule the following terms will apply.

(a) "Credits" means the multiple activities tax credit(s) authorized under this statutory system also referred to as MATC.

(b) "Gross receipts tax" means a tax:

(i) Which is imposed on or measured by the gross volume of business, in terms of gross receipts or in other terms, and in the determination of which the deductions allowed would not constitute the tax an income tax or value added tax; and

(ii) Which is not, pursuant to law or custom, separately stated from the selling price.

(c) "Extracting tax" means a gross receipts tax imposed on the act or privilege of engaging in business as an extractor, and includes the tax imposed by RCW 82.04.230 (tax on extractors) and similar gross receipts taxes paid to other states.

(d) "Manufacturing tax" means a gross receipts tax imposed on the act or privilege of engaging in business as a manufacturer, and includes:

(i) The taxes imposed in RCW 82.04.240 (tax on manufacturers) and subsections (2) through (5) and (7) of RCW 82.04.260 (tax on special manufacturing activities) and

(ii) Similar gross receipts taxes paid to other states.

The term "manufacturing tax," by nature, includes a gross receipts tax upon the combination of printing and publishing activities when performed by the same person.

(e) "Selling tax" means a gross receipts tax imposed on the act or privilege of engaging in business as a wholesaler or retailer of tangible personal property in this state or any other state. The term "selling" has its common and ordinary meaning and includes the acts of making either wholesale sales or retail sales or both.

(f) "State" means:

(i) The state of Washington,

(ii) A state of the United States other than Washington or any political subdivision of such other state,

(iii) The District of Columbia,

(iv) Territories and possessions of the United States, and

(v) Any foreign country or political subdivision thereof.

(g) "Taxes paid" means taxes legally imposed and actually paid in terms of money, credits, or other emoluments to a taxing authority of any "state." The term does not include taxes for which liability for payment has accrued but for which payment has not actually been made. This term also includes business and occupation taxes being paid to Washington state together with the same combined excise tax return upon which MATC are taken.

(h) "Business," "manufacturer," "extractor," and other terms expressly defined in RCW 82.04.020 through 82.04.212 have the meanings given in those statutory sections regardless of how the terms may be used for other states' taxing purposes.

(3) Scope of credits. This integrated tax credits system is intended to assure that gross receipts from sales or the value of products determined by such gross receipts are taxed only one time, whether the activities occur entirely within this state or both within and outside this state. External tax credits arise when activities are taxed in this state and similar activities with respect to the same products produced and sold are also subject to similar taxes outside this state. There are five ways in which external tax credits may arise because of taxes paid in other states.

(a) Products or ingredients are extracted (taken from the ground) in this state and are manufactured or sold and delivered in another state which imposes a gross receipts tax on the latter activity(s). The credit created by payment of the other state's tax may be used to offset the Washington extracting tax liability.

(b) Products are manufactured, in whole or in part, in this state and sold and delivered in another state which imposes a gross receipts tax on the selling activity. Again, payment of the other state's tax may be taken as a credit against the Washington manufacturing tax liability.

(c) Conversely, products or ingredients are extracted outside this state upon which a gross receipts tax is paid in the state of extracting, and which are sold and delivered to buyers here. The other state tax payment may be taken as a credit against Washington's selling taxes.

(d) Similarly, products are manufactured, in whole or in part, outside this state and sold and delivered to buyers here. Any other state's gross receipts tax on manufacturing may be taken as a credit against Washington's selling tax.

(e) Products are partly manufactured in this state and partly in another state and are sold and delivered here or in another state. The combination of all other states' gross receipts taxes paid may be taken as credits against Washington's manufacturing and/or selling taxes.

Thus, the external tax credits may arise in the flow of commerce, either upstream or downstream from the taxable activity in this state, or both. Products extracted in another state, manufactured in Washington state, and sold and delivered in a third state may derive credits for taxes paid on both of the out-of-state activities.

Internal tax credits arise from multiple business activities performed entirely within this state, all of which are now subject to tax, but with the integrated credits offsetting the liabilities so that tax is only paid once on gross receipts. Under this system Wash-

ington extractors and manufacturers who sell their products in this state at wholesale and/or retail must report the value of products or gross receipts under each applicable tax classification. Credits may then be taken in the amount of the extracting and/or manufacturing tax paid to offset the selling taxes due. There are three ways in which credits may arise because of taxes paid exclusively in this state.

(f) Products are extracted in Washington and directly sold in Washington. Extracting business and occupation tax and selling business and occupation tax must both be reported but the payment of the former is a credit against the latter.

(g) Similarly, ingredients are extracted in Washington and manufactured into new products in this state. The extracting business and occupation tax reported and paid may be taken as a credit against manufacturing tax reported.

(h) Products manufactured in Washington are sold in Washington. Again, the payment of the manufacturing tax reported may be credited against the selling tax (wholesaling and/or retailing business and occupation tax) reported.

All of the external and internal tax credits derived from any flow of commerce may be used, repeatedly if necessary, to offset other tax liabilities related to the production and sale of the same products.

(4) Eligibility for taking credits. Statutory law places the following eligibility requirements and limitations upon the MATC system.

(a) The amount of the credit(s), however derived, may not exceed the Washington tax liability against which the credit(s) may be used. Any excess of credit(s) over liability may not be carried over or used for any purpose.

(b) The person claiming the credit(s) must be the same person who is legally obligated to pay both the taxes which give rise to the credit(s) and the taxes against which the credit is claimed. The MATC is not assignable.

(c) The taxes which give rise to the credit(s) must be actually paid before credit may be claimed against any other tax liability. Tax liability merely accrued is not creditable.

(d) The business activity subject to tax, and against which credit(s) is claimed, must involve the same ingredients or product upon which the tax giving rise to the credit(s) was paid. The credits must be product-specific.

(e) The effective date for developing and claiming credit(s) for products manufactured in Washington state and sold and delivered in other states which impose gross receipts selling taxes is June 1, 1987.

(f) The effective date for developing and claiming all credits other than those explained in subsection (e) above, is August 12, 1987.

(g) Persons who are engaged only in making wholesale or retail sales of tangible personal property which they have not extracted or manufactured are not entitled to claim MATC. Also, persons engaged in rendering services in this state are not so entitled, even if such services have been defined as "retail sales" under RCW 82.04.050. (See WAC 458-20-194 for rules governing apportionment of gross receipts from interstate services.)

(5) Other states' qualifying taxes. The law defines "gross receipts tax" paid to other states to exclude income taxes, value added taxes, retail sales taxes, use taxes, or other taxes which are generally stated separately from the selling price of products sold. Only

those taxes imposed by other states which include gross receipts of a business activity within their measure or base are qualified for these credit(s). The burden rests with the person claiming any MATC for other states' taxes paid to show that the other states' tax was a tax on gross receipts as defined herein. Gross receipts taxes generally include:

(a) Business and occupation privileges taxes upon extracting, manufacturing, and selling activities which are similar to those imposed in Washington state in that the tax measure or base is not reduced by any allocation, apportionment, or other formulary method resulting in a downward adjustment of the tax base. If costs of doing business may be generally or routinely deducted from the tax base, the tax is not one which is similar to Washington state's gross receipts tax.

(b) Severance taxes measured by the selling price of the ingredients or products severed (oil, logs, minerals, natural products, etc.) rather than measured by costs of production, stumpage values, the volume or number of units produced, or some other formulary tax base.

(c) Business franchise or licensing taxes measured by the gross volume of business in terms of gross receipts or other financial terms rather than units of production or the volume of units sold.

Other states' tax payments claimed for MATC must be identifiable with the same ingredients or products which incurred tax liability in Washington state, i.e., they must be product specific.

(d) The department will periodically publish an excise tax bulletin listing current taxes in other jurisdictions which are either qualified or disqualified for credit under the MATC system.

(6) Deductions in combination with MATC. Effective August 12, 1987, with the enactment of the MATC system, the liability for actual payment of tax by persons who extract, manufacture, and sell products in this state was shifted from the selling activity (wholesaling or retailing) to the production activity (extracting and/or manufacturing). As explained, the payment of the production taxes may now be credited against the liability for selling taxes on the same products. However, the deductions from tax provided by chapter 82.04 RCW (business and occupation tax deductions) may still be taken before tax credits are computed and used, with noted exceptions. In order for the MATC system to result in the correct computation of tax liabilities and credit applications, the tax deductions which may apply for any reporting period must be taken equally against both levels of tax liability reported, i.e., at both the production and selling levels. Failure to report tax deductions in this manner will result in overreporting tax due and may result in overpayment of tax. Thus, with the exceptions noted below, tax deductions formerly reported only against selling activities should now be reported against production activities as well. All such deductions, the result of which is to reduce the measure of tax reported, should be taken against both the production taxes (extracting or manufacturing) and the selling taxes (wholesaling and/or retailing) equally.

(a) Example:

(i) A company manufactures products in Washington which it also sells at wholesale for \$5,000 and delivers to a buyer in this state. The buyer defaults on part of the payment and the seller incurs a \$2,000 credit loss which it writes off as a bad debt during the tax reporting period. The bad debt deduction provided by RCW 82.04.4284 must be shown on both the manufacturing-other line and the wholesaling-other line of the combined excise tax return. Taking the deduction

on only one of those activities results in overreported tax liability on the \$2,000 loss.

(b) Exceptions. The deductions generally provided by RCW 82.04.4286, for interstate or foreign sales (where goods are sold and delivered outside this state) may not be taken against tax reported at the production level (extracting or manufacturing). This is because the MATC system itself provides for tax credits instead of tax deductions on gross receipts from transactions involving goods produced in this state and sold in interstate or foreign commerce. Thus, deductions which eliminate transactions from tax reporting may be taken only against selling taxes.

(c) Applicable deductions should be shown on the front of the combined excise tax return (Column #3) on each applicable tax classification line and detailed on the back side of the return, as usual, before MATC is taken.

(d) It is not the intent of the MATC law to invalidate or nullify the business and occupation tax exemption for taxable amounts below minimum (see WAC 458-20-104). Thus any person whose gross receipts or value of products reported under any single tax classification with respect to the production and sale of any product is less than the minimum taxable amount will not incur tax liability merely because of the requirement to report those gross receipts or value of products on the same product under other tax classifications as well.

(i) Example: A person both manufactures and sells at wholesale \$2,000 worth of widgets in the first quarter of a tax year. The requirement to report the \$2,000 tax measure under both the manufacturing-other classification and the wholesaling-other classification gives the false appearance of \$4,000 in gross receipts during this quarter. However, only the amount reported under the manufacturing-other classification need be considered to determine eligibility for the amount-below-minimum exemption.

(7) How and when to take MATC. The credits available under the MATC system are all to be taken on the combined excise tax return beginning in August, 1987 and thereafter. The return form has been modified to accommodate these credits. Each tax return upon which MATC has been taken must be accompanied by a completed Schedule C. This schedule details the business activities and credits computations. The line by line instructions insure that no more or no less credits are claimed than are authorized under the law.

(8) Consolidation of tax liabilities and credits. Under the MATC system a person's Washington tax liability for all activities involved in that person's production and sale of the same ingredients or products (extracting, and/or manufacturing, and/or selling) is to be reported only at the time of the sale of such products or at the time of that person's own use of such products for commercial or industrial consumption. All of the taxable activities are to be reported on that same periodic excise tax return. Also, all external and internal tax credits derived from the payment of any gross receipts taxes on any of these activities are to be taken at that time. Thus, the taxable activities and the tax credits are procedurally consolidated for reporting. This consolidation generally overcomes any need to track ingredients or products from their extraction to their sale. It also overcomes any need to report and pay Washington tax liability during one reporting period and to take credits against that tax liability in a different reporting period. Thus, except as noted below, there can be no credit carryovers or carrybacks under this system.

(a) Exception. Where different tax reporting periods are assigned by Washington state and another state to a company doing business both within and outside Washington state, the other state's gross receipts tax on the same products may not yet have been paid when the Washington tax is due for reporting and payment. In such cases the Washington tax due must be timely reported and paid during the period in which the sale is made. The external credit arising later, when the other state's tax is paid, may be taken as a credit against any Washington business and occupation tax reported during that later period. Thus, the limitation that the MATC must be product-specific by being limited to the amount of Washington tax paid on the same products does not mean that the credit(s) can only be used against precisely those same Washington taxes paid.

(i) In the situation described in subsection (a) above, if there is not sufficient Washington business and occupation tax due for payment in the later period, when the external tax credit arises, to allow for utilization of the entire credit, the amount of any overage may be carried forward and taken against Washington taxes reported in subsequent reporting periods until fully used.

When filing such exception returns, the full amount of any credits should be claimed, even though that credit amount will exceed the amount of tax liability reported for that period. The department of revenue itself will make the necessary adjustments and will perform the carrying over of any excess credits into future reporting periods.

(ii) In the same situation, if the person entitled to claim such credit overage is no longer engaged in taxable business in this state or for any other reason does not incur sufficient Washington business and occupation tax liability to fully utilize the perfected credit overage, a tax refund will be issued.

(iii) No tax refunds, MATC carryovers, or MATC carrybacks will be allowed under any circumstances other than those explained above.

(b) Special circumstances may arise where it is not possible to specifically identify ingredients or products as they move from production to sale (e.g., fungible commodities from various sources stored in a common warehouse). In such cases the taxpayer should seek advance approval from the department, in writing, for tax reporting and credit taking on a test period, formulary, or volume percentage basis, subject to audit verification.

(9) Recordkeeping requirements. Persons claiming the MATC must keep and preserve such records and documents as may be necessary to prove their entitlement to any credits taken under this system (RCW 82.32.070). It is not required to submit copies of such proofs when credits are claimed or together with the Schedule C detail. Rather, such records must be kept for a period no less than five years from the date of the tax return upon which the related tax credits are claimed. Such records are fully subject to audit for confirmation of the validity and amounts of credits taken. Records which must be preserved by persons claiming external tax credits include:

(a) Copies of sales contracts, or other written or memorialized evidence of any sales agreements, including purchase and billing invoices showing the origin state and destination state of products sold.

(b) Copies of shipping or other delivery documents identifying the products sold and delivered, reconcilable with the selling documents of subsection (a) above, if appropriate.

(c) Copies of production reports, transfer orders, and similar such documents which will reflect the intercompany or interdepartmen-

tal movement of extracted ingredients or manufactured products where no sale has occurred.

(d) Copies of tax returns or reports filed with other states' taxing authorities showing the kinds and amounts of taxes paid to such other states for which MATC is claimed.

(e) Copies of (~~cancelled~~) canceled checks or other proofs of actual tax payment to the other state(s) giving rise to the MATC claimed.

(f) Copies of any other state(s) taxing statutes, laws, ordinances, and other appropriate legal authorities necessary to establish the nature of the other states' tax as a gross receipts tax, as defined in this (~~section~~) rule.

(g) Failure to keep and preserve proofs of entitlement to the MATC will result in the denial of credits claimed and the assessment of all taxes offset or reduced by such credits as well as the additional assessment of interest and penalties as required by law. (See RCW 82.32.050.)

(10) MATC in combination with other credits. The tax credits authorized under this system may be taken in combination with other tax credits available under Washington law. Such other credit programs, however, authorize credit carryovers from reporting period to period until the credits are fully utilized. Thus, the MATC must be computed and used to offset business and occupation tax liabilities during any tax reporting period before any other program credits to which a claimant may be entitled are claimed or applied. Failure to compute and take the MATC before applying other available credits may result in the loss of the other credit benefits.

(11) Superseding provisions. The MATC provisions of this (~~section~~) rule supersede and control the provisions of other (~~sections~~) rules of chapter 458-20 WAC (other tax rules) relating to intrastate, interstate, and foreign transactions to the extent that such provisions are or appear to be contrary or conflicting.

(12) Unique or special credit situations—(~~Appeals~~) Reviews. The provisions of this (~~section~~) rule generally explain the nature of the MATC system and the tax credit qualifications, limitations, and claiming procedures. The complexity of the integrated tax reporting and credit taking procedures may develop situations or questions which are not addressed herein. Such matters and requests for specialized rulings should be submitted to the department of revenue for prior determination before credits are claimed. Generally, prior determinations will be provided within sixty days after the department receives the information necessary to make such a ruling. Adverse rulings, tax credit denials, or tax assessments resulting from audits or other examinations of returns upon which the MATC is claimed may be administratively (~~appealed~~) reviewed under the provisions of chapter 82.32 RCW and WAC 458-20-100.

AMENDATORY SECTION (Amending WSR 14-22-023, filed 10/27/14, effective 11/27/14)

**WAC 458-20-217 Lien for taxes. (1) Introduction.** This rule provides an overview of the administrative collection remedies and procedures available to the department of revenue (department) to collect

unpaid and overdue tax liabilities. It discusses tax liens and the liens that apply to probate, insolvency, assignments for the benefit of creditors, bankruptcy and public improvement contracts. The rule also explains the personal liability of persons in control of collected but unpaid sales tax. Although the department may use judicial remedies to collect unpaid tax, most of the department's collection actions are enforced through the administrative collection remedies discussed in this rule.

(2) **Tax liens.** The department is not required to obtain a judgment in court to have a tax lien. A tax lien is created when a warrant issued under RCW 82.32.210 is filed with a superior court clerk who enters it into the judgment docket. A copy of the warrant may be filed in any county in this state in which the department believes the taxpayer has real and/or personal property. The department is not required to give a taxpayer notice prior to filing a tax warrant. *Peters v Sjolholm*, 95 Wn.2d 871, 877, 631 P.2d 937 (1981) *appeal dismissed, cert. denied* 455 U.S. 914 (1982). The tax lien is an encumbrance on property. The department may enforce a tax lien by administrative levy, seizure or through judicial collection remedies.

(a) **Attachment of lien.** The filed warrant becomes a specific lien upon all personal property used in the conduct of the business and a general lien against all other real and personal property owned by the taxpayer against whom the warrant was issued.

(i) The specific lien attaches to all goods, wares, merchandise, fixtures, equipment or other personal property used in the conduct of the business of the taxpayer. Other personal property includes both tangible and intangible property. For example, the specific lien attaches to business assets such as accounts receivable, chattel paper, royalties, licenses and franchises. The specific lien also attaches to property used in the business which is owned by persons other than the taxpayer who have a beneficial interest, direct or indirect, in the operation of the business. (See subsection (3) of this rule for what constitutes a beneficial interest.) The lien is perfected on the date it is filed with the superior court clerk. The lien does not attach to property used in the business that was transferred prior to the filing of the warrant. It does attach to all property existing at the time the warrant is filed as well as property acquired after the filing of the warrant. No sale or transfer of such personal property affects the lien.

(ii) The general lien attaches to all real and personal nonbusiness property such as the taxpayer's home and nonexempt personal vehicles.

(b) **Lien priorities.** The department does not need to levy or seize property to perfect its lien. The lien is perfected when the warrant is filed. The tax lien is superior to liens that vest after the warrant is filed.

(i) The lien for taxes is superior to bona fide interests of third persons that vested prior to the filing of the warrant if such persons have a beneficial interest in the business.

(ii) The lien for taxes is also superior to any interest of third persons that vested prior to the warrant if the interest is a mortgage of real or personal property or any other credit transaction that results in the mortgagee or the holder of the security acting as the trustee for unsecured creditors of the taxpayer mentioned in the warrant.

(iii) In most cases, to have a vested or perfected security interest in personal property, the secured party must file a UCC financ-

ing statement indicating its security interest. RCW 62A.9-301. See RCW 62A.9-302 for the exceptions to this general rule. The financing statement must be filed prior to the filing of the tax warrant for the lien to be superior to the department's lien.

(c) **Period of lien.** A filed tax warrant creates a lien that is enforceable for the same period as a judgment in a civil case that is docketed with the clerk of the superior court. RCW 82.32.210(4). A judgment lien expires ten years from the date of filing. RCW 4.56.310. The department may extend the lien for an additional ten years by filing a petition for an order extending the judgment with the clerk of the superior court. The petition must be filed within ninety days of the expiration of the original ten-year period. RCW 6.17.020.

(3) **Persons who have a beneficial interest in a business.** A third party who receives part of the profit, a benefit, or an advantage resulting from a contract or lease with the business has a beneficial interest in the operation of the business. A party whose only interest in the business is securing the payment of debt or receiving regular rental payments on equipment does not have a beneficial interest. Also, the mere loaning of money by a financial institution to a business and securing that debt with a UCC filing does not constitute a beneficial interest in the business. Rather, a party who owns property used by a delinquent taxpayer must also have a beneficial interest in the operation of that business before the lien will attach to the party's property. The definition of the term "beneficial interest" for purposes of determining lien priorities is not the same as the definition used for tax free transfers described in WAC 458-20-106.

(a) **Third party.** A third party is simply a party other than the taxpayer. For example, if the taxpayer is a corporation, an officer or shareholder of that corporation is a "third party" with a beneficial interest in the operation of the business. If the corporate insider has a security interest in property used by the business, the tax lien will be superior even if the corporate insider's lien was filed before the department's lien.

(b) **Beneficial interest of lessor.** In some cases a lessor or franchisor will have a beneficial interest in the leased or franchised business. For example, an oil company that leases a gas station and other equipment to an operator and requires the operator to sell its products is a third party with a beneficial interest in the business. Factors which support a finding of a beneficial interest in a business include the following:

(i) The business operator is required to pay the lessor or franchisor a percentage of gross receipts as rent;

(ii) The lessor or franchisor requires the business operator to use its trade name and restricts the type of business that may be operated on the premises;

(iii) The lease places restrictions on advertising and hours of operation; and/or

(iv) The lease requires the operator to sell the lessor's products.

(c) A third party who has a beneficial interest in a business with a filed lien is not personally liable for the amounts owing. Instead, the amount of tax, interest and penalties as reflected in the warrant becomes a specific lien upon the third party's property that is used in the business.

(4) **Notice and order to withhold and deliver.** A tax lien is sufficient to support the issuance of a writ of garnishment authorized by chapter 6.27 RCW. RCW 82.32.210(4). A tax lien also allows the depart-

ment to issue a notice and order to withhold and deliver. A notice and order to withhold and deliver (order) is an administrative garnishment used by the department to obtain property of a taxpayer from a third party such as a bank or employer. See RCW 82.32.235. The department may issue an order when it has reason to believe that a party is in the possession of property that is or shall become due, owing or belonging to any taxpayer against whom a warrant has been filed.

(a) **Service of order.** The department may serve an order to withhold and deliver to any person, or to any political subdivision or department of the state. The order may be served by the sheriff or deputy sheriff of the county where service is made, by any authorized representative of the department, or by certified mail.

(b) **Requirement to answer order.** A person upon whom service has been made is required to answer the order in writing within twenty days of service of the order. The date of mailing or date of personal service is not included when calculating the due date of the answer. All answers must be true and made under oath. If an answer states that it cannot presently be ascertained whether any property is or shall become due, owing, or belonging to such taxpayer, the person served must answer when such fact can be ascertained. RCW 82.32.235.

(i) If the person served with an order possesses property of the taxpayer subject to the claim of the department, the party must deliver the property to the department or its duly authorized representative upon demand. If the indebtedness involved has not been finally determined, the department will hold the property in trust to apply to the indebtedness involved or for return without interest in accordance with the final determination of liability or nonliability. In the alternative, the department must be furnished a satisfactory bond conditioned upon final determination of liability. RCW 82.32.235.

(ii) If the party upon whom service has been made fails to answer an order to withhold and deliver within the time prescribed, the court may enter a default judgment against the party for the full amount claimed owing in the order plus costs. RCW 82.32.235.

(c) **Continuing levy.** A notice and order to withhold and deliver constitutes a continuing levy until released by the department. RCW 82.32.237.

(d) **Assets that may be attached.** Both tangible assets, as a vehicle, and intangible assets may be attached. Examples of intangible assets that may be attached by an order to withhold and deliver include, but are not limited to, checking or savings accounts; accounts receivable; refunds or deposits; contract payments; wages and commissions, including bonuses; liquor license deposits; rental income; dealer reserve accounts held by service stations or auto dealers; and funds held in escrow pending sale of a business. Certain insurance proceeds are subject to attachment such as the cash surrender value of a policy. The department may attach funds in a joint account that are owned by the delinquent taxpayer. Funds in a joint account with the right of survivorship are owned by the depositors in proportion to the amount deposited by each. RCW 30.22.090. The joint tenants have the burden to prove the separate ownership.

(e) **Assets exempt from attachment.** Examples of assets which are not attachable include Social Security, railroad retirement, welfare, and unemployment benefits payable by the federal or state government.

(5) **Levy upon real and/or personal property.** The department may issue an order of execution, pursuant to a filed warrant, directing the sheriff of the county in which the warrant was filed to levy upon and sell the real and/or personal property of the taxpayer in that

county. RCW 82.32.220. If the department has reason to believe that a taxpayer has personal property in the taxpayer's possession that is not otherwise exempt from process or execution, the department may obtain a warrant to search for and seize the property. A search warrant is obtained from a superior or district court judge in the county in which the property is located. See RCW 82.32.245.

(6) **Probate, insolvency, assignment for the benefit of creditors or bankruptcy.** In all of these cases or conditions, the claim of the state for unpaid taxes and increases and penalties thereon, is a lien upon all real and personal property of the taxpayer. RCW 82.32.240. All administrators, executors, guardians, receivers, trustees in bankruptcy, or assignees for the benefit of creditors are required to notify the department of such administration, receivership, or assignment within sixty days from the date of their appointment and qualification. In cases of insolvency, this includes the duty of the person who is winding down the business to notify the department.

(a) The state does not have to take any action to perfect its lien. The lien attaches the date of the assignment for the benefit of creditors or of the initiation of the probate or bankruptcy. In cases of insolvency, the lien attaches at the time the business becomes insolvent. The lien, however, does not affect the validity or priority of any earlier lien that may have attached in favor of the state under any other provision of the Revenue Act.

(b) Any administrator, executor, guardian, receiver, or assignee for the benefit of creditors who does not notify the department as provided above is personally liable for payment of the taxes and all increases and penalties thereon. The personal liability is limited to the value of the property subject to administration that otherwise would have been available to pay the unpaid liability.

(c) In probate cases in which a surviving spouse or surviving domestic partner is separately liable for unpaid taxes and increases and penalties thereon, the department does not need to file a probate claim to protect the state's interest against the surviving spouse or surviving domestic partner. The department may collect from the separate property of the surviving spouse or surviving domestic partner and any assets formerly community property or property of the domestic partnership which become the property of the surviving spouse or the surviving domestic partner. If the deceased spouse or deceased domestic partner and/or the community or domestic partnership also was liable for the tax debt, the claim also could be asserted in the administration of the estate of the deceased spouse or deceased domestic partner.

(7) **Lien on retained percentage of public improvement contracts.** Every public entity engaging a contractor under a public improvement project of thirty-five thousand dollars or more, shall retain five percent of the total contract price, including all change orders, modifications, etc. This retainage is a trust fund held for the benefit of the department and other statutory claimants. In lieu of contract retainage, the public entity may require a bond. All taxes, increases, and penalties due or to become due under Title 82 RCW from a contractor or the contractor's successors or assignees with respect to a public improvement contract of thirty-five thousand dollars or more shall be a lien upon the amount of the retained percentage withheld by the disbursing officer under such contract. RCW 60.28.040.

(a) **Priorities.** The employees of a contractor or the contractor's successors or assignees who have not been paid the prevailing wage under the public improvement contract have a first priority lien against

the bond or retainage. The department's lien for taxes, increases, and penalties due or to become due under such contract is prior to all other liens. The amount of all other taxes, increases and penalties due from the contractor is a lien upon the balance of the retained percentage after all other statutory lien claims have been paid. RCW 60.28.040.

(b) **Release of funds.** Upon final acceptance by the public entity or completion of the contract, the disbursing officer shall contact the department for its consent to release the funds. The officer cannot make any payment from the retained percentage until the department has certified that all taxes, increases, and penalties due have been paid or are readily collectible without recourse to the state's lien on the retained percentage. RCW 60.28.050 and 60.28.051.

(8) **Personal liability for unpaid trust funds.** The retail sales tax and all spirits taxes under RCW 82.08.150 are to be held in trust. RCW 82.08.050. As a trust fund, the retail sales tax and spirits taxes are not to be used to pay other corporate or personal debts.

Whenever the department has issued a warrant under RCW 82.32.210 for the collection of unpaid retail sales tax funds or spirits taxes funds collected and held in trust under RCW 82.08.050 from a limited liability business entity and that entity is terminated, dissolved, abandoned, or insolvent, RCW 82.32.145 authorizes the department to impose personal liability against any or all of the responsible individuals. For a responsible individual who is the current or a former chief executive or chief financial officer, personal liability may be imposed regardless of fault or whether the individual was or should have been aware of the unpaid retail sales tax or spirits taxes liability. Collection authority and procedures prescribed in chapter 82.32 RCW apply to the collection of personal liability assessments.

(a) **Responsible individual.**

(i) A responsible individual includes any current or former officer, manager, member, partner, or trustee of a limited liability business entity with an unpaid tax warrant issued by the department.

(A) "Officer" means any officer or assistant officer of a corporation, including the president, vice-president, secretary, and treasurer.

(B) "Manager" has the same meaning as in RCW 25.15.005.

(C) "Member" has the same meaning as in RCW 25.15.005, except that the term only includes members of member-managed limited liability companies.

(ii) "Responsible individual" also includes any current or former employee or other individual, but only if the individual had the responsibility or duty to remit payment of the limited liability business entity's unpaid sales tax liability reflected in a tax warrant issued by the department.

(A) A responsible individual may have "control and supervision" of collected retail sales tax or spirits taxes or the responsibility to report the tax under corporate bylaws, job description, or other proper delegation of authority. The delegation of authority may be established by written documentation or by conduct.

(B) Except for the current or a former chief executive or chief financial officer of a limited liability business entity, a responsible individual must have significant but not necessarily exclusive control or supervision of the trust funds. Neither a sales clerk who only collects the tax from the customer nor an employee who only deposits the funds in the bank has significant supervision or control of the retail sales tax or spirits taxes. An employee who has the respon-

sibility to collect, account for, and deposit trust funds does have significant supervision or control of the tax.

(C) A person is not required to be a corporate officer or have a proprietary interest in the business to be a responsible individual.

(D) A member of the board of directors, a shareholder, or an officer may have trust fund liability if that person has the authority and discretion to determine which corporate debts should be paid and approves the payment of corporate debts out of the collected retail sales or spirits taxes trust funds.

(E) More than one person may have personal liability for the trust funds if the requirements for liability are present for each person.

(iii) Whenever a limited liability business entity with an unpaid tax warrant issued against it by the department has one or more limited liability business entities as a member, manager, or partner, "responsible individual" also includes any current and former officers, members, or managers of the limited liability business entity or entities or of any other limited liability business entity involved directly in the management of the limited liability business entity with an unpaid tax warrant issued against it by the department.

**(b) Chief executive or chief financial officer.**

(i) For a responsible individual who is the current or a former chief executive or chief financial officer of a limited liability business entity, liability under this rule applies regardless of fault or whether the individual was or should have been aware of the unpaid retail sales tax or spirits taxes liability of the limited liability business entity. There is no "willfully fails to pay" requirement for chief executive officers and chief financial officers.

(ii) A responsible individual who is the current or a former chief executive or chief financial officer is liable under this rule only for retail sales tax or spirits taxes liability accrued during the period that he or she was the chief executive or chief financial officer. However, if the responsible individual had the responsibility or duty to remit payment of the limited liability business entity's retail sales tax or spirits taxes to the department during any period of time that the person was not the chief executive or chief financial officer, that individual is also liable for retail sales tax or spirits taxes liability that became due during the period that he or she had the duty to remit payment of the limited liability business entity's taxes to the department but was not the chief executive or chief financial officer.

(iii) "Chief executive" means: The president of a corporation; or for other entities or organizations other than corporations or if a corporation does not have a president as one of its officers, the highest ranking executive manager or administrator in charge of the management of the company or organization.

(iv) "Chief financial officer" means: The treasurer of a corporation; or for entities or organizations other than corporations or if a corporation does not have a treasurer as one of its officers, the highest senior manager who is responsible for overseeing the financial activities of the entire company or organization.

**(c) Other responsible individuals.**

(i) For any other responsible individual, liability under this rule applies only if he or she willfully fails to pay or to cause to be paid to the department the retail sales tax or spirits taxes due from the limited liability business entity.

(A) "Willfully fails to pay or to cause to be paid" means that the failure was the result of an intentional, conscious, and voluntary course of action. Intent to defraud or bad motive is not required. For example, using collected retail sales tax or spirits taxes to pay other corporate obligations is a willful failure to pay the trust funds to the state.

(B) Depositing retail sales tax or spirits taxes funds in a bank account knowing that the bank might use the funds to off-set amounts owing to it is engaging in a voluntary course of action. It is a willful failure to pay if the bank exercises its right of set-off which results in insufficient funds to pay the corporate retail sales tax or spirits taxes that were collected and deposited in the account. To avoid personal liability in such a case, the responsible individual can set aside the collected retail sales tax or spirits taxes and not commingle it with other funds that are subject to attachment or set-off.

(C) If the failure to pay the trust funds to the state was due to reasons beyond an individual's control, the failure to pay is not willful. For example, if evidence is provided that the trust funds were unknowingly stolen or embezzled by another employee, the failure to pay is not considered willful. To find that a failure to pay the trust funds to the state was due to reasons beyond an individual's control, the facts must show both that the circumstances caused the failure to pay the tax and that the circumstances were beyond the individual's control.

(D) If a responsible individual instructs an employee or hires a third party to remit the collected retail sales tax or spirits taxes, the responsible individual is not relieved of personal liability for the tax if the tax is not paid.

(ii) Responsible individuals other than a current or former chief executive or chief financial officer of the limited liability business entity are liable under this rule only for retail sales tax or spirits taxes liability that became due during the period he or she had the responsibility or duty to remit payment of the limited liability business entity's taxes to the department.

(d) **Limited liability business entity.**

(i) A "limited liability business entity" is a type of business entity that generally shields its owners from personal liability for the debts, obligations, and liabilities of the entity, or a business entity that is managed or owned in whole or in part by an entity that generally shields its owners from personal liability for the debts, obligations, and liabilities of the entity. Limited liability business entities include corporations, limited liability companies, limited liability partnerships, trusts, general partnerships and joint ventures in which one or more of the partners or parties are also limited liability business entities, and limited partnerships in which one or more of the general partners are also limited liability business entities.

(ii) Whenever the department has issued a warrant under RCW 82.32.210 for the collection of unpaid retail sales tax or spirits taxes funds collected and held in trust under RCW 82.08.050 from a limited liability business entity and that business entity has been terminated, dissolved, or abandoned, or is insolvent, the department may pursue collection of the entity's unpaid state and local sales taxes, including penalties and interest on those taxes, against any or all of the responsible individuals.

(e) **Requirements for liability.** In order for a responsible individual to be held personally liable for collected and unpaid retail sales tax or spirits taxes:

(i) The tax must be the liability of a limited liability business entity.

(ii) The limited liability business entity must be terminated, dissolved, abandoned, or insolvent. Insolvent means the condition that results when the sum of the entity's debts exceeds the fair market value of its assets. The department may presume that an entity is insolvent if the entity refuses to disclose to the department the nature of its assets and liabilities.

(f) **Extent of liability.** Trust fund liability includes the collected but unpaid retail sales tax or spirits taxes as well as the interest and penalties due on the tax.

(g) Except for the current or a former chief executive or chief financial officer of a limited liability business entity, an individual is only liable for trust funds collected during the period he or she had the requisite control, supervision, responsibility, or duty to remit the tax, plus interest and penalties on those taxes.

(h) ~~((Appeal))~~ **Review of personal liability assessment.** Any person who receives a personal liability assessment is encouraged to request a supervisory conference if the person disagrees with the assessment. The request for the conference should be made to the department representative that issued the assessment or the representative's supervisor at the department's field office. A supervisory conference provides an opportunity to resolve issues with the assessment without further action. If unable to resolve the issue, the person receiving the assessment is entitled to administrative and judicial appeal procedures. RCW 82.32.145(4). See also RCW 82.32.160, 82.32.170, 82.32.180, 82.32.190, and 82.32.200.

While encouraged to request a supervisory conference, any person receiving a personal liability assessment may elect to forego the supervisory conference and proceed directly with an ~~((appeal))~~ administrative review of the assessment. Refer to WAC 458-20-100 for information about the department's informal administrative ~~((appeal procedures))~~ reviews, including how to timely file a petition for ~~((appeal))~~ review.

(9) **Notice of lien.** Under RCW 82.32.212, the department may issue a notice of lien to secure payment of a tax warrant issued under RCW 82.32.210. The notice of lien is an alternative to filing a lien under RCW 82.32.210. The notice of lien is against any real property in which the taxpayer has an ownership interest.

(a) To file a notice of lien the amount of the tax warrant at issue must exceed twenty-five thousand dollars. The department must determine that issuing the notice of tax lien would best protect the state's interest in collecting the amount due on the warrant.

(b) The notice of tax lien is recorded with a county auditor in lieu of filing a warrant with the clerk of a county superior court. A general lien authorized in RCW 82.32.210 can be filed (or refiled) if the department determines that filing or refiled the warrant is in the best interest of collecting the amount due on the tax warrant, or the warrant remains unpaid six months after the notice of lien is issued.

AMENDATORY SECTION (Amending WSR 08-14-038, filed 6/23/08, effective 7/24/08)

**WAC 458-20-229 Refunds.** (1) **Introduction.** This ((~~section~~)) rule explains the procedures relating to refunds or credits for the overpayment of taxes, penalties, or interest. It describes the statutory time limits for refunds and the interest rates that apply to those refunds.

References to a "refund application" in this ((~~section~~)) rule include a request for a credit against future tax liability as well as a refund to the taxpayer.

Examples provided in this ((~~section~~)) rule should be used only as a general guide. The tax results of other situations must be determined after a review of all facts and circumstances.

(2) **What are the time limits for a tax refund or credit?**

(a) **Time limits.** No refund or credit may be made for taxes, penalties, or interest paid more than four years before the beginning of the calendar year in which a refund application is made or examination of records by the department is completed. See RCW 82.32.060. This is a nonclaim statute rather than a statute of limitations. This means a valid application must be filed within the statutory period, which may not be extended or tolled, unless a waiver extending the time for assessment has been entered into as described in (c) of this subsection.

For example, a refund or credit may be granted for any overpayment made in a shaded year in the following chart:

<u>Year 1</u>	<u>Year 2</u>	<u>Year 3</u>	<u>Year 4</u>	<u>Year 5</u>	<u>Year 6</u>
					<u>Refund application is filed no later than December 31<sup>st</sup></u>

(b) **Relation back to date paid.** Because the time limits relate to the date the taxes, penalties, or interest is paid, a refund application can be timely even though the payment concerned liabilities for a tax year normally outside the time limits. For example, Taxpayer P owes \$1,000 in B&O tax for activity undertaken in December 2000. In January 2001, Taxpayer P makes an arithmetic error and submits a payment of \$1,500 with its December 2000 tax return. In December 2005, Taxpayer P requests a refund of \$500 for the overpayment of taxes for the December 2000 period. This request is timely because the overpayment occurred within the time limits, even though the payment concerned tax liabilities incurred (December 2000) outside the time limits.

Fact situations can be complicated. For example, Taxpayer P pays B&O taxes in Years 1 through 4. The department subsequently conducts an audit of Taxpayer P that includes Years 1-4. The audit is completed in Year 5. As a result of the audit, the department issues an assessment in Year 5 for \$50,000 in additional retail sales taxes that were due from Years 1-4. Taxpayer P pays the assessment in full in Year 6. In Year 10, Taxpayer P files an application requesting a refund of B&O taxes. Taxpayer P's application is timely because it relates to a pay-

ment (payment of the assessment in Year 6) made no more than four years before the year in which the application is filed. It does not matter that the taxes relate to years outside the time limits; the actual payment occurred within four years before the refund application. Nor does it matter that the refund is based on an overpayment of B&O taxes while the assessment involved retail sales taxes, because both taxes relate to the same tax years. However, the amount of any refund is limited to \$50,000 - the amount of the payment that occurred within the time limits.

Assume the same facts as described above. When the department reviews Taxpayer P's refund application, it determines that the refund is valid. After reviewing the new information, however, the department also determines that Taxpayer P should have paid \$20,000 in additional B&O taxes during Years 1-4. Because Taxpayer P paid \$30,000 more than the amount properly due (\$50,000 overpayment less \$20,000 underpayment), the amount of the refund will be \$30,000.

(c) **Waiver.** Under RCW 82.32.050 or 82.32.100, a taxpayer may agree to waive the time limits and extend the time for the assessment of taxes, penalties and interest. If the taxpayer executes such a waiver, the time limits for a refund or credit are extended for the same period.

(3) **How do I get a refund or credit?**

(a) **Departmental examination of returns.** If the department performs an examination of the taxpayer's records and determines that the taxpayer has overpaid taxes, penalties, or interest, the department will issue a refund or a credit, at the taxpayer's option. In this situation, the taxpayer does not need to apply for a refund.

(b) **Taxpayer application.**

(i) If a taxpayer discovers that it has overpaid taxes, penalties, or interest, it may apply for a refund or credit. Refund application forms are available from the following sources:

- The department's internet web site at <http://dor.wa.gov>
- By facsimile by calling Fast Fax at 360-705-6705 or 800-647-7706 (using menu options)
- By writing to:

Taxpayer Services  
Washington State Department of Revenue  
P.O. Box 47478  
Olympia, WA 98504-7478.

The application form should be submitted to the department at the following location:

Taxpayer Account Administration  
P.O. Box 47476  
Olympia, WA 98504-7476.

Taxpayers are encouraged to use the department's refund application form to ensure that all necessary information is provided for a timely valid application. However, while use of the department's application form is encouraged, it is not mandatory and any written request for refund or credit meeting the requirements of this (~~section~~) rule shall constitute a valid application. Filing an amended return showing an overpayment will also constitute an application for refund or credit, provided that the taxpayer also specifically identifies the basis for the refund or credit.

(ii) A taxpayer must submit a refund application within the time limits described in subsection (2)(a) of this (~~section~~) rule. An application must contain the following five elements:

(A) The taxpayer's name and UBI/TRA number must be on the application.

(B) The amount of the claim must be stated. Where the exact amount of the claim cannot be specifically ascertained at time of filing, the taxpayer may submit an application containing an estimated claim amount. Taxpayers must explain why the amount of the claim cannot be stated with specificity and how the estimated amount of the claim was determined.

(C) The tax type and taxable period must be on the application.

(D) The specific basis for the claim must be on the application. Any basis for a refund or credit not specifically identified in the initial refund application will be considered untimely, except that an application may be refiled to add additional bases at any time before the time limits in subsection (2) of this (~~section~~) rule expire.

(E) The signature of the taxpayer or the taxpayer's representative must be on the application. If the taxpayer is represented, the confidential taxpayer information waiver signed by the taxpayer specifically for that refund claim must be received by the department by the date the substantiation documents are first required, without regard to any extensions. If the signed confidential taxpayer information waiver for the refund claim lists the representative as an entity, every member or employee of that entity is authorized to represent the taxpayer. If the signed confidential taxpayer information waiver for the refund claim lists the representative as an individual, only that individual is authorized to represent the taxpayer.

(iii) If the nonclaim statute has run prior to the filing of the application, the department will deny the application and notify the taxpayer.

(iv) If the department determines that the taxpayer is not entitled to a refund as a matter of law, the application may be denied without requiring substantiation. The taxpayer shall be responsible for maintaining substantiation as may eventually be needed should taxpayer (~~appeal~~) seek review.

(v) The taxpayer is encouraged to file substantiation documents at the time of filing the application. However, once an application is filed, the taxpayer must submit sufficient substantiation to support the claim for refund or credit before the department can determine whether the claim is valid. The department will notify the taxpayer if additional substantiation is required. The taxpayer must provide the necessary substantiation within ninety days after such notice is sent, unless the documentation is under the control of a third party, not affiliated with or under the control of the taxpayer, in which case the taxpayer will have one hundred eighty days to provide the documentation. The department may request any other books, records, invoices or electronic equivalents and, where appropriate, federal and state tax returns to determine whether to accept or deny the claimed refund and to assess an existing deficiency.

(vi) In its discretion and upon good cause shown, the department may extend the period for providing substantiation upon its own or the taxpayer's request, which may not be unreasonably denied.

(vii) If the department does not receive the necessary substantiation within the applicable time period, the department shall deny the claim for lack of adequate substantiation and shall so notify the taxpayer. Any application denied for lack of adequate substantiation

may be filed again with additional substantiation at any time before the time limits in subsection (2) of this (~~section~~) rule expire. Once the department determines that substantiation is sufficient, the department shall process the refund claim within ninety days, except that the department may extend the time of processing such claim upon notice to the taxpayer and explanation of why the claim cannot be completed within such time.

(viii) The following examples illustrate the refund application process:

(A) A taxpayer discovers in January 2005 that its June 2004 excise tax return was prepared using incorrect figures that overstated its sales, resulting in an overpayment of tax. The taxpayer files an amended June 2004 tax return with the department's taxpayer account administration division. The department will treat the taxpayer's amended June 2004 tax return as an application for a refund or credit of the amounts overpaid during that tax period, except that the taxpayer must also specifically identify the basis for the refund or credit and provide sufficient substantiation to support the claim for refund or credit. The taxpayer may satisfy this obligation by submitting a completed refund application form with its amended return or providing the additional required substantiation by other means.

(B) On December 31, 2005, a taxpayer files an amended return for the 2001 calendar year. The return includes changed figures indicating that an overpayment occurred, but does not provide any supporting substantiation. No written waiver of the time limits, under subsection (2)(c) of this (~~section~~) rule, for this time period exists. The department sends a letter notifying the taxpayer that the taxpayer's application is not complete and substantiation must be provided within ninety days or the application will be denied. If the taxpayer does not provide the necessary substantiation by the stated date, the claim will be denied and, if refiled, will not be granted because it is then past the nonclaim limit of the statute.

(C) Taxpayer submits a refund application on December 31, 2004, claiming that taxpayer overpaid use tax in 2000 on certain machinery and equipment obtained by the taxpayer at that time. No substantiation is provided with the application and no written waiver of the time limit, under subsection (2)(c) of this (~~section~~) rule, for this taxable period exists. The department sends a letter notifying the taxpayer that the taxpayer's application is not complete and substantiation must be provided within ninety days or the application will be denied. The taxpayer does not respond by the stated date. The claim will be denied and, if refiled, will not be granted since it is then past the nonclaim limit of the statute.

(D) Assume the same facts as in (b)(viii)(B) and (C) of this subsection, except that within ninety days from the date the department sent the letter the taxpayer submits substantiation, which the department deems sufficient. The taxpayer's claim is valid, notwithstanding that the substantiation was provided after the nonclaim limit expired.

(E) Assume the same facts as in (b)(viii)(B) and (C) of this subsection, except that before the ninety-day period expires, the taxpayer requests an additional fifteen days in which to respond, explaining why the substantiation will require the additional time to assemble. The department agrees to the extended deadline. If the taxpayer submits the requested substantiation within the resulting one hundred five-day period, the department will not deny the claim for failure to provide timely substantiation.

(F) Assume the same facts as in (b)(iii)(B) and (C) of this subsection, except that the taxpayer submits substantiation within ninety days. The department reviews the substantiation and finds that it is still insufficient. The department, in its discretion, may extend the deadline and request additional substantiation from the taxpayer or may deny the refund claim as not substantiated.

(4) **May I get a refund of retail sales tax paid in error?**

(a) **Refund from seller.** Except as provided for in RCW 82.08.130 regarding deductions for tax paid at source, if a buyer pays retail sales tax on a transaction that the buyer later believes was not taxable, the buyer should request a refund or credit directly from the seller from whom the purchase was made. If the seller determines the tax was not due and issues a refund or credit to the buyer, the seller may seek its own refund from the department. It is better for a buyer to seek a retail sales tax refund directly from the seller. This is because the seller has the records to know if retail sales tax was collected on the original sale, knows the buyer, knows the circumstances surrounding the original sale, is aware of any disputes between itself and the buyer concerning the product, and may already be aware of the circumstances as to why a refund of sales tax is or is not appropriate. If a seller questions whether he or she should refund sales tax to a buyer, the seller may request advice from the department's telephone information center at 1-800-647-7706.

(b) **Refund from department.** In certain situations where the buyer has not received a refund from the seller, the department will refund retail sales tax directly to a buyer. The buyer must file a complete refund application as described in subsection (3)(b) of this (~~section~~) rule and either a seller's declaration or a buyer's declaration, under penalty of perjury, must be provided for each seller.

(i) If the buyer is able to obtain a waiver from the seller of the seller's right to claim the refund, the buyer should file a seller's declaration, under penalty of perjury, with the refund application. A seller's declaration substantiates that:

(A) Retail sales tax was collected and paid to the department on the purchase for which a refund is sought;

(B) The seller has not refunded the retail sales tax to the buyer or claimed a refund from the department; and

(C) The seller will not seek a refund of the sales tax from the department.

(ii) If the seller no longer exists, the seller refuses to sign the declaration, under penalty of perjury, or the buyer is unable to locate the seller, the buyer should file a buyer's declaration, under penalty of perjury, with the refund application. The buyer's declaration explains why the buyer is unable to obtain a seller's declaration and provides information about the seller and declares that the buyer has not obtained and will not in the future seek a refund from the seller for that claim.

(iii) Seller's declaration, under penalty of perjury, and buyer's declaration, under penalty of perjury, forms are available from the following sources:

- The department's internet web site at <http://dor.wa.gov>
- By facsimile by calling Fast Fax at 360-705-6705 or 800-647-7706 (using menu options)
- By writing to:

Taxpayer Services  
Washington State Department of Revenue

P.O. Box 47478  
Olympia, WA 98504-7478.

(5) **May I use statistical sampling to substantiate a refund?** Sampling will only be used when a detailed audit is not possible. However, if your applications for refund or credit involve voluminous documents, the preferred method for substantiating your application is the use of statistical sampling. Alternative methods of sampling, including but not limited to, random sampling, time period sampling, transaction sampling, and block sampling, may be used when the department agrees that such methods are appropriate.

When using statistical sampling or an alternative method to substantiate an application for refund or credit, the applicant must contact the department prior to preparing the sampling to obtain the department's approval of the sampling plan. The sampling plan will describe the following:

- Population and sampling frame;
- Sampling unit;
- Source of the random numbers;
- Who will physically locate the sample units and how and where they will be presented for review;
- Any special instructions to those who were involved in reviewing the sample units;
- Special valuation guidelines to any of the sample units selected in the sample;
- How the sample will be evaluated, including the precision and confidence levels; and
- The applicant must obtain a seller's declaration from those sellers identified in the sample and separately certify, under penalty of perjury, that applicant will not otherwise request or accept a refund or credit for sales or deferred sales tax paid to any seller or any use tax remitted during the taxable period covered by the audit.

Failure to contact the department before preparing the sampling may result in the department rejecting the application on the grounds that the results are not statistically valid.

Contact the department prior to performing a statistical sampling at these locations:

- The department's internet web site at <http://dor.wa.gov>
- By facsimile by calling Fast Fax at 360-705-6705 or 800-647-7706 (using menu options)
- By writing to:

Taxpayer Services  
Washington State Department of Revenue  
P.O. Box 47478  
Olympia, WA 98504-7478.

(6) **Is my refund final?** The department may review a refund or credit provided on the basis of a taxpayer application without an examination by audit. If the refund or credit is granted and the department subsequently determines that the refund or credit exceeded the amount properly due the taxpayer, the department may issue an assessment to recover the excess amount. This assessment must be made within the time limits of RCW 82.32.050.

(7) **Refunds made as a result of a court decision.** The department will grant refunds or credits required by a court or Board of Tax Appeals decision, if the decision is not under appeal.

If the court action requires the refund or credit of retail sales taxes, the department will not require that buyers attempt to obtain a refund directly from the seller if it would be unreasonable and an undue burden on the buyer. In such a case, the department may refund the retail sales tax directly to the buyer and may use the public media to notify persons that they may be entitled to refunds or credits. The department will make available special refund application forms that buyers must use for these situations. The application will request the appropriate information needed to identify the buyer, item purchased, amount of sales tax to be refunded, and the seller. The department may, at its discretion, request additional documentation that the buyer could reasonably be expected to retain, based on the particular circumstances and value of the transaction. The department will approve or deny such refund requests within ninety days after the buyer has submitted all documentation.

(8) **What interest is due on my refund?** Interest is due on a refund or credit granted to a taxpayer as provided in this subsection.

(a) **Rate for overpayments made between 1992 through 1998.** For amounts overpaid by a taxpayer between January 31, 1991 and December 31, 1998, the rate of interest on refunds and credits is:

(i) Computed the same way as the rate provided under (b) of this subsection minus one percent, for interest allowed through December 31, 1998; and

(ii) Computed the same way as the rate provided under (b) of this subsection, for interest allowed after December 31, 1998.

(b) **Rate for overpayments after 1998.** For amounts overpaid by a taxpayer after December 31, 1998, the rate of interest on refunds and credits is the average of the federal short-term rate as defined in 26 U.S.C. Sec. 1274(d) plus two percentage points. The rate is adjusted on the first day of January of each year by taking an arithmetical average to the nearest percentage point of the federal short-term rate, compounded annually, for the months of January, April and July of the immediately preceding calendar year and October of the previous preceding year, as published by the United States Secretary of Treasury.

(c) **Start date for the calculation of interest.** If the taxpayer made all overpayments for each calendar year and all reporting periods ending with the final month included in a credit notice or refund on or before the due date of the final return for each calendar year or the final reporting period included in the notice or refund, interest is computed from either:

(i) January 31st following each calendar year included in a notice or refund; or

(ii) The last day of the month following the final month included in a notice or refund.

If the taxpayer did not make all overpayments for each calendar year and all reporting periods ending with the final month included in the notice or refund, interest is computed from the last day of the month following the date on which payment in full of the liabilities was made for each calendar year included in a notice or refund, and the last day of the month following the date on which payment in full of the liabilities was made if the final month included in a notice or refund is not the end of a calendar year.

(d) **Calculation of interest on credits.** The department will include interest on credit notices with the interest computed to the date the taxpayer could reasonably be expected to use the credit notice, generally the due date of the next tax return. If a taxpayer re-

quests that a credit notice be converted to a refund, interest is re-computed to the date the refund (warrant) is issued, but not to exceed the interest that would have been granted through the credit notice.

(9) **May the department apply my refund against other taxes I owe?** The department may apply overpayments against existing deficiencies and/or future assessments for the same legal entity. However, if preliminary schedules have not been issued regarding existing deficiencies or future assessments and the taxpayer is not presently under audit, the refund of an overpayment may not be delayed when the department determines a refund is due. The following examples illustrate the application of overpayments against existing deficiencies:

(a) The taxpayer's records are audited for the period Year 1 through Year 4. The audit disclosed underpayments in Year 2 and overpayments in Year 4. The department will apply the overpayments in Year 4 to the deficiencies in Year 2. The resulting amount will indicate whether a refund or credit is owed the taxpayer or whether the taxpayer owes additional tax.

(b) The department has determined that the taxpayer has overpaid its real estate excise tax. The department believes that the taxpayer may owe additional B&O taxes, but this has yet to be established. The department will not delay the refund of the real estate excise tax while it schedules and performs an audit for the B&O taxes.

(c) The department simultaneously performed a timber tax audit and a B&O tax audit of a taxpayer. The audit disclosed underpayments of B&O tax and overpayments of timber tax. Separate assessments were issued on the same date, one showing additional taxes due and the other overpayments. The department may apply the overpayment against the tax deficiency assessment since both the underpayment and overpayment have been established.

(10) **How do I (~~appeal~~) seek review of the department's decision?** The taxpayer may (~~appeal~~) seek review of the denial of: A refund claim (or any part thereof, including tax, penalties, or interest overpayments), a request for an extension for providing substantiation, or a request to use a specific sampling technique. Taxpayer may (~~appeal~~) seek review to either:

(a) The department as provided in WAC 458-20-100(~~(, Appeals, small claims and settlements)~~) (Informal administrative reviews); or

(b) Directly to Thurston County superior court.

(11) **Application.** This (~~section~~) rule applies to refund applications or amended returns showing overpayments, where the taxpayer has also specifically identified the basis for the refund or credit, that are received by the department on or after the effective date of this (~~section~~) rule.

AMENDATORY SECTION (Amending WSR 15-15-033, filed 7/8/15, effective 8/8/15)

**WAC 458-20-240 Manufacturer's new employee tax credits—Applications filed after June 30, 2010.** (1) **Introduction.** Chapter 82.62 RCW provides business and occupation (B&O) tax credits to certain persons engaged in manufacturing and research and development activities. These credits are intended to stimulate the economy by creating employment opportunities in specific rural counties and community empow-

erment zones of this state. The credits are as much as \$4,000 per qualified employment position. This rule explains the eligibility requirements and application procedures for this program. It is important to note that an application for the tax credits must be submitted to the department of revenue (department) within ninety consecutive days after the first qualified employment position is filled. See subsection (6) of this rule for additional information regarding this application requirement.

(2) **Who is eligible for these tax credits?** Subject to certain qualifications, an applicant (person applying for a tax credit under chapter 82.62 RCW) who is engaged in an eligible business project is entitled to the tax credits provided by chapter 82.62 RCW.

(a) **What is an eligible business project?** An "eligible business project" means:

(i) Manufacturing, commercial testing, or research and development activities conducted by an applicant;

(ii) In an eligible area at a specific facility;

(iii) Where employment increases as described under subsection (3) of this rule; and

(iv) Does not include any portion of a business project undertaken by a light and power business or any portion of a business project creating employment positions outside an eligible area.

To be considered an "eligible business project," the applicant's number of average full-time qualified employment positions at the specific facility must increase by fifteen percent in the four consecutive full calendar quarters after the calendar quarter during which the first qualified employment position is filled. Subsection (4) of this rule explains how to determine whether this threshold is satisfied.

New businesses meeting all requirement of the program, whether new to Washington or newly formed, are eligible for all qualified employment positions filled during the four consecutive full calendar quarters immediately preceding the quarter during which the first qualified employment position is filled.

(b) **What is an eligible area?** An "eligible area" is:

(i) A rural county, which is a county with fewer than one hundred persons per square mile or, a county smaller than two hundred twenty-five square miles, as determined annually by the office of financial management and published by the department effective for the period of July 1st through June 30th (see RCW 82.14.370); or

(ii) A community empowerment zone (CEZ). CEZ means an area meeting the requirements of RCW 43.31C.020 and officially designated by the director of the department of commerce. For a business located in a CEZ, credit is only earned for those employees, who at the time of hire, are residents of the CEZ in which the project is located.

(iii) **How to determine whether an area is an eligible area.** Rural county designation information can be obtained from the office of financial management internet web site at [www.ofm.wa.gov/pop/popden/rural.asp](http://www.ofm.wa.gov/pop/popden/rural.asp). The department has instituted a geographic information system (GIS), referred to as the Tax Rate Lookup Tool, to assist taxpayers in determining taxing jurisdiction boundaries, local tax rates, and a mapping and address lookup system to determine whether a specific address is within a CEZ. The system is available on the department's internet web site at [dor.wa.gov](http://dor.wa.gov).

(c) **What are manufacturing and research and development activities?**

(i) **Manufacturing.** "Manufacturing" has the meaning given in RCW 82.04.120. In addition, for the purposes of chapter 82.62 RCW, "manufacturing" also includes the activities performed by research and development laboratories and commercial testing laboratories.

(ii) **Research and development.** "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun, but only when such activities are intended to ultimately result in the production of a new, different, or useful substance or article of tangible personal property for sale. "Commercial sales" does not include sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(3) **What are the hiring requirements?** The average full-time qualified employment positions at the specific facility will be at least fifteen percent greater in the four consecutive full calendar quarters after the calendar quarter during which the first qualified employment position is filled than the applicant's average qualified employment positions at the same facility in the four consecutive full calendar quarters immediately preceding the calendar quarter during which the first qualified employment position is filled.

(a) **What is a qualified employment position?** A "qualified employment position" means a position filled by a permanent full-time employee employed at an eligible business project for four consecutive full calendar quarters. Once a full-time position is established and filled it will continue to be considered "filled" even during periods of vacancy, provided the cumulative period of any vacancies in that position is not more than one hundred twenty days in the four quarter period and the employer is training or actively recruiting a permanent replacement, full-time employee for the position.

(b) **What is a "permanent full-time employee"?** A "permanent full-time employee" is a position that is filled by an employee who satisfies any one of the following minimum thresholds:

(i) Works thirty-five hours per week for fifty-two consecutive weeks;

(ii) Works four hundred fifty-five hours, excluding overtime, each quarter for four consecutive quarters; or

(iii) Works one thousand eight hundred twenty hours, excluding overtime, during a period of twelve consecutive months.

(c) **"Permanent full-time employee" - Seasonal operations.** For applicants that regularly operate on a seasonal basis only and that employ more than fifty percent of their employees to work on a seasonal basis, a "permanent full-time employee" is a permanent full-time employee as described above or an employee(s) that works the equivalent amount of hours on a seasonal basis.

(4) **How to determine if the fifteen percent employment increase requirement is met.** The credit is only available to applicants who satisfy the fifteen percent employment increase.

(a) **Determining the fifteen percent increase.** To determine the projected number of permanent full-time qualified employment positions necessary to satisfy the fifteen percent employment increase requirement:

(i) Determine the average number of permanent full-time qualified employment positions that existed at the facility during the four consecutive full calendar quarters immediately preceding the calendar quarter for which the first qualified employment position is filled.

(ii) Multiply the average number of full-time positions from subsection (i) by .15 or fifteen percent. The resulting number equals the number of new positions that must be filled to meet the fifteen percent increase. Numbers are rounded down to the nearest whole number.

(b) **When does hiring have to occur?** All hiring increases must occur during the four consecutive full calendar quarters after the calendar quarter during which the first qualified employment position is filled for purposes of meeting the fifteen percent threshold test. Positions hired in the four consecutive full calendar quarters prior to the first qualified employment position being filled are not eligible for a credit but the positions are used as a base when calculating whether the fifteen percent threshold has been met.

(c) **The department will assist applicants to determine their hiring requirements.** Accompanying the tax credit application is a worksheet to assist the applicant in determining if the fifteen percent qualified employment threshold is satisfied. Based upon the information provided in the application, the department will advise applicants of their minimum number of hiring needs for which credits are being sought.

(d) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax status of each situation must be determined after a review of all of the facts and circumstances.

(i) ABC Company anticipates increasing employment at a manufacturing facility by an average of 15 full-time qualified employment positions for a total of 113 positions. The average number of full-time qualified employment positions for the four consecutive full calendar quarters immediately preceding the calendar quarter for which the first qualified employment position is filled was 98. To qualify for the tax credit program, the minimum average number of full-time qualified employment positions required for the four consecutive full calendar quarters after the calendar quarter for which the first qualified positions is filled is  $98 \times .15 = 14.7$  (rounding down to 14 positions). Therefore, ABC Company's plan to hire 15 full-time qualified employees satisfies the 15% employment increase requirement.

(ii) ABC anticipates increasing employment positions at this same manufacturing facility by an average of 15 additional full-time qualified employment positions during the following four consecutive full calendar quarters for a total of 128 positions. To qualify for the tax credit program, the minimum average number of full-time qualified employment positions required for these four consecutive full calendar quarters is 16 ( $113 \times .15 = 16.95$ , rounding down to 16). Therefore, ABC Company's plan to hire 15 full-time qualified employees does not satisfy the 15% employment increase requirement.

(5) **Restriction against displacing existing jobs within Washington.** The law provides that no recipient may use tax credits approved under this program to decertify a union or to displace existing jobs in any community of the state. Thus, the average expected increase of employment positions at the specific facility for which application is made must reflect a gross increase in the applicant's employment of persons at all locations in this state. Transfers of personnel from existing positions outside of an eligible area to new positions at the specific facility within an eligible area will not be allowed for purposes of approving tax credits. Also, layoffs or terminations of employment by the recipient at other locations in Washington but outside an eligible area for the purpose of hiring new positions within an el-

eligible area will result in the withdrawal of any credits taken or approved.

(6) **Application procedures.** A taxpayer must file an application with and obtain approval from the department to receive tax credits under this program. A new application must be submitted after each group of four consecutive full calendar quarters that you project employment to increase over 15%. RCW 82.62.020 requires that application for the tax credits be filed within the first ninety days after the first qualified employment position is filled. Applications failing to satisfy this statutory requirement will be disapproved.

(a) **How to obtain and file applications.** Application forms will be provided by the department upon request either by calling 360-902-7175 or from the department's internet web site at dor.wa.gov under the option for forms. The completed application may be sent by fax to 360-586-0527 or mailed to the following address:

Taxpayer Account Administration  
Washington State Department of Revenue  
(~~State of Washington~~)  
P.O. Box 47476  
Olympia, WA 98504-7476

The U.S. Post Office postmark or fax date will be used as the date of application.

(b) **Confidentiality.** Applications, reports, or any other information received by the department in connection with this tax credit program, except applications not approved by the department, are not confidential and are subject to disclosure. All other taxpayer information is subject to the confidentiality provisions in RCW 82.32.330.

(c) **Department to act upon application within sixty days.** The department will determine if the applicant qualifies for tax credits on the basis of the information provided in the application and will approve or disapprove the application within sixty days. If approved, the department will issue a credit approval notice containing the dollar amount of tax credits available for use and the procedures for taking the credit. If disapproved, the department will notify the applicant in writing of the specific reasons for disapproval. The applicant may seek administrative review of the department's disapproval of an application by filing a petition for review with the department. The petition must be filed within thirty days from the date of notice of the disallowance pursuant to the provisions of WAC 458-20-100(~~Appeals~~) (Informal administrative reviews).

(d) **No adjustment of credit after approval.** After an application is approved and tax credits are granted, no upward adjustment of the application will be made for the four calendar quarters for which the application was approved.

(7) **How much is the tax credit?** The amount of tax credit is based on the number of qualified employment positions created and the wages and benefits paid to these qualified employees.

(a) **How much tax credit may I claim for each qualified employment position?** The amount of tax credit that may be claimed for each position created is as follows:

(i) Two thousand dollars for each qualified employment position that pays forty thousand dollars or less in wages and benefits annually and is employed in an eligible business project; and

(ii) Four thousand dollars for each qualified employment position that pays more than forty thousand dollars in wages and benefits annually and is employed in an eligible business project.

(b) **What qualifies as wages and benefits?** For the purposes of chapter 82.62 RCW, "wages" means compensation paid to an individual for personal services, whether denominated as wages, salary, commission, bonus, or otherwise. "Benefits" means compensation not paid as wages and includes Social Security, retirement, health care, life insurance, industrial insurance, unemployment compensation, vacation, holiday, sick leave, military leave, and jury duty. "Benefits" does not include any amount reported as wages.

(8) **How to claim approved credits.** The recipients must take the tax credits approved under this program on excise tax returns filed using the department's Efile system. These tax credits may not exceed the B&O tax liability.

(a) **When can credits be used?** The credits cannot be used until the department has approved the application. After approval, a recipient may use \$2,000 or \$4,000 of tax credit at the time it hires each new employee, depending on the wage/benefit level of the position filled.

(b) **No refunds for unused credits.** No tax refunds will be made for any tax credits which exceed tax liability during the life of this program. If tax credits derived from qualified hiring exceed the recipients' business and occupation tax liability in any one calendar year under this program, they may be carried forward to the next reporting period(s), until used.

(9) **Report to be filed by recipient.** A recipient of tax credits under this program must complete and submit a report of employment activities to substantiate that he or she has complied with the hiring and retention requirements for approved credits. RCW 82.62.050. This report must be filed with the department by the last day of the month immediately following the end of the four consecutive full calendar quarter period for which a credit is earned. Based upon this report, the department will verify that the recipient is entitled to the tax credits approved by the department when the application was reviewed. The completed report may be sent by fax to 360-586-0527 or mailed to the following address:

Taxpayer Account Administration  
Washington State Department of Revenue  
(~~(State of Washington)~~)  
P.O. Box 47476  
Olympia, WA 98504-7476

The U.S. Post Office postmark or fax date will be used as the date of filing.

(a) **Verification of report.** The department will use the same report the recipient provides to the department of employment security, which is known as the quarterly employment security report, to verify the recipient's eligibility for tax credits. The recipient must maintain copies of the quarterly employment report for the four consecutive full calendar quarters prior to the quarter for which the first qualified employment position is filled, the five calendar quarters for which the credits are claimed (this includes the quarter for which the first qualified employment position is filled), and the four consecutive full calendar quarters following the hiring of persons to fill the qualified employment positions. (The recipient does not have to forward copies of the quarterly employment report to the department each quarter.) The department may use other wage information provided to the department by the department of employment security. The tax-

payer must provide additional information to the department, as the department finds necessary to calculate and verify wage eligibility.

(b) **Failure to file report.** The law provides that if any recipient fails to submit a report or submits an inadequate report, the department may declare the amount of taxes for which credit has been used to be immediately due and payable. An inadequate report is one which fails to provide information necessary to confirm that the requisite number of employment positions has been created and maintained for four consecutive full calendar quarters.

(10) **What if the required number of positions is not created?** The law provides that if the department finds that a recipient is not eligible for tax credits for any reason, other than failure to create the required number of qualified employment positions, the amount of taxes for which any credit has been used will be immediately due. No interest or penalty will be assessed in such cases. However, if the department finds that a recipient has failed to create the specified number of qualified employment positions, the department will assess interest, but not penalties, on the taxes against which the credit has been used. This interest on the assessment is mandatory and will be assessed at the statutory rate under RCW 82.32.050, retroactively to the date the tax credit was used. The interest will accrue until the taxes for which the credit was used are fully repaid. RCW 82.32.050. The interest rates under RCW 82.32.050 can be obtained from the department's web site at dor.wa.gov or by calling the department's information center at 1-800-647-7706.

(11) **Program thresholds.** The department cannot approve any credits that will cause the total credits approved to exceed seven million five hundred thousand dollars in any fiscal year. RCW 82.62.030. A "fiscal year" is the twelve-month period of July 1st through June 30th. If all or part of an application for credit is disallowed due to cap limitations, the disallowed portion will be carried over for approval the next fiscal year. However, the applicant's carryover into the next fiscal year is only permitted if the total credits approved for the next fiscal year does not exceed the cap for that fiscal year as of the date on which the department has disallowed the application.

AMENDATORY SECTION (Amending WSR 10-21-052, filed 10/14/10, effective 11/14/10)

**WAC 458-20-24001A Sales and use tax deferral—Manufacturing and research/development activities in rural counties—Applications filed prior to July 1, 2010.** (1) **Introduction.** Chapter 82.60 RCW establishes a sales and use tax deferral program. The purpose of the program is to promote economic stimulation, create employment opportunities, and reduce poverty in certain areas of the state. The legislature established this program to be effective solely in those areas and for those circumstances where the deferral is for investments that result in the creation of a specified minimum number of jobs or investment for a qualifying project.

The program applies to sales and use taxes on materials and labor and services rendered in the construction of qualified buildings or acquisition of qualified machinery and equipment and requires the recipient of the deferral to maintain the manufacturing or research and

development activity for an eight-year period. This rule does not address RCW 82.08.02565 and 82.12.02565, which provide a statewide sales and use tax exemption for machinery and equipment used directly in a manufacturing operation. Refer to WAC 458-20-13601 for more information regarding the statewide exemption.

(2) **Program background.** This program was enacted in 1985. The legislature made major revisions to program criteria in 1993, 1994, 1995, 1996, 1999, 2004, 2009, and 2010, specifically to the definitions of "eligible area," "eligible investment project," "qualified building," and "qualifying county." Each revision created additional criteria for prospective applicants. This rule is written in five parts and covers applications made prior to July 1, 2010. Each part sets forth the requirements on the basis of the period of time in which application is made. Refer to the year during which application was made for information on an individual application. For applications made after June 30, 2010, see WAC 458-20-24001.

The employment security department and the department of community, trade, and economic development administer additional programs for distressed areas and job training and should be contacted directly for information concerning these programs.

#### PART I

### Applications from March 31, 2004, to June 30, 2010

#### (101) Who is eligible for the sales and use tax deferral program?

A person engaged in manufacturing or research and development activity is eligible for this deferral program for its eligible investment project.

(a) **What does the term "person" mean for purposes of this ((section)) rule?** "Person" has the meaning given in RCW 82.04.030. "Person" does not include the state of Washington or its institutions. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of chapter 82.60 RCW.

(i) The lessor or owner of the qualified building is not eligible for deferral unless:

(A) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(B) All of the following conditions are met:

(I) The lessor has by written contract agreed to pass the economic benefit of the deferral to the lessee;

(II) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070;

(III) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor; and

(IV) Upon request, the lessor must provide the department with written documentation to support the eligibility of the deferral, including any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

For example, economic benefit of the deferral is passed through to the lessee when evidenced by written documentation that the amounts paid to the lessor for construction of tenant improvements are reduced by the amount of the sales tax deferred, or that the lessee receives more tenant improvements through a credit for tenant improvements or other mechanism in the lease equal to the amount of the sales tax deferred.

(ii) The lessor of the qualified building who receives a letter of intent from a qualifying lessee may be eligible for deferral, assuming that all other requirements of chapter 82.60 RCW are met. At the time of application, the lessor must provide to the department a letter of intent by the lessee to lease the qualified building and any other information to prove that the lessee will engage in qualified research and development or pilot scale manufacturing once the building construction is complete. After the investment project is certified as operationally complete, the lessee must actually occupy the building as a lessee and engage in qualified research and development or pilot scale manufacturing. Otherwise, deferred taxes will be immediately due to the lessor, and interest will be assessed retroactively from the date of deferral.

(b) **What is "manufacturing" for purposes of this ((section)) rule?** "Manufacturing" has the meaning given in RCW 82.04.120. Manufacturing, in addition, includes:

(i) Computer programming, the production of computer software, and other computer-related services, but only when the computer programming, production of computer software, or other computer-related services are performed by a manufacturer as defined in RCW 82.04.110 and contribute to the production of a new, different, or useful substance or article or tangible personal property for sale (chapter 16, Laws of 2010);

(ii) The activities performed by research and development laboratories and commercial testing laboratories; and

(iii) Effective July 1, 2006, manufacturing also includes the conditioning of vegetable seeds.

For purposes of this ((section)) rule, both manufacturers and processors for hire may qualify for the deferral program as being engaged in manufacturing activities. Refer to WAC 458-20-136 (Manufacturing, processing for hire, fabricating) for more information on processors for hire.

For purposes of this ((section)) rule, "computer-related services" means activities such as programming for the manufactured product. It includes creating operating systems, software, and other similar goods that will be copied and sold as canned software. "Computer-related services" does not include information services, such as data or information processing. The activities performed by the manufacturer to test, correct, revise, or upgrade software or hardware before they are approved for sale to the consumer are considered computer-related services.

For purposes of this ((section)) rule, "vegetable seeds" includes the seeds of those crops that are grown in gardens and on truck farms and are generally known and sold under the name of vegetable or herb seeds in this state. "Vegetable seeds" includes, but is not limited to, cabbage seeds, carrot seeds, onion seeds, tomato seeds, and spinach seeds. Vegetable seeds do not include grain seeds, cereal seeds, fruit seeds, flower seeds, tree seeds, and other similar properties.

(c) **What is "research and development" for purposes of this ((section)) rule?** "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun, but only when such activities are intended to ultimately result in the production of a new, different, or useful substance or article of tangible personal property. (Chapter 16, Laws of 2010.) For purposes of this ((section)) rule, "commercial sales" excludes sales of prototypes or sales for

market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(102) **What is eligible for the sales and use tax deferral program?** This deferral program applies to an eligible investment project for sales and use taxes imposed on the construction, expansion, or renovation of qualified buildings and acquisition of qualified machinery and equipment.

(a) **What is an "eligible investment project" for purposes of this ((section)) rule?** "Eligible investment project" means an investment project in an eligible area. Refer to (g) of this subsection for more information on eligible area. "Eligible investment project" does not include an investment project undertaken by a light and power business as defined in RCW 82.16.010, other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part. It also does not include an investment project that has already received a deferral under chapter 82.60 RCW.

(b) **What is an "investment project" for purposes of this ((section)) rule?** "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project.

(c) **What is "qualified buildings" for purposes of this ((section)) rule?** "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity, used for manufacturing or research and development activities.

(i) "Qualified buildings" is limited to structures used for manufacturing and research and development activities. "Qualified buildings" includes plant offices and warehouses if such facilities are essential to or an integral part of a factory, mill, plant, or laboratory used for manufacturing or research and development.

(A) "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building its use must be essential or integral to the manufacturing or research and development operation. Office space that is used by supervisors and their staff, by technicians, by payroll staff, by the safety officer, and by the training staff are examples of qualifying office space. An office may be located in a separate building from the building used for manufacturing or research and development activities, but the office must be located at the same site as the qualified building in order to qualify. Each individual office may only qualify or disqualify in its entirety.

(B) "Warehouse" means buildings or facilities used for the storage of raw materials or finished goods. A warehouse may be located in a separate building from the building used for manufacturing or research and development activities, but the warehouse must be located at the same site as the qualified building in order to qualify. Warehouse space may be apportioned based upon its qualifying use.

(C) A site is one or more immediately adjacent parcels of real property. Adjacent parcels of real property separated only by a public road comprise a single site.

(ii) "Qualified buildings" does not include construction of landscaping or most other work outside the building itself, even though the landscaping or other work outside the building may be required by the city or county government in order for the city or county to issue a permit for the construction of a building.

However, "qualified buildings" includes construction of specialized sewerage pipes connected to a qualified building that are specifically designed and used exclusively for manufacturing or research and development.

Also, "qualified buildings" includes construction of parking lots connected to or adjacent to the building if the parking lots are for the use of workers performing manufacturing or research and development in the building. Parking lots may be apportioned based upon its qualifying use.

(d) **When is apportionment of qualified buildings appropriate?** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of an existing building used in manufacturing or research and development. Where a building(s) is used partly for manufacturing or research and development and partly for purposes that do not qualify for deferral under this ((section)) rule, apportionment is necessary.

(e) **What are the apportionment methods?** The deferral is determined by one of the following two apportionment methods. The first method of apportionment is based on square footage and does not require tracking the costs of materials for the qualifying/nonqualifying areas of a building. The second method of apportionment tracks the costs of materials used in the qualifying/nonqualifying areas, and it is primarily used by those industries with specialized building requirements.

(i) **First method.** The applicable tax deferral can be determined by apportionment according to the ratio of the square footage of that portion of the building(s) directly used for manufacturing or research and development purposes bears to the square footage of the total building(s).

Apportionment formula:

$$\frac{\text{Eligible square feet of building(s)}}{\text{Total square feet of building(s)}} = \text{Percent Eligible}$$

Percent Eligible x Total Project Costs = Eligible Costs.

"Total Project Costs" means cost of multipurpose buildings and other improvement costs associated with the deferral project. Machinery and equipment are not included in this calculation. Common areas, such as hallways, bathrooms, and conference rooms, are not included in the square feet figure for either the numerator or the denominator. The cost of the common areas is multiplied by the percent eligible to determine the portion of the common area that is eligible for deferral.

Eligible Costs x Tax Rate = Eligible Tax Deferred.

(ii) **Second method.** If the applicable tax deferral is not determined by the first method, it will be determined by tracking the cost of construction of qualifying/nonqualifying areas as follows:

(A) Tax on the cost of construction of areas devoted solely to manufacturing or research and development may be deferred.

(B) Tax on the cost of construction of areas not used at all for manufacturing or research and development may not be deferred.

(C) Tax on the cost of construction of areas used in common for manufacturing or research and development and for other purposes, such as hallways, bathrooms, and conference rooms, may be deferred by apportioning the costs of construction on a square footage basis. The apportioned costs of construction eligible for deferral are establish-

ed by using the ratio, expressed as a percentage, of the square feet of the construction, expansion, or renovation devoted to manufacturing or research and development, excluding areas used in common, to the total square feet of the construction, expansion, or renovation, excluding areas used in common. That percentage is applied to the cost of construction of the common areas to determine the costs of construction eligible for tax deferral. Expressed as a formula, apportionment of the cost of the common areas is determined by:

$$\frac{\text{Square feet devoted to manufacturing or research and development, excluding square feet of common areas}}{\text{Total square feet, excluding square feet of common areas}} = \text{Percentage of total cost of construction of common areas eligible for deferral}$$

(f) **What is "qualified machinery and equipment" for purposes of this ((section)) rule?** "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing or research and development operation. "Qualified machinery and equipment" includes computers, desks, filing cabinets, photocopiers, printers, software, data processing equipment, laboratory equipment; manufacturing components such as belts, pulleys, shafts and moving parts; molds, tools and dies; operating structures; and all equipment used to control or operate machinery. It also includes machinery and equipment acquired under the terms of a lease by the recipient. "New" as used in this subsection means either new to the taxing jurisdiction of the state or new to the certificate holder.

For purposes of this ((section)) rule, "industrial fixture" means an item attached to a building or to land. Examples of "industrial fixtures" are fuel oil lines, boilers, craneways, and improvements to land such as concrete slabs.

(i) **Are qualified machinery and equipment subject to apportionment?** Qualified machinery and equipment are not subject to apportionment.

(ii) **To what extent is leased equipment eligible for the deferral?** The amount of tax deferral allowable for leased equipment is the amount of the consideration paid by the recipient to the lessor over the initial term of the lease, excluding any period of extension or option to renew, up to the last date for repayment of the deferred taxes. After that date, the recipient must pay the appropriate sales taxes to the lessor for the remaining term of the lease.

(g) **What is an "eligible area" for purposes of this ((section)) rule?** "Eligible area" means:

(i) **Rural county.** A rural county is a county with fewer than one hundred persons per square mile or a county smaller than two hundred twenty-five square miles as determined annually by the office of financial management and published by the department of revenue effective for the period July 1st through June 30th; or

(ii) **Community empowerment zone (CEZ).** A "community empowerment zone" means an area meeting the requirements of RCW 43.31C.020 and officially designated as a CEZ by the director of the department of commerce, or a county containing a CEZ.

(h) **What if an investment project is located in an area that qualifies both as a rural county and as a CEZ?** If an investment project is located in an area that qualifies under more than one type of eligible area, the department will automatically assign the project to the eligible area that imposes the least burden on the taxpayer and

with the greatest benefit to the taxpayer. If the applicant elects to be bound by the requirements of the other potential eligible area, the applicant must make a written statement to that effect. For example, on October 1, 2004, the city of Yakima qualifies as a CEZ, and the entire county of Yakima has fewer than one hundred persons per square mile. The CEZ requirements are more restrictive than counties containing fewer than one hundred persons per square mile. The department will assign the project to the "fewer than one hundred persons per square mile designation" unless the applicant elects to be bound by the CEZ requirements. Refer to subsection (104) of this (~~section~~) rule for more information on the application process.

(i) **Are there any hiring requirements for an investment project?** There may or may not be a hiring requirement, depending on the location of the project.

(i) **Rural county.** There are no hiring requirements for qualifying projects located in rural counties.

(ii) **Community empowerment zone (CEZ).** There are hiring requirements for qualifying projects located in CEZs or in counties containing CEZs. The applicant applies for a deferral of investment that correlates to the estimated number of persons to be hired based on the following formula:

$$\frac{\text{Number of qualified employment positions to be hired} \times \$750,000}{\text{amount of investment eligible for deferral}}$$

Applicants must make good faith estimates of anticipated hiring. Refer to subsection (104) of this (~~section~~) rule for more information on the application process. The recipient must fill the positions by persons who at the time of hire are residents of the CEZ. The department has instituted a geographic information system (GIS) to assist taxpayers in determining taxing jurisdiction boundaries, local tax rates, and a mapping and address lookup system to determine whether a specific address is within a CEZ. The system is available on the department's internet web site at <http://www.dor.wa.gov>. A recipient must fill the qualified employment positions by the end of the calendar year following the year in which the project is certified as operationally complete and retain the position during the entire tax year. Refer to subsection (107) of this (~~section~~) rule for more information on certification of an investment project as operationally complete. If the recipient does not fill the qualified employment positions by the end of the second calendar year following the year in which the project is certified as operationally complete, all deferred taxes are immediately due.

(A) **What is a "qualified employment position" for purposes of this (~~section~~) rule?** "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The "entire tax year" means the full-time position is filled for a period of twelve consecutive months. "Full-time" means at least thirty-five hours a week, four hundred fifty-five hours a quarter, or one thousand eight hundred twenty hours a year.

(B) **Who are residents of the CEZ?** "Resident" means the person who fills the qualified employment position makes his or her home in the CEZ. A mailing address alone is insufficient to establish that a person is a resident.

(103) **What are the application and review processes?** An application for sales and use tax deferral under this program must be made prior to the initiation of construction, prior to the acquisition of

machinery and equipment, and prior to the filling of qualified employment positions. Persons who apply after construction is initiated or finished or after acquisition of machinery and equipment are not eligible for the program. When an application for sales and use tax deferral is timely submitted, costs incurred before the application date are allowable, if they otherwise qualify. Applications for persons subject to hiring requirements must include information regarding the estimated total project cost and the qualified employment positions.

(a) **What is "initiation of construction" for purposes of this ((section)) rule?** "Initiation of construction," in regards to the construction, expansion, or renovation of buildings, means the commencement of on-site construction work. Neither planning nor land clearing prior to excavation of the building site constitutes the commencement of on-site construction work.

(b) **What is "acquisition of machinery and equipment" for purposes of this ((section)) rule?** "Acquisition of machinery and equipment" means the machinery and equipment is under the dominion and control of the recipient or its agent.

(c) **How may a taxpayer obtain an application form?** Application forms may be obtained at department of revenue district offices, by downloading from the department's web site ([dor.wa.gov](http://dor.wa.gov)), by telephoning the telephone information center at 1-800-647-7706, or by contacting the department's special programs division at:

Washington State Department of Revenue  
Special Programs Division  
Post Office Box 47477  
Olympia, WA 98504-7477  
Fax 360-586-2163

Applicants must mail or fax applications to the special programs division at the address or fax number given above. Applications received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. RCW 82.60.100.

For purposes of this ((section)) rule, "applicant" means a person applying for a tax deferral under chapter 82.60 RCW, and "department" means the department of revenue.

(d) **Will the department approve the deferral application?** In considering whether to approve or deny an application for a deferral, the department will not approve an application for a project involving construction unless:

(i) The construction will begin within one year from the date of the application; or

(ii) The applicant shows proof that, if the construction will not begin within one year of construction, there is a specific and active program to begin construction of the project within two years from the date of application. Proof may include, but is not limited to:

(A) Affirmative action by the board of directors, governing body, or other responsible authority of the applicant toward an active program of construction;

(B) Itemized reasons for the proposed construction;

(C) Clearly established plans for financing the construction; or

(D) Building permits.

Similarly, after an application has been granted, a deferral certificate is no longer valid and should not be used if construction has not begun within one year from the date of application or there is not a specific and active program to begin construction within two years from the date of application. However, the department will grant re-

quests to extend the period for which the certificate is valid if the holder of the certificate can demonstrate that the delay in starting construction is due to circumstances beyond the certificate holder's control such as the acquisition of building permit(s). Refer to subsection (106) of this (~~section~~) rule for more information on the use of tax deferral certificate.

(e) **What is the date of application?** "Date of application" means the date of the U.S. Post Office postmark, fax, or electronic transmittal, or when the application is hand delivered to the department. The statute in effect on the "date of application" will determine the program criteria the applicant must satisfy.

(f) **When will the department notify approval or disapproval of the deferral application?** The department will verify the information contained in the application and approve or disapprove the application within sixty days. If approved, the department will issue a tax deferral certificate. If disapproved, the department will notify the applicant as to the reason(s) for disapproval.

(g) **May an applicant request a review of department disapproval of the deferral application?** The applicant may seek administrative review of the department's disapproval of an application within thirty days from the date of notice of the disallowance pursuant to the provisions of WAC 458-20-10001 (~~(Appeals)~~) Adjudicative proceedings—Brief adjudicative proceedings—Certificate of registration (tax registration endorsement) revocation. The filing of a petition for review with the department starts a review of departmental action.

(104) **What happens after the department approves the deferral application?** The department will issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW for an eligible investment project. The department will state on the certificate the amount of tax deferral for which the recipient is eligible. Recipients must keep track of how much tax is deferred.

For purposes of this (~~section~~) rule, "recipient" means a person receiving a tax deferral under this program.

(105) **How should a tax deferral certificate be used?** A tax deferral certificate issued under this program is for the use of the recipient for deferral of sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified buildings or qualified machinery and equipment as defined in this (~~section~~) rule. Thus, sales and use taxes cannot be deferred on items that do not become part of the qualified buildings, machinery, or equipment. In addition, the deferral is not to be used to defer the taxes of the persons with whom the recipient does business, persons the recipient hires, or employees of the recipient.

The certificate holder must provide a copy of the tax deferral certificate to the seller at the time goods or services are purchased. The seller will be relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller must retain a copy of the certificate as part of its permanent records for a period of at least five years. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller is liable for business and occupation tax on all tax deferral sales.

For purposes of this (~~section~~) rule, "certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(106) **What are the processes of an investment project that is certified by the department as operationally complete?** An applicant must provide the department with the estimated cost of the investment project at the time the application is made. Following approval of the application and issuance of a tax deferral certificate, a certificate holder must notify the department, in writing, when the value of the investment project reaches the estimated cost as stated on the tax deferral certificate.

For purposes of this ((section)) rule, "operationally complete" means the project is capable of being used for its intended purpose as described in the application.

(a) **What should a certificate holder do if its investment project reaches the estimated costs but the project is not yet operationally complete?** If a certificate holder has an investment project that has reached its level of estimated costs and the project is not operationally complete, the certificate holder may request an amended certificate stating a revised amount upon which the deferral taxes are requested. Requests must be mailed or faxed to the department.

(b) **What should a certificate holder do when its investment project is operationally complete?** The certificate holder must notify the department in writing when the construction project is operationally complete. The department will certify the date on which the project is operationally complete. The certificate holder of the deferral must maintain the manufacturing or research and development activity for eight years from this date.

(107) **Is a recipient of tax deferral required to submit annual surveys?** Each recipient of a tax deferral granted under chapter 82.60 RCW after June 30, 1994, must complete an annual survey. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.020(4), the lessee must agree to complete the annual survey and the applicant is not required to complete the annual survey. Refer to WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(108) **Is a recipient of tax deferral required to repay deferred taxes?** Repayment of tax deferred under chapter 82.60 RCW is excused, except as otherwise provided in RCW 82.60.070 and this subsection.

(a) **Is repayment required for machinery and equipment exempt under RCW 82.08.02565 or 82.12.02565?** Repayment of tax deferred under chapter 82.60 RCW is not required, and interest and penalties under RCW 82.60.070 will not be imposed, on machinery and equipment that qualifies for exemption under RCW 82.08.02565 or 82.12.02565.

(b) **When is repayment required?** The following subsections describe the various circumstances under which repayment of the deferral may occur. Outstanding taxes are determined by reference to the following table. The table presumes the taxpayer maintained eligibility for the entire year.

Repayment Year	Percentage of Deferred Tax Waived
1 (Year operationally complete)	0%
2	0%
3	0%
4	10%
5	15%
6	20%
7	25%

Repayment Year	Percentage of Deferred Tax Waived
8	30%

Any action taken by the department to disqualify a recipient for tax deferral or assess interest will be subject to administrative review pursuant to the provisions of WAC 458-20-10001 (~~((Appeals))~~ Adjudicative proceedings—Brief adjudicative proceedings—Certificate of registration (tax registration endorsement) revocation). The filing of a petition for review with the department starts a review of departmental action.

(i) **Failure of investment project to satisfy general conditions.** If, on the basis of the recipient's annual survey or other information, including that submitted by the employment security department, the department of revenue finds that an investment project is not eligible for tax deferral for reasons other than failure to create the required number of qualified employment positions, the department will declare the amount of deferred taxes outstanding to be immediately due. An example of a disqualification under this (~~(section))~~ rule is a facility not being used for a manufacturing or research and development operation. No penalties or interest will be assessed on the deferred sales/use tax; however, all other penalties and interest applicable to excise tax assessments may be assessed and imposed.

(ii) **Failure of investment project to satisfy required employment positions conditions.** If, on the basis of the recipient's annual survey or other information, the department finds that an investment project has been operationally complete and has failed to create the required number of qualified employment positions under subsection (102)(i) of this (~~(section))~~ rule, the amount of taxes deferred will be immediately due. There is no proration of the amount owed under this subsection. No penalties or interest will be assessed on the deferred sales/use tax; however, all other penalties and interest applicable to excise tax assessments may be assessed and imposed.

(109) **When will the tax deferral program expire?** No applications for deferral of taxes will be accepted after June 30, 2010.

(110) **Is debt extinguishable because of insolvency or sale?** Insolvency or other failure of the recipient does not extinguish the debt for deferred taxes nor will the sale, exchange, or other disposition of the recipient's business extinguish the debt for the deferred taxes.

(111) **Does transfer of ownership terminate tax deferral?** Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of chapter 82.60 RCW, for the remaining periods of the deferral. Any person who becomes a successor (see WAC 458-20-216) to such investment project is liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient of the deferral.

#### PART II

#### Applications from August 1, 1999, to March 31, 2004

(201) **Definitions.** The following definitions apply to applications made on and after August 1, 1999, and before April 1, 2004:

(a) "Acquisition of equipment or machinery" means the equipment and machinery is under the dominion and control of the recipient.

(b) "Applicant" means a person applying for a tax deferral under chapter 82.60 RCW.

- (c) "Certificate holder" means an applicant to whom a tax deferral certificate has been issued.
- (d) "Computer-related services" means activities such as programming for the manufactured product. It includes creating operating systems, software, and other similar goods that will be copied and sold as canned software. "Computer-related services" does not include information services, such as data or information processing. The activities performed by the manufacturer to test, correct, revise, or upgrade software or hardware before they are approved for sale to the consumer are considered computer-related services.
- (e) "Date of application" means the date of the U.S. Post Office postmark, fax, or electronic transmittal, or when the application is hand delivered to the department. The statute in effect on the "date of application" will determine the program criteria the applicant must satisfy.
- (f) "Department" means the department of revenue.
- (g) "Eligible area" means:
- (i) Rural county. A rural county is a county with fewer than one hundred persons per square mile as determined annually by the office of financial management and published by the department of revenue effective for the period July 1st through June 30th; or
- (ii) Community empowerment zone (CEZ). A "community empowerment zone" means an area meeting the requirements of RCW 43.31C.020 and officially designated as a CEZ by the director of the department of community, trade, and economic development or a county containing a CEZ.
- (h) "Eligible investment project" means an investment project in an eligible area. "Eligible investment project" does not include an investment project undertaken by a light and power business as defined in RCW 82.16.010, other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part. It also does not include an investment project that has already received a deferral under chapter 82.60 RCW.
- (i) "Industrial fixture" means an item attached to a building or to land. Examples of "industrial fixtures" are fuel oil lines, boilers, cranes, and improvements to land such as concrete slabs.
- (j) "Initiation of construction," in regards to the construction, expansion, or renovation of buildings, means the commencement of on-site construction work. Neither planning nor land clearing prior to excavation of the building site constitutes the commencement of on-site construction work.
- (k) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project. When an application for sales and use tax deferral is timely submitted, costs incurred before the application date are allowable, if they otherwise qualify.
- (l) "Manufacturing" has the meaning given in RCW 82.04.120. Manufacturing also includes computer programming, the production of computer software, and other computer-related services, but only when the computer programming, production of computer software, or other computer-related services are performed by a manufacturer as defined in RCW 82.04.110 and contribute to the production of a new, different, or useful substance or article of tangible personal property for sale; and the activities performed by research and development laboratories and commercial testing laboratories. (Chapter 16, Laws of 2010.)

(m) "Operationally complete" means the project is capable of being used for its intended purpose as described in the application.

(n) "Person" has the meaning given in RCW 82.04.030. "Person" does not include the state of Washington or its institutions. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of chapter 82.60 RCW. The lessor/owner of the structure is not eligible for deferral unless the underlying ownership of the buildings, machinery, or equipment vests in the lessor/owner, or unless the lessor has by written contract agreed to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

(o) "Qualified buildings" means construction of new structures and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity, used for manufacturing and research and development activities.

"Qualified buildings" are limited to structures used for manufacturing and research and development activities. "Qualified buildings" include plant offices and warehouses if such facilities are essential to or an integral part of a factory, mill, plant, or laboratory. "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building its use must be essential or integral to the manufacturing or research and development operation. Office space that is used by supervisors and their staff, by technicians, by payroll staff, by the safety officer, and by the training staff are examples of qualifying office space. "Warehouse" means buildings or facilities used for the storage of raw materials or finished goods.

(p) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The "entire tax year" means the full-time position is filled for a period of twelve consecutive months. Full-time means at least thirty-five hours a week, four hundred fifty-five hours a quarter, or one thousand eight hundred twenty hours a year.

(q) "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing or research and development operation. "Qualified machinery and equipment" includes computers, desks, filing cabinets, photocopiers, printers, software, data processing equipment, laboratory equipment; manufacturing components such as belts, pulleys, shafts and moving parts; molds, tools and dies; operating structures; and all equipment used to control or operate machinery. It also includes machinery and equipment acquired under the terms of a lease by the recipient. "New" as used in this subsection means either new to the taxing jurisdiction of the state or new to the certificate holder.

(r) "Recipient" means a person receiving a tax deferral under this program.

(s) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(t) "Resident" means the person who fills the qualified employment position makes his or her home in the CEZ. A mailing address alone is insufficient to establish that a person is a resident.

(202) **Issuance of deferral certificate.** The department will issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW for an eligible investment project. The department will state on the certificate the amount of tax deferral for which the recipient is eligible. Recipients must keep track of how much tax is deferred.

(203) **Eligible investment amount.** There may or may not be a hiring requirement, depending on the location of the project.

(a) **No hiring requirements.** There are no hiring requirements for qualifying projects located in counties with fewer than one hundred persons per square mile. Monitoring and reporting procedures are explained in subsection (210) of this (~~section~~) rule. Buildings that will be used partly for manufacturing or research and development and partly for other purposes are eligible for a deferral on a proportionate basis. Subsection (204) of this (~~section~~) rule explains the procedure for apportionment.

(b) **Hiring requirements.** There are hiring requirements for qualifying projects located in CEZs or in counties containing CEZs. The applicant applies for a deferral of investment that correlates to the estimated number of persons to be hired based on the following formula:

$$\frac{\text{Number of qualified employment positions to be hired}}{\$750,000} = \frac{\text{amount of investment eligible for deferral}}{\$750,000}$$

Applicants must make good faith estimates of anticipated hiring. The recipient must fill the positions by persons who at the time of hire are residents of the CEZ. The department has instituted a geographic information system (GIS) to assist taxpayers in determining taxing jurisdiction boundaries, local tax rates, and a mapping and address lookup system to determine whether a specific address is within a CEZ. The system is available on the department's internet web site at <http://www.dor.wa.gov>. A recipient must fill the qualified employment positions by the end of the calendar year following the year in which the project is certified as operationally complete and retain the position during the entire tax year. If the recipient does not fill the qualified employment positions by the end of the second calendar year following the year in which the project is certified as operationally complete, all deferred taxes are immediately due.

(204) **Apportionment of costs between qualifying and nonqualifying investments.** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of existing buildings used in manufacturing, research and development, or commercial testing laboratories.

(a) Where a building(s) is used partly for manufacturing or research and development and partly for purposes that do not qualify for deferral under this rule, the deferral will be determined by one of the following apportionment methods. The first method of apportionment is based on square footage and does not require tracking the costs of materials for the qualifying/nonqualifying areas of a building. The second method of apportionment tracks the costs of materials used in the qualifying/nonqualifying areas and is primarily used by those industries with specialized building requirements.

(i) The applicable tax deferral will be determined by apportionment according to the ratio of the square footage of that portion of the building(s) directly used for manufacturing or research and development purposes bears to the square footage of the total building(s).

Apportionment formula:

$$\frac{\text{Eligible square feet of building(s)}}{\text{Total square feet of building(s)}} = \text{Percent Eligible}$$

Percent Eligible x Total Project Costs = Eligible Costs.

"Total Project Costs" means cost of multipurpose buildings and other improvement costs associated with the deferral project. Machinery and equipment are not included in this calculation. Common areas, such as hallways and bathrooms, are not included in the square feet figure for either the numerator or the denominator. The cost of the common areas is multiplied by the percent eligible to determine the portion of the common area that is eligible for deferral.

Eligible Tax Deferred = Eligible Cost x Tax Rate.

(ii) If a building is used partly for manufacturing, research and development, or commercial testing and partly for other purposes, the applicable tax deferral shall be determined as follows:

(A) Tax on the cost of construction of areas devoted solely to manufacturing, research and development, or commercial testing may be deferred.

(B) Tax on the cost of construction of areas not used at all for manufacturing, research and development, or commercial testing may not be deferred.

(C) Tax on the cost of construction of areas used in common for manufacturing, research and development, or commercial testing and for other purposes, such as hallways, bathrooms, and conference rooms, may be deferred by apportioning the costs of construction on a square footage basis. The apportioned costs of construction eligible for deferral are established by using the ratio, expressed as a percentage, of the square feet of the construction, expansion, or renovation devoted to manufacturing, research and development, or commercial testing, excluding areas used in common to the total square feet of the construction, expansion, or renovation, excluding areas used in common. That percentage is applied to the cost of construction of the common areas to determine the costs of construction eligible for tax deferral. Expressed as a formula, apportionment of the cost of the common areas is determined by:

$$\frac{\text{Square feet devoted to manufacturing, research and development, or commercial testing, excluding square feet of common areas}}{\text{Total square feet, excluding square feet of common areas}} = \text{Percentage of total cost of construction of common areas eligible for deferral}$$

(b) Qualified machinery and equipment is not subject to apportionment.

(205) **Leased equipment.** The amount of tax deferral allowable for leased equipment is the amount of the consideration paid by the recipient to the lessor over the initial term of the lease, excluding any period of extension or option to renew, up to the last date for repayment of the deferred taxes. After that date the recipient must pay the appropriate sales taxes to the lessor for the remaining term of the lease.

(206) **Application procedure and review process.** An application for sales and use tax deferral under this program must be made prior

to the initiation of construction, prior to the acquisition of machinery and equipment, and prior to the filling of qualified employment positions. Persons who apply after construction is initiated or finished or after acquisition of machinery and equipment are not eligible for the program. Applications for persons subject to hiring requirements must include information regarding the estimated total project cost and the qualified employment positions.

(a) Application forms will be supplied to the applicant by the department upon request. The completed application may be sent by fax to 360-586-2163 or mailed to the following address:

((~~State of Washington~~))  
Washington State Department of Revenue  
Special Programs  
P.O. Box 47477  
Olympia, WA 98504-7477

Applications and reports received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. (RCW 82.60.100.)

(b) In considering whether to approve or deny an application for a deferral, the department will not approve an application for a project involving construction unless:

(i) The construction will begin within one year from the date of the application; or

(ii) If the construction will not begin within one year of application, the applicant shows proof that there is a specific and active program to begin construction of the project within two years from the date of application. Proof may include, but is not limited to:

(A) Affirmative action by the board of directors, governing body, or other responsible authority of the applicant toward an active program of construction;

(B) Itemized reasons for the proposed construction;

(C) Clearly established plans for financing the construction; or

(D) Building permits.

Similarly, after an application has been granted, a deferral certificate is no longer valid and should not be used if construction has not begun within one year from the date of application or there is not a specific and active program to begin construction within two years from the date of application. However, the department will grant requests to extend the period for which the certificate is valid if the holder of the certificate can demonstrate that the delay in starting construction is due to circumstances beyond the certificate holder's control such as the acquisition of building permit(s).

(c) The department will verify the information contained in the application and approve or disapprove the application within sixty days. If approved, the department will issue a tax deferral certificate. If disapproved, the department will notify the applicant as to the reason(s) for disapproval.

(d) The applicant may seek administrative review of the department's disapproval of an application within thirty days from the date of notice of the disallowance pursuant to the provisions of WAC 458-20-100(~~(, appeals, small claims and settlements)~~) (Informal administrative reviews). The filing of a petition for review with the department starts a review of departmental action.

(207) **Eligible area criteria.** The office of financial management will determine annually the counties with fewer than one hundred per-

sons per square mile. The department will update and distribute the list each year. The list will be effective on July 1 of each year.

If an investment project is located in an area that qualifies under more than one type of eligible area, the department will automatically assign the project to the eligible area that imposes the least burden on the taxpayer and with the greatest benefit to the taxpayer. If the applicant elects to be bound by the requirements of the other potential eligible area, the applicant must make a written statement to that effect. For example, on October 1, 1999, the city of Yakima qualifies as a CEZ, and the entire county of Yakima has fewer than one hundred persons per square mile. The CEZ requirements are more restrictive than counties containing fewer than one hundred persons per square mile. The department will assign the project to the "fewer than one hundred persons per square mile designation" unless the applicant elects to be bound by the CEZ requirements.

(208) **Use of the certificate.** A tax deferral certificate issued under this program is for the use of the recipient for deferral of sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified building or qualified machinery and equipment as defined in Part I. Thus, sales and use taxes cannot be deferred on items that do not become part of the qualified buildings, machinery, or equipment. In addition, the deferral is not to be used to defer the taxes of the persons with whom the recipient does business, persons the recipient hires, or employees of the recipient.

The tax deferral certificate is to be used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102, Resale certificates. The certificate holder must provide a copy of the tax deferral certificate to the seller at the time goods or services are purchased. The seller will be relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller must retain a copy of the certificate as part of its permanent records for a period of at least five years. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller is liable for business and occupation tax on all tax deferral sales.

(209) **Project operationally complete.** An applicant must provide the department with the estimated cost of the investment project at the time the application is made. Following approval of the application and issuance of a tax deferral certificate, a certificate holder must notify the department, in writing, when the value of the investment project reaches the estimated cost as stated on the tax deferral certificate.

(a) If a certificate holder has reached its level of estimated costs and the project is not operationally complete, the certificate holder may request an amended certificate stating a revised amount upon which the deferral taxes are requested. Requests must be mailed or faxed to the department.

(b) The certificate holder must notify the department in writing when the construction project is operationally complete. The department will certify the date on which the project is operationally complete. The recipient of the deferral must maintain the manufacturing or research and development activity for eight years from this date.

(210) **Reporting and monitoring procedure.**

(a) **Requirement to submit annual reports.** Each recipient of a tax deferral under chapter 82.60 RCW must submit a report on December 31st

of the year in which the investment project is certified by the department as having been operationally completed and on December 31st of each of the seven succeeding calendar years. The report must be made to the department in a form and manner prescribed by the department. If the recipient fails to submit a report or submits an inadequate or falsified report, the department may declare the amount of deferred taxes outstanding to be immediately due and payable. An inadequate or falsified report is one that contains material omissions or contains knowingly false statements and information.

(b) **Requirement to submit annual surveys.** Effective April 1, 2004, each recipient of a tax deferral granted under chapter 82.60 RCW after June 30, 1994, must complete an annual survey **instead of an annual report**. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.020(4), the lessee must agree to complete the annual survey and the applicant is not required to complete the annual survey. Refer to WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(211) **Repayment of deferred taxes.** Repayment of tax deferred under chapter 82.60 RCW is excused, except as otherwise provided in RCW 82.60.070 and this subsection.

(a) Repayment of tax deferred under chapter 82.60 RCW is not required, and interest and penalties under RCW 82.60.070 will not be imposed, on machinery and equipment that qualifies for exemption under RCW 82.08.02565 or 82.12.02565.

(b) The following subsections describe the various circumstances under which repayment of the deferral may occur. Outstanding taxes are determined by reference to the following table. The table presumes the taxpayer maintained eligibility for the entire year.

Repayment Year	Percentage of Deferred Tax Waived
1 (Year operationally complete)	0%
2	0%
3	0%
4	10%
5	15%
6	20%
7	25%
8	30%

Any action taken by the department to disqualify a recipient for tax deferral or assess interest will be subject to administrative review pursuant to the provisions of WAC 458-20-100(~~(, appeals, small claims and settlements)~~) (Informal administrative reviews). The filing of a petition for review with the department starts a review of departmental action.

(c) **Failure of investment project to satisfy general conditions.** If, on the basis of the recipient's annual report or other information, including that submitted by the employment security department, the department of revenue finds that an investment project is not eligible for tax deferral for reasons other than failure to create the required number of qualified employment positions, the department will declare the amount of deferred taxes outstanding to be immediately due. An example of a disqualification under this (~~section~~) rule is a

facility not being used for a manufacturing or research and development operation.

(d) **Failure of investment project to satisfy required employment positions conditions.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project has been operationally complete and has failed to create the required number of qualified employment positions, the amount of taxes deferred will be immediately due. There is no proration of the amount owed under this subsection. No penalties or interest will be assessed on the deferred sales/use tax; however, all other penalties and interest applicable to excise tax assessments may be assessed and imposed.

(212) **Debt not extinguished because of insolvency or sale.** Insolvency or other failure of the recipient does not extinguish the debt for deferred taxes nor will the sale, exchange, or other disposition of the recipient's business extinguish the debt for the deferred taxes. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of chapter 82.60 RCW, for the remaining periods of the deferral. Any person who becomes a successor (see WAC 458-20-216) to such investment project is liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient of the deferral.

(213) **Disclosure of information.** Applications and reports received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. (RCW 82.60.100.) Effective April 1, 2004, all information collected in annual surveys, except the amount of tax deferral taken, is confidential and not subject to disclosure. Information on the amount of tax deferral taken in annual surveys is not confidential and may be disclosed to the public upon request.

#### PART III

### Applications from July 1, 1995, to July 31, 1999

(301) **Definitions.** For the purposes of this part, the following definitions apply for applications made on and after July 1, 1995, and before August 1, 1999:

(a) "Acquisition of equipment or machinery" means the equipment and machinery is under the dominion and control of the recipient.

(b) "Applicant" means a person applying for a tax deferral under chapter 82.60 RCW.

(c) "Certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(d) "Computer-related services" means services that are connected or interact directly in the manufacture of computer hardware or software or the programming of the manufactured hardware. This includes the manufacture of hardware such as chips, keyboards, monitors, any other hardware, and the components of these items. It includes creating operating systems and software that will be copied and sold as canned software. "Computer-related services" does not include information services. The activities performed by the manufacturer to test, correct, revise, or upgrade software or hardware before they are approved for sale to the consumer are considered computer-related services.

(e) "Department" means the department of revenue.

(f) "Eligible area" means one of the areas designated according to the following classifications:

(i) Unemployment county. A county in which the average level of unemployment for the three calendar years preceding the year in which

an application is filed exceeds the average state unemployment for those years by twenty percent. In making this calculation, the department will compare the county's average unemployment rate in the prior three years to one hundred twenty percent of the state's average unemployment rate based on official unemployment figures published by the department of employment security;

(ii) Median income county. On and after June 6, 1996, a county that has a median household income that is less than seventy-five percent of the state median income for the previous three years;

(iii) MSA. A metropolitan statistical area, as defined by the Office of Federal Statistical Policy and Standards, United States Department of Commerce, in which the average level of unemployment for the calendar year immediately preceding the year in which an application is filed under chapter 82.60 RCW exceeds the average state unemployment for such calendar year by twenty percent;

(iv) CEZ and county containing a CEZ. A designated community empowerment zone (CEZ) approved under RCW 43.63A.700 or a county containing such a community empowerment zone;

(v) Timber impact area towns. A town with a population of less than twelve hundred persons that is located in a county that is a timber impact area, as defined in RCW 43.31.601, but that is not an unemployment county as defined in Part I;

(vi) Governor's designation county. A county designated by the governor as an eligible area under RCW 82.60.047; or

(vii) Contiguous county. A county that is contiguous to an unemployment county or a governor's designation county.

(g)(i) "Eligible investment project" means:

(A) An investment project in an unemployment county, a median income county, an MSA, a timber impact area town, or a governor's designation county; or

(B) That portion of an investment project in a CEZ, a county containing a CEZ, or a contiguous county, that is directly utilized to create at least one new full-time qualified employment position for each seven hundred fifty thousand dollars of investment.

(ii) "Eligible investment project" does not include an investment project undertaken by a light and power business as defined in RCW 82.16.010, other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part. It also does not include an investment project that has already received a deferral under chapter 82.60 RCW.

(h) "Industrial fixture" means an item attached to a building or to land. Fixtures become part of the real estate to which they are attached and upon attachment are classified as real property, not personal property. Examples of "industrial fixtures" are fuel oil lines, boilers, craneways, and certain concrete slabs.

(i) "Initiation of construction," in regards to the construction, expansion, or renovation of buildings, means the commencement of on-site construction work. Land clearing prior to excavation of the building site does not commence construction nor does planning commence construction.

(j) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project. When an application for sales and use tax deferral is timely submitted, costs incurred before the application date are allowable, if they otherwise qualify.

(k) "Manufacturing" has the meaning given in RCW 82.04.120. Manufacturing, for purposes of the distressed area deferral program, also includes computer programming, the production of computer software, and other computer-related services, but only when the computer programming, production of computer software, or other computer-related services are performed by a manufacturer as defined under RCW 82.04.110 and contribute to the production of a new, different, or useful substance or article of tangible personal property for sale; and the activities performed by research and development laboratories and commercial testing laboratories. (Chapter 16, Laws of 2010.)

(l) "Operationally complete" means the project is capable of being used for its intended purpose as described in the application.

(m) "Person" has the meaning given in RCW 82.04.030. "Person" does not include the state of Washington or its institutions. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of chapter 82.60 RCW. The lessor/owner of the structure is not eligible for deferral unless the underlying ownership of the buildings, machinery, or equipment vests exclusively in the lessor/owner, or unless the lessor has by written contract agreed to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

(n) "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity, used for manufacturing and research and development activities.

"Qualified buildings" are limited to structures used for manufacturing and research and development activities. "Qualified buildings" include plant offices and warehouses if such facilities are essential or an integral part of a factory, mill, plant, or laboratory. "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building its use must be essential or integral to the manufacturing or research and development operation. Office space that is used by supervisors and their staff, by technicians, by payroll staff, by the safety officer, and by the training staff are examples of qualifying office space. "Warehouse" means facilities used for the storage of raw materials or finished goods.

(o) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The "entire tax year" means the full-time position is filled for a period of twelve consecutive months. "Full time" means at least 35 hours a week, 455 hours a quarter, or 1,820 hours a year.

(p) "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing or research and development operation. "Qualified machinery and equipment" includes computers, desks, filing cabinets, photocopiers, printers, software, data processing equipment, laboratory equipment; manufacturing components such as belts, pulleys, shafts and moving parts; molds, tools and dies; operating structures; and all equipment used to control or operate machinery. It also includes machinery and equipment acquired under the terms of a lease by the recipient. "New" as used in this subsection means either new to the taxing jurisdiction of the state or new to the certificate holder.

(q) "Recipient" means a person receiving a tax deferral under this program.

(r) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(302) **Issuance of deferral certificate.** The department will issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW for an eligible investment project. The department will state on the certificate the amount of tax deferral for which the recipient is eligible. Recipients must keep track of how much tax is deferred.

(303) **Eligible investment amount.** There may or may not be a hiring requirement, depending on the location of the project.

(a) **No hiring requirements.** There are no hiring requirements for qualifying projects located in distressed counties, MSAs, median income counties, governor-designated counties, or timber impact towns. Monitoring and reporting procedures are explained in subsection (310) of this (~~section~~) rule. Buildings that will be used partly for manufacturing or research and development and partly for other purposes are eligible for a deferral on a proportionate basis. Subsection (304) of this (~~section~~) rule explains the procedure for apportionment.

(b) **Hiring requirements.** There are hiring requirements for qualifying projects located in CEZs, in counties containing CEZs, or in contiguous counties. Total qualifying project costs, including any part of the project that would qualify under RCW 82.08.02565 and 82.12.02565, must be examined to determine the number of positions associated with the project. An applicant who knows at the time of application that he or she will not fill the required qualified employment positions is not eligible for the deferral. Applicants must make good faith estimates of anticipated hiring. The applicant applies for a deferral of investment that correlates to the estimated number of persons to be hired. The investment must include the sales price of machinery and equipment eligible for the sales and use tax exemption under RCW 82.08.02565 and 82.12.02565. An applicant can amend the number of persons hired until completion of the project. The qualified employment positions filled by December 31 of the year of completion are the benchmark to be used during the next seven years in determining hiring compliance.

(i) Total qualifying project costs are divided by seven hundred fifty thousand, the result being the qualified employment positions.

(ii) In addition, the number of qualified employment positions created by an investment project will be reduced by the number of full-time employment positions maintained by the recipient in any other community in this state that are displaced as a result of the investment project. This reduction requires a reexamination of whether the seventy-five percent hiring requirement (as explained below) is met.

(iii) This number, which is the result of (i) and (ii) of this subsection, is the number of positions used as the benchmark over the life of the deferral. For recipients locating in a CEZ or a county containing a CEZ, seventy-five percent of the new positions must be filled by residents of a CEZ located in the county where the project is located. The department has instituted a geographic information system (GIS) to assist taxpayers in determining taxing jurisdiction boundaries, local tax rates, and a mapping and address lookup system to determine whether a specific address is within a CEZ. The system is

available on the department's internet web site at <http://www.dor.wa.gov>. For recipients located in a contiguous county, residents of an adjacent unemployment or governor-designated county must fill seventy-five percent of the new positions.

(iv) The qualified employment positions are reviewed each year, beginning December 31st of the year the project is operationally complete and each year for seven years. If the recipient has failed to create the requisite number of positions, the department will issue an assessment as explained under subsection (311) of this ~~(section)~~ rule.

(v) In addition to the hiring requirements for new positions under (b) of this subsection, the recipient of a deferral for an expansion or diversification of an existing facility must ensure that he or she maintains the same percentage of employment positions filled by residents of the contiguous county or the CEZ that existed prior to the application being made. This percentage must be maintained for seven years.

(vi) Qualified employment positions do not include those positions filled by persons hired in excess of the ratio of one employee per required dollar of investment for which a deferral is granted. In the event an employee is either voluntarily or involuntarily separated from employment, the employment position will be considered filled if the employer is either training or actively recruiting a replacement employee, so long as the position is not actually vacant for any period in excess of thirty consecutive days.

**(304) Apportionment of costs between qualifying and nonqualifying investments.** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of existing buildings used in manufacturing, research and development, or commercial testing.

(a) Where a building(s) is used partly for manufacturing, research and development, or commercial testing and partly for purposes that do not qualify for deferral under this rule, the deferral will be determined by apportionment of the total project costs. The applicable tax deferral will be determined by apportionment according to the ratio of the square footage of that portion of the building(s) directly used for manufacturing, research and development, or commercial testing purposes bears to the square footage of the total building(s).

Apportionment formula:

$$\frac{\text{Eligible square feet of building(s)}}{\text{Total square feet of building(s)}} = \text{Percent Eligible}$$

Percent Eligible x Total Project Costs = Eligible Costs.

"Total Project Costs" means cost of multipurpose buildings and other improvement costs associated with the deferral project. Machinery and equipment are not included in this calculation. Common areas, such as hallways and bathrooms, are not included in the square feet figure for either the numerator or the denominator. The cost of the common areas is multiplied by the percent eligible to determine the portion of the common area that is eligible for deferral.

Eligible Tax Deferred = Eligible Cost x Tax Rate.

(b) Qualified machinery and equipment is not subject to apportionment.

(305) **Leased equipment.** The amount of tax deferral allowable for leased equipment is the amount of the consideration paid by the recipient to the lessor over the initial term of the lease, excluding any period of extension or option to renew, up to the last date for repayment of the deferred taxes. After that date the recipient must pay the appropriate sales taxes to the lessor for the remaining term of the lease.

(306) **Application procedure and review process.** An application for sales and use tax deferral under this program must be made prior to the initiation of construction and the acquisition of machinery and equipment. Persons who apply after construction is initiated or after acquisition of machinery and equipment are not eligible for the program. Applications for persons subject to hiring requirements must include information regarding the estimated total project cost and the qualified employment positions.

(a) Application forms will be supplied to the applicant by the department upon request. The completed application may be sent by fax to 360-586-2163 or mailed to the following address:

((~~State of Washington~~))  
Washington State Department of Revenue  
Special Programs  
P.O. Box 47477  
Olympia, WA 98504-7477

(b) The department will verify the information contained in the application and approve or disapprove the application within sixty days. If approved, the department will issue a tax deferral certificate. If disapproved, the department will notify the applicant as to the reason(s) for disapproval. The U.S. Post Office postmark or fax date will be used as the date of application.

(c) The applicant may seek administrative review of the department's disapproval of an application within thirty days from the date of notice of disallowance pursuant to the provisions of WAC 458-20-100(~~(, appeals, small claims and settlements)~~) (Informal administrative reviews). The filing of a petition for review with the department starts a review of departmental action.

(307) **Eligible area criteria.** The statewide and county unemployment statistics last published by the department will be used to determine eligible areas based on unemployment. Median income county designation is based on data produced by the office of financial management and made available to the department on November 1 of each year. The timber impact town designation is based on information provided by the department of employment security.

If an investment project is located in an area that qualifies under more than one type of eligible area, the department will automatically assign the project to the eligible area that imposes the least burden on the taxpayer and with the greatest benefit to the taxpayer. If the applicant elects to be bound by the requirements of the other potential eligible area, the applicant must make a written statement to that effect. For example, on May 1, 1998, the city of Yakima qualifies as a CEZ, and the entire county of Yakima qualifies as an unemployment county. The CEZ requirements are more restrictive than the unemployment county requirements. The department will assign the project to the distressed area eligible area unless the applicant elected to be bound by the CEZ requirements.

(308) **Use of the certificate.** A tax deferral certificate issued under this program is for the use of the recipient for deferral of

sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified building or qualified machinery and equipment as defined in subsection (301) of this (~~section~~) rule. Thus, sales and use taxes cannot be deferred on items that do not become part of the qualified buildings, machinery, or equipment. In addition, the deferral is not to be used to defer the taxes of the persons with whom the recipient does business, persons the recipient hires, or employees of the recipient.

The tax deferral certificate is used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102, Resale certificates. The certificate holder must provide a copy of the tax deferral certificate to the seller at the time goods or services are purchased. The seller is relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller must retain a copy of the certificate as part of its permanent records for a period of at least five years. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller is liable for business and occupation tax on all tax deferral sales.

(309) **Project operationally complete.** An applicant must provide the department with the estimated cost of the investment project at the time the application is made. Following approval of the application and issuance of a deferral certificate, a certificate holder must notify the department, in writing, when the value of the investment project reaches the estimated cost as stated on the tax deferral certificate.

(a) If a certificate holder has reached its level of estimated costs and the project is not operationally complete, the certificate holder may request an amended certificate stating a revised amount upon which the deferral is requested. Requests must be mailed or faxed to the department.

(b) The certificate holder must notify the department in writing when the construction project is operationally complete. The department will certify the date on which the project was operationally complete. The recipient of the deferral must maintain the manufacturing or research and development activity for eight years from this date.

(310) **Reporting and monitoring procedure.**

(a) Requirement to submit annual reports. Each recipient of a deferral granted after July 1, 1995, must submit a report to the department on December 31st of the year in which the investment project is certified by the department as having been operationally completed, and on December 31st of each of the seven succeeding calendar years. The report must be made to the department in a form and manner prescribed by the department. The report must contain information regarding the actual employment related to the project and any other information required by the department. If the recipient fails to submit a report or submits an inadequate or falsified report, the department may declare the amount of deferred taxes outstanding to be immediately due and payable. An inadequate or falsified report is one that contains material omissions or contains knowingly false statements and information.

(b) **Requirement to submit annual surveys.** Effective April 1, 2004, each recipient of a tax deferral granted under chapter 82.60 RCW after June 30, 1994, must complete an annual survey **instead of an annual report**. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.020(4), the lessee must agree to complete the annual survey and the applicant is not required to complete

the annual survey. Refer to WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(311) **Repayment of deferred taxes.** Repayment of tax deferred under chapter 82.60 RCW is excused, except as otherwise provided in RCW 82.60.070 and this subsection, on an investment project for which a deferral has been granted under chapter 82.60 RCW after June 30, 1994.

(a) Taxes deferred under this chapter need not be repaid on machinery and equipment for lumber and wood product industries, and sales of or charges made for labor and services, of the type which qualified for exemption under RCW 82.08.02565 or 82.12.02565.

(b) The following describes the various circumstances under which repayment of the deferral may be required. Outstanding taxes are determined by reference to the following table. The table presumes the taxpayer maintained eligibility for the entire year.

Repayment Year	Percentage of Deferred Tax Waived
1 (Year operationally complete)	0%
2	0%
3	0%
4	10%
5	15%
6	20%
7	25%
8	30%

Any action taken by the department to disqualify a recipient for tax deferral or require payment of all or part of deferred taxes is subject to administrative review pursuant to the provisions of WAC 458-20-100(~~(, appeals, small claims and settlements)~~) (Informal administrative reviews). The filing of a petition for review with the department starts a review of departmental action. See subsection (24)(d) of this (~~section~~) rule for repayment and waiver for deferrals with hiring requirements.

(c) **Failure of investment project to satisfy general conditions.** If, on the basis of the recipient's annual report or other information, including that submitted by the department of employment security, the department finds that an investment project is not eligible for tax deferral for reasons other than failure to create the required number of qualified employment positions, the department will declare the amount of deferred taxes outstanding to be immediately due. For example, a reason for disqualification would be that the facilities are not used for a manufacturing or research and development operation.

(d) **Failure of investment project to satisfy required employment positions conditions.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project has been operationally complete for three years and has failed to create the required number of qualified employment positions, the amount of taxes deferred will be immediately due. The department will assess interest at the rate and as provided for delinquent excise taxes under RCW 82.32.050 (retroactively to the date the application was filed). There is no proration of the amount owed under this subsection. No penalties will be assessed.

(e) **Failure of investment project to satisfy employee residency requirements.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project under RCW 82.60.040 (1)(b) or (c) has failed to comply with any requirement of RCW 82.60.045 for any calendar year for which reports are required under this subsection, twelve and one-half percent of the amount of deferred taxes will be immediately due. For each year a deferral's requirements are met twelve and one-half percent of the amount of deferred taxes will be waived. The department will assess interest at the rate provided for delinquent excise taxes under RCW 82.32.050, retroactively to the date the application was filed. Each year the employment requirement is met, twelve and one-half percent of the deferred tax will be waived, if all other program requirements are met. No penalties will be assessed.

(f) The department of employment security makes and certifies to the department all determinations of employment and wages required under this subsection.

(312) **Debt not extinguished because of insolvency or sale.** Insolvency or other failure of the recipient does not extinguish the debt for deferred taxes nor will the sale, exchange, or other disposition of the recipient's business extinguish the debt for the deferred taxes. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral. Any person who becomes a successor (see WAC 458-20-216) to such investment project is liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient.

(313) **Disclosure of information.** Applications and reports received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. (RCW 82.60.100.) Effective April 1, 2004, all information collected in annual surveys, except the amount of tax deferral taken, is confidential and not subject to disclosure. Information on the amount of tax deferral taken in annual surveys is not confidential and may be disclosed to the public upon request.

#### PART IV

### Applications from July 1, 1994, to June 30, 1995

(401) **Definitions.** For the purposes of this part, the following definitions apply for applications made on and after July 1, 1994, and before July 1, 1995.

(a) "Acquisition of equipment or machinery" means the date the equipment and machinery is under the dominion and control of the recipient.

(b) "Applicant" means a person applying for a tax deferral under chapter 82.60 RCW.

(c) "Certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(d) "Computer-related services" means services that are connected or interact directly in the manufacture of computer hardware or software or the programming of the manufactured hardware. This includes the manufacture of hardware such as chips, keyboards, monitors, any other hardware, and the components of these items. It includes creating operating systems and software that will be copied and sold as canned software. "Computer-related services" does not include information services. The activities performed by the manufacturer to test, correct, revise, and upgrade software or hardware before they are ap-

proved for sale to the consumer are considered computer-related services in this instance.

(e) "Department" means the department of revenue.

(f) "Eligible area" means:

(i) Unemployment county. A county in which the average level of unemployment for the three calendar years preceding the year in which an application is filed exceeds the average state unemployment for those years by twenty percent. The department may compare the county's average unemployment rate in the prior three years to one hundred twenty percent of the state's average unemployment rate based on official unemployment figures published by the department of employment security;

(ii) MSA. A metropolitan statistical area, as defined by the Office of Federal Statistical Policy and Standards, United States Department of Commerce, in which the average level of unemployment for the calendar year immediately preceding the year in which an application is filed under chapter 82.60 RCW exceeds the average state unemployment for such calendar year by twenty percent;

(iii) CEZ. A designated community empowerment zone approved under RCW 43.63A.700;

(iv) Timber impact area towns. A town with a population of less than twelve hundred persons that is located in a county that is a timber impact area, as defined in RCW 43.31.601, but that is not an unemployment county as defined in this subsection;

(v) Contiguous county. A county that is contiguous to an unemployment county or a governor's designation county; or

(vi) Governor's designation county. A county designated by the governor as an eligible area under RCW 82.60.047.

(g)(i) "Eligible investment project" means that portion of an investment project which:

(A) Is directly utilized to create at least one new full-time qualified employment position for each seven hundred fifty thousand dollars of investment on which a deferral is requested; and

(B) Either initiates a new operation, or expands or diversifies a current operation by expanding, equipping, or renovating an existing facility with costs in excess of twenty-five percent of the true and fair value of the facility prior to improvement. "Improvement" means the physical alteration by significant expansion, modernization, or renovation of an existing facility, excluding land, where the cost of such expansion, etc., exceeds twenty-five percent of the true and fair value of the existing facility prior to the initiation of the expansion or renovation. The term "improvement" is further defined to include those portions of an existing facility which do not increase the usable floor space, but is limited to the renovation, modernization, or any other form of alteration or addition and the equipment and machinery installed therein during the course of construction. The twenty-five percent test may be satisfied by considering the value of both the building and machinery and equipment; however, at least forty percent of the total renovation costs must be attributable to the physical renovation of the building structure alone. "True and fair value" means the value listed on the assessment roles as determined by the county assessor for the buildings or equipment for ad valorem property tax purposes at the time of application.

(ii) "Eligible investment project" does not include either an investment project undertaken by a light and power business as defined in RCW 82.16.010, other than cogeneration projects that are both an integral part of a manufacturing facility and owned at least fifty

percent by the manufacturer, or investment projects that have already received deferrals under chapter 82.60 RCW.

(h) "Industrial fixture" means an item attached to a building or to land. Fixtures become part of the real estate to which they are attached and upon attachment are classified as real property, not personal property. Examples of "industrial fixtures" are fuel oil lines, boilers, craneways, and certain concrete slabs.

(i) "Initiation of construction," in regards to the construction of new buildings, means the commencement of on-site construction work.

(j) "Initiation of construction," in regards to the construction of expanding or renovating existing structures for the purpose of increasing floor space or production capacity used for manufacturing and research and development, means the commencement of the new construction by renovation, modernization, or expansion, by physical alteration.

(k) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project. A person who does not build or remodel his or her own building, but leases from a third party, is eligible for sales and use tax deferral on the machinery and equipment provided that an investment in qualified machinery and equipment is made by such person and a new structure used to house the manufacturing activities is constructed.

(l) "Manufacturing" has the meaning given in RCW 82.04.120. Manufacturing, for purposes of the distressed area deferral program, also includes computer programming, the production of computer software, and other computer-related services, but only when the computer programming, production of computer software, or other computer-related services are performed by a manufacturer as defined in RCW 82.04.110 and contribute to the production of a new, different, or useful substance or article of tangible personal property for sale; and the activities performed by research and development laboratories and commercial testing laboratories. (Chapter 16, Laws of 2010.)

(m) "Operationally complete" means the project is capable of being used for its intended purpose as described in the application.

(n) "Person" has the meaning given in RCW 82.04.030. "Person" does not include the state of Washington or its institutions. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of chapter 82.60 RCW. The lessor/owner of the structure is not eligible for deferral unless the underlying ownership of the buildings, machinery, or equipment vests exclusively in the lessor/owner, or unless the lessor has by written contract agreed to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

(o) "Qualified buildings" are limited to structures used for manufacturing and research and development activities. "Qualified buildings" include plant offices and warehouses if such facilities are essential or an integral part of a factory, mill, plant, or laboratory. "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building its use must be essential or integral to the manufacturing or research and development operation. Office space that is used by supervisors and their staff, by technicians, by payroll staff, by the safety officer, and by the training staff are examples of qualifying office space. "Warehouse" means facilities used for the storage of raw materials or finished goods.

(p) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The "entire tax year" means the full-time position is filled for a period of twelve consecutive months. "Full time" means at least 35 hours per week, 455 hours a quarter, or 1,820 hours a year.

(q) "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing operation or research and development operation. "Qualified machinery and equipment" includes: Computers, software, data processing equipment, laboratory equipment; manufacturing components such as belts, pulleys, shafts and moving parts; molds, tools and dies; operating structures; and all equipment used to control or operate machinery. It also includes machinery and equipment acquired under the terms of a lease by the recipient. "New" as used in this subsection means either new to the taxing jurisdiction of the state or new to the certificate holder.

(r) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(s) "Recipient" means a person receiving a tax deferral under this program.

(402) **Issuance of deferral certificate.** The department will issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW for an eligible investment project. The department will state on the certificate the amount of tax deferral for which the recipient is eligible. Recipients must keep track of how much tax is deferred.

(403) **Eligible investment amount.**

(a) Projects located in unemployment counties, MSAs, governor-designated counties, or timber impact towns are eligible for a deferral on the portion of the investment project that represents one new qualified employment position for each seven hundred fifty thousand dollars of investment. The eligible amount is computed by dividing the total qualifying project costs by seven hundred fifty thousand, the result being the qualified employment positions. In addition, the number of qualified employment positions created by an investment project will be reduced by the number of full-time employment positions maintained by the recipient in any other community in this state that are displaced as a result of the investment project. This is the number of positions used as the hiring benchmark. The qualified employment positions must be filled by the end of year three. Monitoring and reporting procedures are set forth in subsection (410) of this ~~(section)~~ rule. In addition, buildings that will be used partly for manufacturing or research and development and partly for other purposes are eligible for a deferral on a proportionate basis. Subsection (404) of this ~~(section)~~ rule explains the procedure for apportionment.

(b) Projects located in CEZs, counties containing CEZs, or counties contiguous to an eligible county, are eligible for a deferral if the project meets specific hiring requirements. The recipient is eligible for a deferral on the portion of the investment project that represents one new qualified employment position for each seven hundred fifty thousand dollars of investment. The eligible amount is computed by dividing the total qualifying project costs by seven hundred fifty thousand, the result being the qualified employment positions.

This is the number of positions used as the hiring benchmark over the life of the deferral. The qualified employment positions are reviewed each year, beginning December 31st of the year the project is operationally complete and each year for seven years. Monitoring and reporting procedures are set forth in subsection (410) of this (~~section~~) rule. In addition, buildings that will be used partly for manufacturing or research and development and partly for other purposes are eligible for a deferral on a proportionate basis. Subsection (404) of this (~~section~~) rule explains the procedure for apportionment.

(c) In addition to the hiring requirements for new positions under (b) of this subsection, the recipient of a deferral for an expansion or diversification of an existing facility must ensure that he or she maintains the same percentage of employment positions filled by residents of the contiguous county or the CEZ that existed prior to the application being made. This percentage must be maintained for seven years. The department has instituted a geographic information system (GIS) to assist taxpayers in determining taxing jurisdiction boundaries, local tax rates, and a mapping and address lookup system to determine whether a specific address is within a CEZ. The system is available on the department's internet web site at (~~http://www.dor.wa.gov~~) www.dor.wa.gov.

(d) Qualified employment positions does not include those persons hired in excess of the ratio of one employee per required dollar of investment for which a deferral is granted. In the event an employee is either voluntarily or involuntarily separated from employment, the employment position will be considered filled if the employer is either training or actively recruiting a replacement employee so long as the position is not actually vacant for any period in excess of thirty consecutive days.

**(404) Apportionment of costs between qualifying and nonqualifying investments.** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of existing buildings used in manufacturing, research and development.

(a) Where a building(s) is used partly for manufacturing or research and development and partly for purposes which do not qualify for deferral under this rule, the deferral will be determined by apportionment of the total project costs. The applicable tax deferral will be determined by apportionment according to the ratio of the square footage of that portion of the building(s) directly used for manufacturing or research and development purposes bears to the square footage of the total building(s).

Apportionment formula:

$$\frac{\text{Eligible square feet of building(s)}}{\text{Total square feet of building(s)}} = \text{Percent Eligible}$$

Percent Eligible x Total Project Costs = Eligible Costs.

"Total Project Costs" means cost of multipurpose buildings and other improvement costs associated with the deferral project. Machinery and equipment are not included in this calculation. Common areas, such as hallways and bathrooms, are not included in the square feet figure for either the numerator or the denominator. The cost of the common areas is multiplied by the percent eligible to determine the portion of the common area that is eligible for deferral.

Eligible Tax Deferred = Eligible Cost x Tax Rate.

(b) Qualified machinery and equipment is not subject to apportionment.

(405) **Leased equipment.** The amount of tax deferral allowable for leased equipment is the amount of the consideration paid by the recipient to the lessor over the initial term of the lease, excluding any period of extension or option to renew, up to the last date for repayment of the deferred taxes. After that date the recipient must pay the appropriate sales taxes to the lessor for the remaining term of the lease.

(406) **Application procedure and review process.** An application for sales and use tax deferral under this program must be made prior to the initiation of construction and the acquisition of machinery and equipment. Persons who apply after construction is initiated or after acquisition of machinery and equipment are not eligible for the program.

(a) Application forms will be supplied to the applicant by the department upon request. The completed application may be sent by fax to 360-586-2163 or mailed to the following address:

((~~State of Washington~~))  
Washington State Department of Revenue  
Special Programs  
P.O. Box 47477  
Olympia, WA 98504-7477

(b) The department will verify the information contained in the application and approve or disapprove the application within sixty days. If approved, the department will issue a tax deferral certificate. If disapproved, the department will notify the applicant as to the reason(s) for disapproval. The U.S. Post Office postmark or fax date will be used as the date of application.

(c) The applicant may seek administrative review of the department's disapproval of an application within thirty days from the date of notice of disallowance pursuant to the provisions of WAC 458-20-100(~~, appeals, small claims and settlements~~) (Informal administrative reviews). The filing of a petition for review with the department starts a review of departmental action.

(407) **Eligible area criteria.** The department will use the state-wide and county unemployment statistics as last published by the department. Timber impact town designation is based on information provided by the department of employment security. The department will update the list of eligible areas by county, annually.

(408) **Use of the certificate.** A tax deferral certificate issued under this program will be for the use of the recipient for deferral of sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified buildings or qualified machinery and equipment as defined in subsection (401) of this (~~section~~) rule. Thus, sales and use taxes cannot be deferred on items that do not become part of the qualified buildings, machinery, or equipment. In addition, the deferral is not to be used to defer the taxes of the persons with whom the recipient does business, persons the recipient hires, or employees of the recipient. The tax deferral certificate is to be used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102, Resale certificates. The certificate holder must provide a copy of the tax deferral certificate to the seller at the time goods or services are purchased. The seller will be relieved of the responsibility for collection of the sales or

use tax upon presentation of the certificate. The seller must retain a copy of the certificate as part of its permanent records for a period of at least five years. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller is liable for business and occupation tax on all tax deferral sales.

(409) **Project operationally complete.** An applicant must provide the department with the estimated cost of the investment project at the time the application is made. Following approval of the application and issuance of a tax deferral certificate, a certificate holder must notify the department, in writing, when the value of the investment project reaches the estimated cost as stated on the tax deferral certificate.

(a) If a certificate holder has reached its level of estimated costs and the project is not operationally complete, the certificate holder may request an amended certificate stating a revised amount upon which the deferral of sales and use taxes is requested. Requests must be mailed or faxed to the department.

(b) The certificate holder must notify the department in writing when the construction project is operationally complete. The department will certify the date on which the project was operationally complete. The recipient of the deferral must maintain the manufacturing or research and development activity for eight years from this date.

(c) The recipient will be notified in writing of the total amount of deferred taxes, the date(s) upon which the deferred taxes must be paid, and any reports required to be submitted in the subsequent years. If the department disallows any portion of the amount of sales and use taxes requested for deferral, the recipient may seek administrative review of the department's action within thirty days from the date of the notice of disallowance pursuant to the provisions of WAC 458-20-100(~~(, appeals, small claims and settlements)~~) (Informal administrative reviews). The filing of a petition for review with the department starts a review of departmental action.

(410) **Reporting and monitoring procedure.**

(a) Requirement to submit annual reports. Each recipient of a sales and use tax deferral must submit a report to the department on December 31st of the year in which the investment project is certified by the department as having been operationally completed, and on December 31st of each of the seven succeeding calendar years. The report must be made to the department in a form and manner prescribed by the department. The report must contain information regarding the actual employment related to the project and any other information required by the department. If the recipient fails to submit a report or submits an inadequate or falsified report, the department may declare the amount of deferred taxes outstanding to be immediately due and payable. An inadequate or falsified report is one that contains material omissions or contains knowingly false statements and information.

(b) Requirement to submit annual surveys. Effective April 1, 2004, each recipient of a tax deferral granted under chapter 82.60 RCW after June 30, 1994, must complete an annual survey **instead of an annual report**. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.020(4), the lessee must agree to complete the annual survey and the applicant is not required to complete the annual survey. Refer to WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(411) **Repayment of deferred taxes.** Repayment of tax deferred under chapter 82.60 RCW is excused, except as otherwise provided in RCW 82.60.070 and this subsection on an investment project for which a deferral has been granted under chapter 82.60 RCW after June 30, 1994.

(a) The following describes the various circumstances under which repayment of the deferral may be required. Outstanding taxes are determined by reference to the following table. The table presumes the taxpayer maintained eligibility for the entire year. See subsection (c) for repayment and waiver for deferrals with hiring requirements.

Repayment Year	Percentage of Deferred Tax Waived
1 (Year operationally complete)	0%
2	0%
3	0%
4	10%
5	15%
6	20%
7	25%
8	30%

Any action taken by the department to disqualify a recipient for tax deferral or require payment of all or part of deferred taxes is subject to administrative review pursuant to the provisions of WAC 458-20-100(~~(, appeals, small claims and settlements)~~) (Informal administrative reviews). The filing of a petition for review with the department starts a review of departmental action.

(b) **Failure of investment project to satisfy general conditions.** If, on the basis of the recipient's annual report or other information, including that submitted by the department of employment security, the department finds that an investment project is not eligible for tax deferral, other than failure to create the required number of positions, the department will declare the amount of deferred taxes outstanding to be immediately due. For example, a reason for disqualification would be that the facility is not used for manufacturing or research and development operations.

(c) **Failure of investment project to satisfy employment positions conditions.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project has been operationally complete for three years and has failed to create the required number of qualified employment positions, the amount of taxes deferred will be immediately due. The department will assess interest at the rate and as provided for delinquent excise taxes under RCW 82.32.050 (retroactively to the date of deferral). No penalties will be assessed.

(d) **Failure of investment project to satisfy employee residency requirements.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project under RCW 82.60.040 (1)(b) or (c) has failed to comply with the special hiring requirements of RCW 82.60.045 for any calendar year for which reports are required under this subsection, twelve and one-half percent of the amount of deferred taxes will be immediately due. For each year a deferral's requirements are met twelve and one-half percent of the amount of deferred taxes will be waived. The department will assess interest at the rate provided for delinquent excise taxes under

RCW 82.32.050, retroactively to the date of deferral. No penalties will be assessed.

(e) The department of employment security makes and certifies to the department all determinations of employment and wages required under this subsection, per request.

(412) **Debt not extinguished because of insolvency or sale.** Insolvency or other failure of the recipient does not extinguish the debt for deferred taxes nor will the sale, exchange, or other disposition of the recipient's business extinguish the debt for the deferred taxes. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral. Any person who becomes a successor (see WAC 458-20-216) to such investment project is liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient.

(413) **Disclosure of information.** Applications and reports received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. (RCW 82.60.100.) Effective April 1, 2004, all information collected in annual surveys, except the amount of tax deferral taken, is confidential and not subject to disclosure. Information on the amount of tax deferral taken in annual surveys is not confidential and may be disclosed to the public upon request.

#### PART V

### Applications from July 1, 1992, to June 30, 1994

(501) **Definitions.** For the purposes of this part, the following definitions apply for applications made after July 1, 1992, but before July 1, 1994:

(a) "Acquisition of equipment or machinery" means the equipment and machinery is under the dominion and control of the recipient.

(b) "Applicant" means a person applying for a tax deferral under chapter 82.60 RCW.

(c) "Certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(d) "Computer-related services" means services that are connected or interact directly in the manufacture of computer hardware or software or the programming of the manufactured hardware. This includes the manufacture of hardware such as chips, keyboards, monitors, any other hardware, and the components of these items. It includes creating operating systems and software that will be copied and sold as canned software. "Computer-related services" does not include information services. The activities performed by the manufacturer to test, correct, revise, and upgrade software or hardware before they are approved for sale to the consumer are considered computer-related services in this instance.

(e) "Department" means the department of revenue.

(f) "Eligible area" means:

(i) Unemployment county. A county in which the average level of unemployment for the three calendar years preceding the year in which an application is filed exceeds the average state unemployment for those years by twenty percent. The department may compare the county's average unemployment rate in the prior three years to one hundred twenty percent of the state's average unemployment rate based on official unemployment figures published by the department of employment security;

(ii) MSA. A metropolitan statistical area, as defined by the Office of Federal Statistical Policy and Standards, United States Department of Commerce, in which the average level of unemployment for the calendar year immediately preceding the year in which an application is filed under chapter 82.60 RCW exceeds the average state unemployment for such calendar year by twenty percent; or

(iii) CEZ. Beginning July 1, 1993, a designated community empowerment zone approved under RCW 43.63A.700.

(g)(i) "Eligible investment project" means that portion of an investment project which:

(A) Is directly utilized to create at least one new full-time qualified employment position for each three hundred thousand dollars of investment on which a deferral is requested; and

(B) Either initiates a new operation, or expands or diversifies a current operation by expanding, or renovating an existing building with costs in excess of twenty-five percent of the true and fair value of the plant complex prior to improvement. "Improvement" means the physical alteration by significant expansion, modernization, or renovation of an existing plant complex, excluding land, where the cost of such expansion, etc., exceeds twenty-five percent of the true and fair value of the existing plant complex prior to the initiation of the expansion or renovation. The term "improvement" is further defined to include those portions of an existing building which do not increase the usable floor space, but is limited to the renovation, modernization, or any other form of alteration or addition and the equipment and machinery installed therein during the course of construction. The twenty-five percent test may be satisfied by considering the value of both the building and machinery and equipment; however, at least forty percent of the total renovation costs must be attributable to the physical renovation of the building structure alone. "True and fair value" means the value listed on the assessment rolls as determined by the county assessor for the land, buildings, or equipment for ad valorem property tax purposes at the time of application; or

(C) Acquires machinery and equipment to be used for either manufacturing or research and development. The lessor/owner of the structure is not eligible for a deferral unless the underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person.

(ii) "Eligible investment project" does not include any portion of an investment project undertaken by a light and power business as defined in RCW 82.16.010 or investment projects that have already received deferrals under chapter 82.60 RCW.

(h) "Industrial fixture" means an item attached to a building or to land. Fixtures become part of the real estate to which they are attached and upon attachment are classified as real property, not personal property. Examples of "industrial fixtures" are fuel oil lines, boilers, craneways, and certain concrete slabs.

(i) "Initiation of construction," in regards to the construction of new buildings, means the commencement of on-site construction work.

(j) "Initiation of construction," in regards to the construction of expanding or renovating existing structures for the purpose of increasing floor space or production capacity used for manufacturing and research and development, means the commencement of new construction by renovation, modernization, or expansion, by physical alteration.

(k) "Investment project" means an investment in qualified buildings and qualified machinery and equipment, including labor and serv-

ices rendered in the planning, installation, and construction of the project.

(l) "Manufacturing" has the meaning given in RCW 82.04.120. Manufacturing, for purposes of the distressed area deferral program, also includes computer programming, the production of computer software, and other computer-related services, but only when the computer programming, production of computer software, or other computer-related services are performed by a manufacturer as defined in RCW 82.04.110 and contribute to the production of a new, different, or useful substance or article of tangible personal property for sale; and the activities performed by research and development laboratories and commercial testing laboratories. (Chapter 16, Laws of 2010.)

(m) "Operationally complete" means the project is capable of being used for its intended purpose as described in the application.

(n) "Person" has the meaning given in RCW 82.04.030. "Person" does not include the state of Washington or its institutions. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of this chapter. The lessor/owner of the structure is not eligible for deferral unless the underlying ownership of the buildings, machinery, or equipment vests in the lessor/owner.

(o) "Qualified buildings" are limited to structures used for manufacturing and research and development activities. "Qualified buildings" include plant offices and warehouses if such facilities are essential or an integral part of a factory, mill, plant, or laboratory. "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building, its use must be essential or integral to the manufacturing or research and development operation. Office space that is used by supervisors and their staff, by technicians, by payroll staff, by the safety officer, and by the training staff are examples of qualifying office space. "Warehouse" means facilities used for the storage of raw materials or finished goods.

(p) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The "entire tax year" means the full-time position is filled for a period of twelve consecutive months. "Full time" means at least 35 hours a week, 455 hours a quarter, or 1,820 hours a year.

(q) "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing operation or research and development operation. "Qualified machinery and equipment" includes: Computers, software, data processing equipment, laboratory equipment; manufacturing components such as belts, pulleys, shafts and moving parts; molds, tools and dies; operating structures; and all equipment used to control or operate machinery. It also includes machinery and equipment acquired under the terms of a long- or short-term lease by the recipient. "New" as used in this subsection means either new to the taxing jurisdiction of the state or new to the certificate holder.

(r) "Recipient" means a person receiving a tax deferral under this program.

(s) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for

market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(502) **Issuance of deferral certificate.** The department will issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW for an eligible investment project. The department will state on the certificate the amount of tax deferral for which the recipient is eligible. Recipients must keep track of how much deferral is taken.

(503) **Eligible investment amount.** Recipients are eligible for a deferral on investment used to create employment positions.

(a) Total qualifying project costs must be examined to determine the number of positions associated with the project. Total qualifying project costs are divided by three hundred thousand, the result being the qualified employment positions. This is the number of positions used as the hiring benchmark at the end of year three. The qualified employment positions are reviewed in the third year, following December 31st of the year the project is operationally complete. If the recipient has failed to create the requisite number of positions, the department will issue an assessment under subsection (511) of this (~~section~~) rule. Buildings that will be used partly for manufacturing or research and development and partly for other purposes are eligible for a deferral on a proportionate basis. Subsection (504) of this (~~section~~) rule explains the procedure for apportionment.

(b) Qualified employment positions does not include those persons hired in excess of the ratio of one employee per required dollar of investment for which a deferral is granted. In the event an employee is either voluntarily or involuntarily separated from employment, the employment position will be considered filled if the employer is either training or actively recruiting a replacement employee so long as the position is not actually vacant for any period in excess of thirty consecutive days.

(504) **Apportionment of costs between qualifying and nonqualifying investments.** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of existing buildings directly used in manufacturing, research and development, or commercial testing laboratories.

(a) Where a building(s) is used partly for manufacturing or research and development, or commercial testing and partly for purposes, which do not qualify for deferral under this rule, the deferral will be determined by apportionment of the total project costs. The applicable tax deferral will be determined by apportionment according to the ratio of the square footage of that portion of the building(s) directly used for manufacturing or research and development purposes bears to the square footage of the total building(s).

Apportionment formula:

$$\frac{\text{Eligible square feet of building(s)}}{\text{Total square feet of building(s)}} = \text{Percent Eligible}$$

Percent Eligible x Total Project Costs = Eligible Costs.

"Total Project Costs" means cost of multipurpose buildings and other improvement costs associated with the deferral project. Machinery and equipment are not included in this calculation. Common areas, such as hallways and bathrooms, are not included in the square feet figure for either the numerator or the denominator. The cost of the common areas

is multiplied by the percent eligible to determine the portion of the common area that is eligible for deferral.

Eligible Tax Deferred = Eligible Cost x Tax Rate.

(b) Qualified machinery and equipment is not subject to apportionment.

(505) **Leased equipment.** The amount of tax deferral allowable for leased equipment is the amount of the consideration paid by the recipient to the lessor over the initial term of the lease, excluding any period of extension or option to renew, up to the last date for repayment of the deferred taxes. After that date the recipient must pay the appropriate sales taxes to the lessor for the remaining term of the lease.

(506) **Application procedure and review process.** An application for sales and use tax deferral under this program must be made prior to the initiation of construction and the acquisition of equipment or machinery. Persons who apply after construction is initiated or finished or after acquisition of machinery and equipment are not eligible for the program.

(a) Application forms will be supplied to the applicant by the department upon request. The completed application may be sent by fax to 360-586-2163 or mailed to the following address:

((State of Washington))  
Washington State Department of Revenue  
Special Programs  
P.O. Box 47477  
Olympia, WA 98504-7477

(b) The department will verify the information contained in the application and either approve or disapprove the application within sixty days. If approved, the department will issue a tax deferral certificate. If disapproved, the department will notify the applicant as to the reason(s) for disapproval. The U.S. Post Office postmark or fax date will be used as the date of application.

(c) The applicant may seek administrative review of the department's refusal to issue a certificate pursuant to the provisions of WAC 458-20-100(~~(, appeals, small claims and settlements)~~) (Informal administrative reviews), within thirty days from the date of notice of the department's refusal, or within any extension of such time granted by the department. The filing of a petition for review with the department starts a review of departmental action.

(507) **Unemployment criteria.** For purposes of making application for tax deferral and of approving such applications, the statewide and county unemployment statistics last published by the department will be used to determine eligible areas. The department will update the list of eligible areas by county, on an annual basis.

(508) **Use of the certificate.** A tax deferral certificate issued under this program is for the use of the recipient for deferral of sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified buildings or qualified machinery and equipment as defined in subsection (501) of this (~~section~~) rule. Thus, sales and use taxes cannot be deferred on items that do not become part of the qualified buildings, machinery, or equipment.

The tax deferral certificate is to be used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102, Resale certificates. The certificate holder must provide a copy of the tax

deferral certificate to the seller at the time goods or services are purchased. The seller will be relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller must retain a copy of the certificate as part of its permanent records for a period of at least five years. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller is liable for business and occupation tax on all tax deferral sales. The deferral certificate is to defer the taxes of the recipient. For example, the deferral is not to be used to defer the taxes of the persons with whom the recipient does business, persons the recipient hires, or employees of the recipient.

(509) **Project operationally complete.** An applicant must provide the department with the estimated cost of the investment project at the time the application is made. Following approval of the application and issuance of a tax deferral certificate, a certificate holder must notify the department, in writing, when the value of the investment project reaches the estimated cost as stated on the tax deferral certificate.

(a) If a certificate holder has reached its level of estimated costs and the project is not operationally complete, the certificate holder may request an amended certificate stating a revised amount upon which the deferral of sales and use taxes is requested. Requests must be mailed or faxed to the department.

(b) The certificate holder must notify the department in writing when the construction project is operationally complete. The department will certify the date on which the project was operationally complete. The recipient of the deferral must maintain the manufacturing or research and development activity for eight years from this date.

(c) The recipient will be notified in writing of the total amount of deferred taxes, the date(s) upon which the deferred taxes must be paid, and any reports required to be submitted in the subsequent years. If the department disallows all or any portion of the amount of sales and use taxes requested for deferral, the recipient may seek administrative review of the department's action pursuant to the provisions of WAC 458-20-100, within thirty days from the date of the notice of disallowance.

(510) **Reporting and monitoring procedure.** Requirement to submit annual reports. Each recipient of a sales and use tax deferral must submit a report to the department on December 31st of each year during the repayment period until the tax deferral is repaid. The report must be made to the department in a form and manner prescribed by the department. The report must contain information regarding the actual employment related to the project and any other information required by the department. If the recipient fails to submit a report or submits an inadequate or falsified report, the department may declare the amount of deferred taxes outstanding to be immediately assessed and payable. An inadequate or falsified report is one that contains material omissions or contains knowingly false statements and information.

(511) **Repayment of deferred taxes.** The recipient must begin paying the deferred taxes in the third year after the date certified by the department as the date on which the construction project has been operationally completed.

(a) The first payment will be due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years, with amounts of payment scheduled as follows:

Repayment Year	Percentage of Deferred Tax Repaid
1 (Year certified operationally complete)	0%
2	0%
3	0%
4	10%
5	15%
6	20%
7	25%
8	30%

(b) The department may authorize an accelerated repayment schedule upon request of the recipient. Interest will not be charged on any taxes deferred under this part during the period of deferral, although other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for any delinquent payments during the repayment period pursuant to chapter 82.32 RCW.

(c) Taxes deferred on the sale or use of labor directly applied in the construction of an investment project for which deferral has been granted need not be repaid, provided eligibility for the granted tax deferral has been perfected by meeting all of the eligibility requirements, based upon the recipient's annual December 31 reports and any other information available to the department. The recipient must establish, by clear and convincing evidence, the value of all construction and installation labor for which repayment of sales tax is sought to be excused. Such evidence must include, but is not limited to: A written, signed, and dated itemized billing from construction/installation contractors or independent third party labor providers which states the value of labor charged separately from the value of materials. This information must be maintained in the recipient's permanent records for the department's review and verification. In the absence of such itemized billings in its permanent records, no recipient may be excused from repayment of sales tax on the value of labor in an amount exceeding thirty percent of its gross construction or installation contract charges. The value of labor for which an excuse from repayment of sales or use tax may be received will not exceed the value which is subject to such taxes under the general provisions of chapters 82.08 and 82.12 RCW.

(d) **Failure of investment project to satisfy general conditions.** If, on the basis of the recipient's annual report or other information, including that submitted by the department of employment security, the department finds that an investment project is not eligible for tax deferral for reasons other than failure to create the required number of qualified employment positions, the department will declare the amount of deferred taxes outstanding to be immediately due. For example, a reason for disqualification would be the facility is not used for a manufacturing or research and development operation.

(e) **Failure of investment project to satisfy required employment positions.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project has been operationally complete for three years and has failed to create the required number of qualified employment positions, the department will assess interest but not penalties, on the deferred taxes for the project. The department will assess interest at the rate provided for

delinquent excise taxes under RCW 82.32.050, retroactively to the date of the date of deferral. No penalties will be assessed.

(f) The department of employment security makes and certifies to the department all determinations of employment and wages required under this subsection, per request.

(g) Any action taken by the department to assess interest or disqualify a recipient for tax deferral will be subject to administrative review pursuant to the provisions of WAC 458-20-100(~~(, appeals, small claims and settlements)~~) (Informal administrative reviews). The filing of a petition for review with the department starts a review of departmental action.

(512) **Debt not extinguished because of insolvency or sale.** Insolvency or other failure of the recipient does not extinguish the debt for deferred taxes nor will the sale, exchange, or other disposition of the recipient's business extinguish the debt for the deferred taxes. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral. Any person who becomes a successor (see WAC 458-20-216) to such investment project will be liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient.

(513) **Disclosure of information.** Applications and reports received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. (RCW 82.60.100.)

AMENDATORY SECTION (Amending WSR 10-21-044, filed 10/13/10, effective 11/13/10)

**WAC 458-20-24003 Tax incentives for high technology businesses.**

(1) **Introduction.** This (~~(section)~~) rule explains the tax incentives, contained in chapter 82.63 RCW and RCW 82.04.4452, which apply to businesses engaged in research and development or pilot scale manufacturing in Washington in five high technology areas: Advanced computing, advanced materials, biotechnology, electronic device technology, and environmental technology. Eligibility for high technology or research and development tax incentives offered by the federal government or any other jurisdiction does not establish eligibility for Washington's programs.

This (~~(section)~~) rule contains examples that identify a number of facts and then state a conclusion. The examples should be used only as a general guide. The tax results in all situations must be determined after a review of all facts and circumstances. Assume all the examples below occur on or after June 10, 2004, unless otherwise indicated.

(2) **Organization of the (~~(section)~~) rule.** The information provided in this (~~(section)~~) rule is divided into three parts.

(a) Part I provides information on the sales and use tax deferral program under chapter 82.63 RCW.

(b) Part II provides information on the sales and use tax exemption available for persons engaged in certain construction activities for the federal government under RCW 82.04.190(6).

(c) Part III provides information on the business and occupation tax credit on research and developing spending under RCW 82.04.4452.

PART I  
SALES AND USE TAX DEFERRAL PROGRAM

(3) **Who is eligible for the sales and use tax deferral program?** A person engaged in qualified research and development or pilot scale manufacturing in Washington in the five high technologies areas is eligible for this deferral program for its eligible investment project.

(a) **What does the term "person" mean for purposes of this deferral program?** "Person" has the meaning given in RCW 82.04.030. Effective June 10, 2004, "person" also includes state universities as defined in RCW 28B.10.016. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of chapter 82.63 RCW.

(i) Effective June 10, 2004, the lessor or owner of the qualified building is not eligible for a deferral unless:

(A) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(B) All of the following conditions are met:

(I) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(II) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.63.020(2);

(III) The lessee must receive an economic benefit from the lessor no less than the amount of tax deferred by the lessor; and

(IV) Upon request, the lessor must provide the department with written documentation to support the eligibility of the deferral, including any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

For example, economic benefit of the deferral is passed through to the lessee when evidenced by written documentation that the amounts paid to the lessor for construction of tenant improvements are reduced by the amount of the sales tax deferred, or that the lessee receives more tenant improvements through a credit for tenant improvements or other mechanism in the lease equal to the amount of the sales tax deferred.

(ii) Prior to June 10, 2004, the lessor or owner of the qualified building is not eligible for a deferral unless the underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person, or unless the lessor by written contract agrees to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

(iii) The lessor of the qualified building who receives a letter of intent from a qualifying lessee may be eligible for deferral, assuming that all other requirements of chapter 82.63 RCW are met. At the time of application, the lessor must provide to the department a letter of intent by the lessee to lease the qualified building and any other information to prove that the lessee will engage in qualified research and development or pilot scale manufacturing once the building construction is complete. After the investment project is certified as operationally complete, the lessee must actually occupy the building as a lessee and engage in qualified research and development or pilot scale manufacturing. Otherwise, deferred taxes will be immediately due to the lessor, and interest will be assessed retroactively from the date of deferral.

(b) **What is "qualified research and development" for purposes of this ((section)) rule?** "Qualified research and development" means research and development performed within this state in the fields of advanced computing, advanced materials, biotechnology, electronic device technology, and environmental technology.

(c) **What is "research and development" for purposes of this ((section)) rule?** "Research and development" means activities performed to discover technological information, and technical and non-routine activities concerned with translating technological information into new or improved products, processes, techniques, formulas, inventions, or software.

The term includes exploration of a new use for an existing drug, device, or biological product if the new use requires separate licensing by the Federal Food and Drug Administration under chapter 21 C.F.R., as amended.

The term does not include adaptation or duplication of existing products where the products are not substantially improved by application of the technology, nor does the term include surveys and studies, social science and humanities research, market research or testing, quality control, sale promotion and service, computer software developed for internal use, and research in areas such as improved style, taste, and seasonal design.

(i) A person need not both discover technological information and translate technological information into new or improved products, processes, techniques, formulas, inventions, or software in order to engage in research and development. A person may perform either activity alone and be engaged in research and development.

(ii) To discover technological information means to gain knowledge of technological information through purposeful investigation. The knowledge sought must be of something not previously known or, if known, only known by persons who have not made the knowledge available to the public.

(iii) Technological information is information related to the application of science, especially with respect to industrial and commercial objectives. Industrial and commercial objectives include both sale and internal use (other than internal use software). The translation of technological information into new or improved products, processes, techniques, formulas, inventions, or software does not require the use of newly discovered technological information to qualify as research and development.

(iv) The translation of technological information requires both technical and nonroutine activities.

(A) An activity is technical if it involves the application of scientific, engineering, or computer science methods or principles.

(B) An activity is nonroutine if it:

(I) Is undertaken to achieve a new or improved function, performance, reliability, or quality; and

(II) Is performed by engineers, scientists, or other similarly qualified professionals or technicians; and

(III) Involves a process of experimentation designed to evaluate alternatives where the capability or the method of achieving the new or improved function, performance, reliability, or quality, or the appropriate design of the desired improvement, is uncertain at the beginning of the taxpayer's research activities. A process of experimentation must seek to resolve specific uncertainties that are essential to attaining the desired improvement.

(v) A product is substantially improved when it functions fundamentally differently because of the application of technological information. This fundamental difference must be objectively measured. Examples of objective measures include increased value, faster operation, greater reliability, and more efficient performance. It is not necessary for the improvement to be successful for the research to qualify.

(vi) Computer software development may qualify as research and development involving both technical and nonroutine activities concerned with translating technological information into new or improved software, when it includes the following processes: Software concept, software design, software design implementation, conceptual freeze, alpha testing, beta testing, international product localization process, and other processes designed to eliminate uncertainties prior to the release of the software to the market for sale. Research and development ceases when the software is released to the market for sale.

Postrelease software development may meet the definition of research and development under RCW 82.63.010(16), but only if it involves both technical and nonroutine activities concerned with translating technological information into improved software. All facts and circumstances are considered in determining whether postrelease software development meets the definition of research and development.

(vii) Computer software is developed for internal use if it is to be used only by the person by whom it is developed. If it is to be available for sale, lease, or license, it is not developed for internal use, even though it may have some internal applications. If it is to be available for use by persons, other than the person by whom it is developed, who access or download it remotely, such as through the internet, it is not usually deemed to be developed for internal use. However, remotely accessed software is deemed to be developed for internal use if its purpose is to assist users in obtaining goods, services, or information provided by or through the person by whom the software is developed. For example, software is developed for internal use if it enables or makes easier the ordering of goods from or through the person by whom the software is developed. On the other hand, a search engine used to search the world wide web is an example of software that is not developed for internal use because the search engine itself is the service sought.

(viii) Research and development is complete when the product, process, technique, formula, invention, or software can be reliably reproduced for sale or commercial use. However, the improvement of an existing product, process, technique, formula, invention, or software may qualify as research and development.

(d) **What is "pilot scale manufacturing" for purposes of this ((section)) rule?** "Pilot scale manufacturing" means design, construction, and testing of preproduction prototypes and models in the fields of biotechnology, advanced computing, electronic device technology, advanced materials, and environmental technology other than for commercial sale. "Commercial sale" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(e) **What are the five high technology areas?** The five high technology areas are as follows:

(i) **Advanced computing.** "Advanced computing" means technologies used in the designing and developing of computing hardware and software, including innovations in designing the full spectrum of hardware

from hand-held calculators to super computers, and peripheral equipment.

(ii) **Advanced materials.** "Advanced materials" means materials with engineered properties created through the development of specialized processing and synthesis technology, including ceramics, high value-added metals, electronic materials, composites, polymers, and biomaterials.

(iii) **Biotechnology.** "Biotechnology" means the application of technologies, such as recombinant DNA techniques, biochemistry, molecular and cellular biology, genetics, including genomics, gene expression and genetic engineering, cell fusion techniques, and new bioprocesses, using living organisms, or parts of organisms, to produce or modify products, to improve plants or animals, to develop microorganisms for specific uses, to identify targets for small molecule pharmaceutical development, or to transform biological systems into useful processes and products or to develop microorganisms for specific uses.

(iv) **Electronic device technology.** "Electronic device technology" means technologies involving microelectronics; semiconductors; electronic equipment and instrumentation; radio frequency, microwave, and millimeter electronics; optical and optic-electrical devices; and data and digital communications and imaging devices.

(v) **Environmental technology.** "Environmental technology" means assessment and prevention of threats or damage to human health or the environment, environmental cleanup, and the development of alternative energy sources.

(A) The assessment and prevention of threats or damage to human health or the environment concerns assessing and preventing potential or actual releases of pollutants into the environment that are damaging to human health or the environment. It also concerns assessing and preventing other physical alterations of the environment that are damaging to human health or the environment.

For example, a research project related to salmon habitat restoration involving assessment and prevention of threats or damages to the environment may qualify as environmental technology, if such project is concerned with assessing and preventing potential or actual releases of water pollutants and reducing human-made degradation of the environment.

(I) Pollutants include waste materials or by-products from manufacturing or other activities.

(II) Environmental technology includes technology to reduce emissions of harmful pollutants. Reducing emissions of harmful pollutants can be demonstrated by showing the technology is developed to meet governmental emission standards. Environmental technology also includes technology to increase fuel economy, only if the taxpayer can demonstrate that a significant purpose of the project is to increase fuel economy and that such increased fuel economy does in fact significantly reduce harmful emissions. If the project is intended to increase fuel economy only minimally or reduce emissions only minimally, the project does not qualify as environmental technology. A qualifying research project must focus on the individual components that increase fuel economy of the product, not the testing of the entire product when everything is combined, unless the taxpayer can separate out and identify the specific costs associated with such testing.

(III) Environmental technology does not include technology for preventive health measures for, or medical treatment of, human beings.

(IV) Environmental technology does not include technology aimed to reduce impact of natural disasters such as floods and earthquakes.

(V) Environmental technology does not include technology for improving safety of a product.

(B) Environmental cleanup is corrective or remedial action to protect human health or the environment from releases of pollutants into the environment.

(C) Alternative energy sources are those other than traditional energy sources such as fossil fuels, nuclear power, and hydroelectricity. However, when traditional energy sources are used in conjunction with the development of alternative energy sources, all the development will be considered the development of alternative energy sources.

(4) **What is eligible for the sales and use tax deferral program?** This deferral program applies to an eligible investment project for sales and use taxes imposed on the construction, expansion, or renovation of qualified buildings and acquisition of qualified machinery and equipment.

(a) **What is an "eligible investment project" for purposes of this ((section)) rule?** "Eligible investment project" means an investment project which either initiates a new operation, or expands or diversifies a current operation by expanding, renovating, or equipping an existing facility.

(b) **What is an "investment project" for purposes of this ((section)) rule?** "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction or improvement of the project. When an application for sales and use tax deferral is timely submitted, costs incurred before the application date are allowable, if they otherwise qualify.

(c) **What is "qualified buildings" for purposes of this ((section)) rule?** "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity, used for pilot scale manufacturing or qualified research and development.

(i) "Qualified buildings" is limited to structures used for pilot scale manufacturing or qualified research and development. "Qualified buildings" includes plant offices and other facilities that are an essential or an integral part of a structure used for pilot scale manufacturing or qualified research and development.

(A) "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building, its use must be essential or integral to pilot scale manufacturing or qualified research and development. An office may be located in a separate building from the building used for pilot scale manufacturing or qualified research and development, but the office must be located at the same site as the qualified building in order to qualify. Each individual office may only qualify or disqualify in its entirety.

(B) A site is one or more immediately adjacent parcels of real property. Adjacent parcels of real property separated only by a public road comprise a single site.

(ii) "Qualified buildings" does not include construction of landscaping or most other work outside the building itself, even though the landscaping or other work outside the building may be required by the city or county government in order for the city or county to issue a permit for the construction of a building.

However, "qualified buildings" includes construction of specialized sewerage pipes connected to a qualified building that are specifically designed and used exclusively for pilot scale manufacturing or qualified research and development.

Also, "qualified buildings" includes construction of parking lots connected to or adjacent to the building if the parking lots are for the use of workers performing pilot scale manufacturing or qualified research and development in the building. Parking lots may be apportioned based upon its qualifying use.

(d) **What is "multiple qualified buildings" for purposes of this ((section)) rule?** "Multiple qualified buildings" means "qualified buildings" leased to the same person when such structures:

(i) Are located within a five-mile radius; and

(ii) The initiation of construction of each building begins within a sixty-month period.

(e) **When is apportionment of qualified buildings appropriate?** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of an existing building used in pilot scale manufacturing or qualified research and development. Where a building(s) is used partly for pilot scale manufacturing or qualified research and development and partly for purposes that do not qualify for deferral under this ((section)) rule, apportionment is necessary.

(f) **What is the apportionment method?** The applicable tax deferral will be determined as follows:

(i) Tax on the cost of construction of areas devoted solely to pilot scale manufacturing or qualified research and development may be deferred.

(ii) Tax on the cost of construction of areas not used at all for pilot scale manufacturing or qualified research and development may not be deferred.

(iii) Tax on the cost of construction of areas used in common for pilot scale manufacturing or qualified research and development and for other purposes, such as hallways, bathrooms, and conference rooms, may be deferred by apportioning the costs of construction on a square footage basis. The apportioned costs of construction eligible for deferral are established by using the ratio, expressed as a percentage, of the square feet of the construction, expansion, or renovation devoted to pilot scale manufacturing or qualified research and development, excluding areas used in common to the total square feet of the construction, expansion, or renovation, excluding areas used in common. That percentage is applied to the cost of construction of the common areas to determine the costs of construction eligible for tax deferral. Expressed as a formula, apportionment of the cost of the common areas is determined by:

$$\frac{\text{Square feet devoted to research and development or pilot scale manufacturing, excluding square feet of common areas}}{\text{Total square feet, excluding square feet of common areas}} = \text{Percentage of total cost of construction of common areas eligible for deferral}$$

(iv) The apportionment method described in (f)(i), (ii), and (iii) of this subsection must be used unless the applicant or recipient can demonstrate that another method better represents a reasonable apportionment of costs, considering all the facts and circumstances. An example is to use the number of employees in a qualified building that is engaged in pilot scale manufacturing or qualified research and development as the basis for apportionment, if this method is not easily manipulated to reflect a desired outcome, and it otherwise rep-

resents a reasonable apportionment of costs under all the facts and circumstances. This method may take into account qualified research and development or pilot scale manufacturing activities that are shifted within a building or from one building to another building. If assistance is needed to a tax-related question specific to your business under this subsection, you may request a tax ruling. To make a request contact the department's taxpayer information and education division at:

Washington State Department of Revenue  
Taxpayer Information and Education  
P.O. Box 47478  
Olympia, WA 98504-7478  
fax 360-586-2463

(v) Example. A building to be constructed will be partially devoted to research and development and partially devoted to marketing, a nonqualifying purpose. The total area of the building is 100,000 square feet. Sixty thousand square feet are used only for research and development, 20,000 square feet are used only for marketing, and the remaining 20,000 square feet are used in common by research and development employees and marketing employees. Tax on the cost of constructing the 60,000 square feet used only for research and development may be deferred. Tax on the cost of constructing the 20,000 square feet used only for marketing may not be deferred. Tax on 75% of the cost of constructing the common areas may be deferred. (Sixty thousand square feet devoted solely to research and development divided by 80,000 square feet devoted solely to research and development and marketing results in a ratio expressed as 75%.)

(g) **What is "qualified machinery and equipment" for purposes of this ((section)) rule?** "Qualified machinery and equipment" means fixtures, equipment, and support facilities that are an integral and necessary part of a pilot scale manufacturing or qualified research and development operation. "Qualified machinery and equipment" includes: Computers; software; data processing equipment; laboratory equipment, instrumentation, and other devices used in a process of experimentation to develop a new or improved pilot model, plant process, product, formula, invention, or similar property; manufacturing components such as belts, pulleys, shafts, and moving parts; molds, tools, and dies; vats, tanks, and fermenters; operating structures; and all other equipment used to control, monitor, or operate the machinery. For purposes of this ((section)) rule, qualified machinery and equipment must be either new to the taxing jurisdiction of the state or new to the certificate holder, except that used machinery and equipment may be treated as qualified machinery and equipment if the certificate holder either brings the machinery and equipment into Washington or makes a retail purchase of the machinery and equipment in Washington or elsewhere.

(i) **What are "integral" and "necessary"?** Machinery and equipment is an integral and necessary part of pilot scale manufacturing or qualified research and development if the pilot scale manufacturing or qualified research and development cannot be accomplished without it. For example, a laboratory table is integral and necessary to qualified research and development. Likewise, telephones, computer hardware (e.g., cables, scanners, printers, etc.), and computer software (e.g., Word, Excel, Windows, Adobe, etc.) used in a typical workstation for an R&D personnel are integral and necessary to qualified research and

development. Decorative artwork, on the other hand, is not integral and necessary to qualified research and development.

(ii) **Must qualified machinery and equipment be used exclusively for qualifying purposes in order to qualify?** Qualified machinery and equipment must be used exclusively for pilot scale manufacturing or qualified research and development to qualify for the deferral. Operating system software shared by accounting personnel, for example, is not used exclusively for qualified research and development. However, *de minimis* nonqualifying use will not cause the loss of the deferral. An example of *de minimis* use is the occasional use of a computer for personal e-mail.

(iii) **Is qualified machinery and equipment subject to apportionment?** Unlike buildings, if machinery and equipment is used for both qualifying and nonqualifying purposes, the costs cannot be apportioned. Sales or use tax cannot be deferred on the purchase or use of machinery and equipment used for both qualifying and nonqualifying purposes.

(iv) **To what extent is leased equipment eligible for the deferral?** In cases of leases of qualifying machinery and equipment, deferral of tax is allowed on payments made during the initial term of the lease, but not for extensions or renewals of the lease. Deferral of tax is not allowed for lease payments for any period after the seventh calendar year following the calendar year for which the project is certified as operationally complete.

(5) **What are the application and review processes?** Applicants must apply for deferral to the department of revenue before the initiation of construction of, or acquisition of equipment or machinery for the investment project. When an application for sales and use tax deferral is timely submitted, costs incurred before the application date are allowable, if they otherwise qualify. In the case of an investment project consisting of "multiple qualified buildings," applications must be made for, and before the initiation of construction of, each qualified building.

(a) **What is "initiation of construction" for purposes of this ((section)) rule?**

(i) ~~((On or after June 10, 2004.~~

~~(A))~~ Initiation of construction means the date that a building permit is issued under the building code adopted under RCW 19.27.031 for:

~~((I))~~ (A) Construction of the qualified building, if the underlying ownership of the building vests exclusively with the person receiving the economic benefit of the deferral;

~~((II))~~ (B) Construction of the qualified building, if a lessor passes the economic benefits of the deferral to a lessee as provided in RCW 82.63.010(7); or

~~((III))~~ (C) Tenant improvements for a qualified building, if a lessor passes the economic benefits of the deferral to a lessee as provided in RCW 82.63.010(7).

~~((B))~~ (ii) Initiation of construction does not include soil testing, site clearing and grading, site preparation, or any other related activities that are initiated before the issuance of a building permit for the construction of the foundation of the building.

~~((C))~~ (iii) If the investment project is a phased project, initiation of construction must apply separately to each building. For purposes of this ~~((section))~~ rule, a "phased project" means construction of multiple buildings in different phases over the life of a project. A taxpayer may file a separate application for each qualified

building, or the taxpayer may file one application for all qualified buildings. If a taxpayer files one application for all qualified buildings, initiation of construction must apply separately to each building.

~~((ii) Prior to June 10, 2004. Construction is initiated when workers start on site building tasks. The initiation of construction does not include land clearing or site preparation prior to excavation of the building site. Also, the initiation of construction does not include design or planning activities.))~~

(b) **What is "acquisition of machinery and equipment" for purposes of this ((section)) rule?** "Acquisition of machinery and equipment" means the machinery and equipment is under the dominion and control of the recipient or its agent.

(c) **Lessor and lessee examples.**

(i) Prior to the initiation of construction, Owner/Lessor A enters into an agreement with Lessee B, a company engaged in qualified research and development. Under the agreement, A will build a building to house B's research and development activities, will apply for a tax deferral on construction of the building, will lease the building to B, and will pass on the entire value of the deferral to B. B agrees in writing with the department to complete annual surveys. A applies for the deferral before the date the building permit is issued. A is entitled to a deferral on building construction costs.

(ii) After construction has begun, Lessee C asks that certain tenant improvements be added to the building. Lessor D and Lessee C each agree to pay a portion of the cost of the improvements. D agrees with C in a written agreement that D will pass on the entire value of D's portion of the tax deferral to C, and C agrees in writing with the department to complete annual surveys. C and D each apply for a deferral on the costs of the tenant improvements they are legally responsible for before the date the building permit is issued for such tenant improvements. Both applications will be approved. While construction of the building was initiated before the applications were submitted, tenant improvements on a building under construction are deemed to be the expansion or renovation of an existing structure. Also, lessees are entitled to the deferral only if they are legally responsible and actually pay contractors for the improvements, rather than merely reimbursing lessors for the costs.

(iii) After construction has begun but before machinery or equipment has been acquired, Lessee E applies for a deferral on machinery and equipment. The application will be approved, and E is required to complete annual surveys. Even though it is too late to apply for a deferral of tax on building costs, it is not too late to apply for a deferral for the machinery and equipment.

(d) **How may a taxpayer obtain an application form?** Application forms may be obtained at department of revenue district offices, by downloading from the department's web site ([dor.wa.gov](http://dor.wa.gov)), by telephoning the telephone information center (800-647-7706), or by contacting the department's special programs division at:

Washington State Department of Revenue  
Special Programs Division  
Post Office Box 47477  
Olympia, WA 98504-7477  
fax 360-586-2163

Applicants must mail or fax applications to the special programs division at the address or fax number given above. Only those applica-

tions which are approved by the department in connection with the deferral program are not confidential and are subject to public disclosure.

For purposes of this ~~((section))~~ rule, "applicant" means a person applying for a tax deferral under chapter 82.63 RCW, and "department" means the department of revenue.

(e) **What should an application form include?** The application form should include information regarding the location of the investment project, the applicant's average employment in Washington for the prior year, estimated or actual new employment related to the project, estimated or actual wages of employees related to the project, estimated or actual costs, and time schedules for completion and operation. The application form may also include other information relevant to the project and the applicant's eligibility for deferral.

(f) **What is the date of application?** The date of application is the earlier of the postmark date or the date of receipt by the department.

(g) **When will the department notify approval or disapproval of the deferral application?** The department must rule on an application within sixty days. If an application is denied, the department must explain in writing the basis for the denial. An applicant may ~~((appeal))~~ seek review of a denial within thirty days under WAC 458-20-100 ~~((Appeals))~~ Informal administrative reviews.

(6) **Can a lessee leasing "multiple qualified buildings" elect to treat the "multiple qualified buildings" as a single investment project?** Yes. If a lessee will conduct qualified research and development or pilot scale manufacturing within the "multiple qualified buildings" and desires to treat the "multiple qualified buildings" as a single investment project, the lessee may do so by making both a preliminary election and a final election therefore.

(a) **When must the lessee make the preliminary election to treat the "multiple qualified buildings" as a single investment project?** The lessee must make the preliminary election before a temporary certificate of occupancy, or its equivalent, is issued for any of the buildings within the "multiple qualified buildings."

(b) **When must the lessee make the final election to treat the "multiple qualified buildings" as a single investment project?** All buildings included in the final election must have been issued a temporary certificate of occupancy or its equivalent. The lessee must then make the final election for such buildings by the date that is the earlier of:

(i) Sixty months following the date that the lessee made the preliminary election; or

(ii) Thirty days after the issuance of the temporary certificate of occupancy, or its equivalent, for the last "qualified building" to be completed that will be included in the final election.

(c) **What occurs if the final election is not made by the deadline?** When a final election is not made by the deadline in (b)(i) or (ii) of this subsection, the qualified buildings will each be treated as individual investment projects under the original applications for those buildings.

(d) **How are preliminary and final elections made?** The preliminary and final elections must be made in the form and manner prescribed by the department. For information concerning the form and manner for making these elections contact the department's special programs division at:

Washington State Department of Revenue  
Special Programs Division  
Post Office Box 47477  
Olympia, WA 98504-7477  
fax 360-586-2163

(e) **Before the final election is made, can the lessee choose to exclude one or more of the buildings included in its preliminary election?** Yes. Before the final election is made, the lessee may remove one or more of the qualified buildings included in the preliminary election from the investment project. When a qualified building under the preliminary election is, for any reason, not included in the final election, the qualified building will be treated as an individual investment project under the original application for that building.

(f) **Application.** This subsection (6) applies to deferral applications received by the department after June 30, 2007.

(7) **What happens after the department approves the deferral application?** If an application is approved, the department must issue the applicant a sales and use tax deferral certificate.

The certificate provides for deferral of state and local sales and use taxes on the eligible investment project. The certificate will state the amount of tax deferral for which the recipient is eligible. It will also state the date by which the project will be operationally complete. The deferral is limited to investment in qualified buildings or qualified machinery and equipment. The deferral does not apply to the taxes of persons with whom the recipient does business, persons the recipient hires, or employees of the recipient.

For purposes of this (~~section~~) rule, "recipient" means a person receiving a tax deferral under chapter 82.63 RCW.

(8) **How should a tax deferral certificate be used?** A successful applicant, hereafter referred to as a recipient, must present a copy of the certificate to sellers of goods or retail services provided in connection with the eligible investment project in order to avoid paying sales or use tax. Sellers who accept these certificates in good faith are relieved of the responsibility to collect sales or use tax on transactions covered by the certificates. Sellers must retain copies of certificates as documentation for why sales or use tax was not collected on a transaction.

The certificate cannot be used to defer tax on repairs to, or replacement parts for, qualified machinery and equipment.

(9) **May an applicant apply for new deferral at the site of an existing deferral project?**

(a) The department must not issue a certificate for an investment project that has already received a deferral under chapter 82.60, 82.61, or 82.63 RCW. For example, replacement machinery and equipment that replaces qualified machinery and equipment is not eligible for the deferral. Also, if renovation is made from an existing building that has already received a deferral under chapter 82.60, 82.61, or 82.63 RCW for the construction of the building, the renovation is not eligible for the deferral.

(b) If expansion is made from an existing building that has already received a deferral under chapter 82.60, 82.61, or 82.63 RCW for the construction of the building, the expanded portion of the building may be eligible for the deferral. Acquisition of machinery and equipment to be used for the expanded portion of the qualified building may also be eligible.

(c) An investment project for qualified research and development that has already received a deferral may also receive an additional deferral certificate for adapting the investment project for use in pilot scale manufacturing.

(d) A certificate may be amended or a certificate issued for a new investment project at an existing facility.

**(10) May an applicant or recipient amend an application or certificate?** Applicants and recipients may make written requests to the special programs division to amend an application or certificate.

(a) Grounds for requesting amendment include, but are not limited to:

(i) The project will exceed the costs originally stated;

(ii) The project will take more time to complete than originally stated;

(iii) The original application is no longer accurate because of changes in the project; and

(iv) Transfer of ownership of the project.

(b) The department must rule on the request within sixty days. If the request is denied, the department must explain in writing the basis for the denial. An applicant or recipient may ~~((appeal))~~ seek review of a denial within thirty days under WAC 458-20-100 ((Appeals)) Informal administrative reviews.

**(11) What should a recipient of a tax deferral do when its investment project is operationally complete?**

(a) When the building, machinery, or equipment is ready for use, or when a final election is made to treat "multiple qualified buildings" as single investment project, the recipient must notify the special programs division in writing that the eligible investment project is operationally complete. The department must, after appropriate investigation: Certify that the project is operationally complete; not certify the project; or certify only a portion of the project. The certification will include the year in which the project is operationally complete. If the department certifies as an operationally complete investment project consisting of "multiple qualifying buildings," the certification is deemed to have occurred in the calendar year in which the final election is made.

(b) If all or any portion of the project is not certified, the recipient must repay all or a proportional part of the deferred taxes. The department will notify the recipient of the amount due, including interest, and the due date.

(c) The department must explain in writing the basis for not certifying all or any portion of a project. The decision of the department to not certify all or a portion of a project may be ~~((appealed))~~ reviewed under WAC 458-20-100 ((Appeals)) Informal administrative reviews within thirty days.

(d) An investment project consisting of "multiple qualifying buildings" may not be certified as operationally complete unless the lessee furnishes the department with a bond, letter of credit, or other security acceptable to the department in an amount equal to the repayment obligation as determined by the department. The department may decrease the secured amount each year as the repayment obligation decreases under the provisions of RCW 82.63.045. If the lessee does not furnish the department with a bond, letter of credit, or other acceptable security equal to the amount of deferred tax, the qualified buildings will each be treated as individual investment projects under the original applications for those buildings.

(12) **Is a recipient of a tax deferral required to submit annual surveys?** Each recipient of a tax deferral granted under chapter 82.63 RCW must complete an annual survey. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.63.010(7), the lessee must agree to complete the annual survey and the applicant is not required to complete the annual survey. See WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(13) **Is a recipient of tax deferral required to repay deferred taxes?**

(a) **When is repayment required?** Deferred taxes must be repaid if an investment project is used for purposes other than qualified research and development or pilot scale manufacturing during the calendar year for which the department certifies the investment project as operationally complete or at any time during any of the succeeding seven calendar years. Taxes are immediately due according to the following schedule:

Year in which nonqualifying use occurs	% of deferred taxes due
1	100%
2	87.5%
3	75%
4	62.5%
5	50%
6	37.5%
7	25%
8	12.5%

Interest on the taxes, but not penalties, must be paid retroactively to the date of deferral. For purposes of this (~~section~~) rule, the date of deferral is the date tax-deferred items are purchased.

The lessee of an investment project consisting of "multiple qualified buildings" is solely liable for payment of any deferred tax determined to be due and payable beginning on the date the department certifies the product as operationally complete. This does not relieve any lessor of its obligation under RCW 82.63.010(7) and subsection (3)(a) of this (~~section~~) rule to pass the economic benefit of the deferral to the lessee.

(b) **When is repayment not required?**

(i) Deferred taxes need not be repaid if the investment project is used only for qualified research and development or pilot scale manufacturing during the calendar year for which the department certifies the investment project as operationally complete and during the succeeding seven calendar years.

(ii) Deferred taxes need not be repaid on particular items if the purchase or use of the item would have qualified for the machinery and equipment sales and use tax exemptions provided by RCW 82.08.02565 and 82.12.02565 (discussed in WAC 458-20-13601) at the time of purchase or first use.

(iii) Deferred taxes need not be repaid if qualified machinery and equipment on which the taxes were deferred is destroyed, becomes inoperable and cannot be reasonably repaired, wears out, or becomes obsolete and is no longer practical for use in the project. The use of machinery and equipment which becomes obsolete for purposes of the

project and is used outside the project is subject to use tax at the time of such use.

(14) **When will the tax deferral program expire?** The authority of the department to issue deferral certificates expires January 1, 2015.

(15) **Is debt extinguishable because of insolvency or sale?** The debt for deferred taxes will not be extinguished by the insolvency or other failure of the recipient.

(16) **Does transfer of ownership terminate tax deferral?** Transfer of ownership does not terminate the deferral. The deferral may be transferred to the new owner if the new owner meets all eligibility requirements for the remaining periods of the deferral. The new owner must apply for an amendment to the deferral certificate. If the deferral is transferred, the new owner is liable for repayment of deferred taxes under the same terms as the original owner. If the new owner is a successor to the previous owner under the terms of WAC 458-20-216 (Successors, quitting business) and the deferral is not transferred, the new owner's liability for deferred taxes is limited to those that are due for payment at the time ownership is transferred.

#### PART II

##### SALES AND USE TAX EXEMPTION FOR PERSONS ENGAGED IN CERTAIN CONSTRUCTION ACTIVITIES FOR THE FEDERAL GOVERNMENT

(17) **Persons engaged in construction activities for the federal government.** Effective June 10, 2004, persons engaged in the business of constructing, repairing, decorating, or improving new or existing buildings or other structures under, upon, or above real property of or for the United States, or any instrumentality thereof, are not liable for sales and use tax on tangible personal property incorporated into, installed in, or attached to such building or other structure, if the investment project would qualify for sales and use tax deferral under chapter 82.63 RCW if undertaken by a private entity. RCW 82.04.190(6).

#### PART III

##### BUSINESS AND OCCUPATION TAX CREDIT FOR RESEARCH AND DEVELOPMENT SPENDING

(18) **Who is eligible for the business and occupation tax credit?** RCW 82.04.4452 provides for a business and occupation tax credit for persons engaging in research and development in Washington in five areas of high technology: Advanced computing, advanced materials, biotechnology, electronic device technology, and environmental technology.

A person is eligible for the credit if its research and development spending in the calendar year for which credit is claimed exceeds 0.92 percent of the person's taxable amount for the same calendar year.

(a) **What does the term "person" mean for purposes of this credit?** "Person" has the meaning given in RCW 82.04.030.

(b) **What is "research and development spending" for purposes of this ((section)) rule?** "Research and development spending" means qualified research and development expenditures plus eighty percent of amounts paid to a person other than a public educational or research institution to conduct qualified research and development.

(c) **What is "taxable amount" for purposes of this ((section)) rule?** "Taxable amount" means the taxable amount subject to business and occupation tax required to be reported on the person's combined excise tax returns for the year for which the credit is claimed, less

any taxable amount for which a multiple activities tax credit is allowed under RCW 82.04.440. See WAC 458-20-19301 (Multiple activities tax credits) for information on the multiple activities tax credit.

(d) **What are "qualified research and development expenditures" for purposes of this ((section)) rule?** "Qualified research and development expenditures" means operating expenses, including wages, compensation of a proprietor or a partner in a partnership, benefits, supplies, and computer expenses, directly incurred in qualified research and development by a person claiming the business and occupation tax credit provided by RCW 82.04.4452. The term does not include amounts paid to a person other than a public educational or research institution to conduct qualified research and development. Nor does the term include capital costs and overhead, such as expenses for land, structures, or depreciable property.

(i) In order for an operating expense to be a qualified research and development expenditure, it must be directly incurred in qualified research and development. If an employee performs qualified research and development activities and also performs other activities, only the wages and benefits proportionate to the time spent on qualified research and development activities are qualified research and development expenditures under this ((section)) rule. The wages of employees who supervise or are supervised by persons performing qualified research and development are qualified research and development expenditures to the extent the work of those supervising or being supervised involves qualified research and development.

(ii) The compensation of a proprietor or a partner is determined in one of two ways:

(A) If there is net income for federal income tax purposes, the amount reported subject to self-employment tax is the compensation.

(B) If there is no net income for federal income tax purposes, reasonable cash withdrawals or cash advances are the compensation.

(iii) Depreciable property is any property with a useful life of at least a year. Expenses for depreciable property will not constitute qualified research and development expenditures even if such property may be fully deductible for federal income tax purposes in the year of acquisition.

(iv) Computer expenses do not include the purchase, lease, rental, maintenance, repair or upgrade of computer hardware or software. They do include internet subscriber fees, run time on a mainframe computer, and outside processing.

(v) Training expenses for employees are qualified research and development expenditures if the training is directly related to the research and development being performed. Training expenses include registration fees, materials, and travel expenses. Although the research and development must occur in Washington, training may take place outside of Washington.

(vi) Qualified research and development expenditures include the cost of clinical trials for drugs and certification by Underwriters Laboratories.

(vii) Qualified research and development expenditures do not include legal expenses, patent fees, or any other expense not incurred directly for qualified research and development.

(viii) Stock options granted as compensation to employees performing qualified research and development are qualified research and development expenditures to the extent they are reported on the W-2 forms of the employees and are taken as a deduction for federal income tax purposes by the employer.

(ix) Preemployment expenses related to employees who perform qualified research and development are qualified research and development expenditures. These expenses include recruiting and relocation expenses and employee placement fees.

(e) **What does it mean to "conduct" qualified research and development for purposes of this ((section)) rule?** A person is conducting qualified research and development when:

(i) The person is in charge of a project or a phase of the project; and

(ii) The activities performed by that person in the project or the phase of the project constitute qualified research and development.

(iii) Examples.

(A) Company C is conducting qualified research and development. It enters into a contract with Company D requiring D to provide workers to perform activities under the direction of C. D is not entitled to the credit because D is not conducting qualified research and development. Its employees work under the direction of C. C is entitled to the credit if all other requirements of the credit are met.

(B) Company F enters into a contract with Company G requiring G to perform qualified research and development on a phase of its project. The phase of the project constitutes qualified research and development. F is not entitled to the credit because F is not conducting qualified research and development on that phase of the project. G, however, is entitled to the credit if all other requirements of the credit are met.

(f) **What is "qualified research and development" for purposes of this ((section)) rule?** "Qualified research and development" means research and development performed within this state in the fields of advanced computing, advanced materials, biotechnology, electronic device technology, and environmental technology.

(g) **What is "research and development" for purposes of this ((section)) rule?** See subsection (3)(c) of this ((section)) rule for more information on the definition of research and development.

(i) Example. A company that engages in environmental cleanup contracted to clean up a site. It had never faced exactly the same situation before, but guaranteed at the outset that it could do the job. It used a variety of existing technologies to accomplish the task in a combination it had never used before. The company was not engaged in qualified research and development in performing this contract. While the company applied existing technologies in a unique manner, there was no uncertainty to attain the desired or necessary specifications, and therefore the outcome of the project was certain.

(ii) Example. Same facts as (g)(i) of this subsection, except that the company performed research on a technology that had been applied in other contexts but never in the context where the company was attempting to use it, and it was uncertain at the outset whether the technology could achieve the desired outcome in the new context. If the company failed, it would have to apply an existing technology that is much more costly in its cleanup effort. The company was engaged in qualified research and development with respect to the research performed in developing the technology.

(iii) Example. Company A is engaged in research and development in biotechnology and needs to perform standard blood tests as part of its development of a drug. It contracts with a lab, B, to perform the tests. The costs of the tests are qualified research and development expenditures for A, the company engaged in the research and develop-

ment. Although the tests themselves are routine, they are only a part of what A is doing in the course of developing the drug. B, the lab contracted to perform the testing, is not engaged in research and development with respect to the drug being developed. B is neither discovering technological information nor translating technological information into new or improved products, processes, techniques, formulas, inventions, or software. B is not entitled to a credit on account of the compensation it receives for conducting the tests.

(h) **What are the five high technology areas?** See subsection (3)(e) of this (~~section~~) rule for more information.

(19) **How is the business and occupation tax credit calculated?**

(a) **On or after July 1, 2004.** The amount of the credit is calculated as follows:

(i) A person must first determine the greater of:

The person's qualified research and development expenditures;

or

Eighty percent of amounts received by a person other than a public educational or research institution as compensation for conducting qualified research and development.

(ii) Then the person subtracts, from the amount determined under (a)(i) of this subsection, 0.92 percent of its taxable amount. If 0.92 percent of the taxable amount exceeds the amount determined under (a)(i) of this subsection, the person is not eligible for the credit.

(iii) The credit is calculated by multiplying the amount determined under (a)(ii) of this subsection by the following:

(A) For the periods of July 1, 2004, to December 31, 2006, the person's average tax rate for the calendar year for which the credit is claimed;

(B) For the periods of January 1, 2007, to December 31, 2007, the greater of the person's average tax rate for the calendar year or 0.75 percent;

(C) For the periods of January 1, 2008, to December 31, 2008, the greater of the person's average tax rate for the calendar year or 1.0 percent;

(D) For the periods of January 1, 2009, to December 31, 2009, the greater of the person's average tax rate for the calendar year or 1.25 percent; and

(E) For the periods after December 31, 2009, 1.50 percent.

(iv) For the purposes of this (~~section~~) rule, "average tax rate" means a person's total business and occupation tax liability for the calendar year for which the credit is claimed, divided by the person's total taxable amount for the calendar year for which the credit is claimed.

(v) For purposes of calculating the credit, if a person's reporting period is less than annual, the person may use an estimated average tax rate for the calendar year for which the credit is claimed, by using the person's average tax rate for each reporting period. When the person files its last return for the calendar year, the person must make an adjustment to the total credit claimed for the calendar year using the person's actual average tax rate for the calendar year.

(vi) Examples.

(A) A business engaging in qualified research and development has a taxable amount of \$10,000,000 in a year. It pays \$80,000 in that year in wages and benefits to employees directly engaged in qualified research and development. The business has no other qualified research and development expenditures. Its qualified research and development

expenditures of \$80,000 are less than \$92,000 (0.92 percent of its taxable amount of \$10,000,000). If a business's qualified research and development expenditures (or eighty percent of amounts received for the conduct of qualified research and development) are less than 0.92 percent of its taxable amount, it is not eligible for the credit.

(B) A business engaging in qualified research and development has a taxable amount of \$10,000,000 in 2005. Seven million dollars of this amount is taxable at the rate of 0.015 under the B&O tax classification for services and \$3,000,000 is taxable at the rate of 0.00484 under the B&O tax classification for royalties. The business pays \$119,520 in B&O tax for this reporting period. It pays \$200,000 in that year to employees directly engaged in qualified research and development. The business has no other qualified research and development expenditures.

In order to determine the amount of its credit, the business subtracts \$92,000 (0.92 percent of its taxable amount of \$10,000,000) from \$200,000, its qualified research and development expenditures. The resulting amount of \$108,000 multiplied by the business's average tax rate equals the amount of the credit.

The business's average tax rate in 2005 is determined by dividing its B&O tax of \$119,520 by its taxable amount of \$10,000,000. The result, 0.01195, is multiplied by \$108,000 to determine the amount of the credit. The credit is \$1,291 (\$1,290.60 rounded to the nearest whole dollar).

(b) **From July 1, 1998 to June 30, 2004.** The amount of the credit is equal to the greater of:

The person's qualified research and development expenditures;

or

Eighty percent of amounts received by a person other than a public educational or research institution as compensation for conducting qualified research and development

multiplied by 0.00484 in the case of a nonprofit corporation or association; and

multiplied by 0.015 in the case of all other persons.

(c) **Prior to July 1, 1998.** The amount of the credit is equal to the greater of:

The person's qualified research and development expenditures;

or

Eighty percent of amounts received by a person other than a public educational or research institution as compensation for conducting qualified research and development

multiplied by 0.00515 in the case of a nonprofit corporation or association; and

multiplied by 0.025 in the case of all other persons.

(d) The credit for any calendar year may not exceed the lesser of two million dollars or the amount of business and occupation tax otherwise due for the calendar year.

(e) Credits may not be carried forward or carried back to other calendar years.

(20) **Is the person claiming the business and occupation tax credit required to submit annual surveys?** Each person claiming the credit granted under RCW 82.04.4452 must complete an annual survey. See WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(21) **Is the business and occupation tax credit assignable?** A person entitled to the credit because of qualified research and development conducted under contract for another person may assign all or a portion of the credit to the person who contracted for the performance of the qualified research and development.

(a) Both the assignor and the assignee must be eligible for the credit for the assignment to be valid.

(b) The total of the credit claimed and the credit assigned by a person assigning credit may not exceed the lesser of two million dollars or the amount of business and occupation tax otherwise due from the assignor in any calendar year.

(c) The total of the credit claimed, including credit received by assignment, may not exceed the lesser of two million dollars or the amount of business and occupation tax otherwise due from the assignee in any calendar year.

(22) **What happens if a person has claimed the business and occupation tax credit earlier but is later found ineligible?** If a person has claimed the credit earlier but is later found ineligible for the credit, then the department will declare the taxes against which the credit was claimed to be immediately due and payable. Interest on the taxes, but not penalties, must be paid retroactively to the date the credit was claimed.

(23) **When will the business and occupation tax credit program expire?** The business and occupation tax credit program for high technology businesses expires January 1, 2015.

(24) **Do staffing companies qualify for the business and occupation tax credit program?** A staffing company may be eligible for the credit if its research and development spending in the calendar year for which credit is claimed exceeds 0.92 percent of the person's taxable amount for the same calendar year.

(a) **Qualifications of the credit.** In order to qualify for the credit, a staffing company must meet the following criteria:

(i) It must conduct qualified research and development through its employees;

(ii) Its employees must perform qualified research and development activities in a project or a phase of the project, without considering any activity performed:

(A) By the person contracting with the staffing company for such performance; or

(B) By any other person;

(iii) It must complete an annual survey by March 31st following any year in which the credit was taken; and

(iv) It must document any claim of the B&O tax credit.

(b) Examples.

(i) Company M, a staffing company, furnishes three employees to Company N for assisting a research project in electronic device technology. N has a manager and five employees working on the same project. The work of M's employees and N's employees combined as a whole constitutes qualified research and development. M's employees do not perform sufficient activities themselves to be considered performing qualified research and development. M does not qualify for the credit.

(ii) Company V, a staffing company, furnishes three employees to Company W for performing a phase of a research project in advanced materials. W has a manager and five employees working on other phases of the same project. V's employees are in charge of a phase of the project that results in discovery of technological information. The

work of V's employees alone constitutes qualified research and development. V qualifies for the credit if all other requirements of the credit are met.

(iii) Same as (b)(ii) of this subsection, except that the phase of the research project involves development of computer software for W's internal use. The work of V's employees alone constitutes qualified research and development. V qualifies for the credit if all other requirements of the credit are met.

AMENDATORY SECTION (Amending WSR 14-14-085, filed 6/30/14, effective 7/31/14)

**WAC 458-20-255 Carbonated beverage syrup tax. (1) Introduction.**

This rule explains the carbonated beverage syrup tax (syrup tax) as imposed by chapter 82.64 RCW. The syrup tax is an excise tax on the number of gallons of carbonated beverage syrup sold in this state at wholesale or retail. The syrup tax is in addition to all other taxes.

Except as otherwise provided in this rule, the provisions of chapters 82.04, 82.08, 82.12 and 82.32 RCW regarding definitions, due dates, reporting periods, tax return requirements, interest and penalties, tax audits and limitations, disputes and ~~((appeals))~~ reviews, and all general administrative provisions apply to the syrup tax.

This rule provides examples that identify a number of facts and then state a conclusion regarding the applicability of the syrup tax. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all facts and circumstances.

(2) **What is carbonated beverage syrup?** Carbonated beverage syrup (syrup) is a concentrated liquid that is added to carbonated water to produce a carbonated beverage. "Carbonated beverage" includes any non-alcoholic liquid intended for human consumption that contains any amount of carbon dioxide. Examples include soft drinks, mineral waters, seltzers, and fruit juices, if carbonated, and frozen carbonated beverages known as FCBs. "Carbonated beverage" does not include products such as bromides or carbonated liquids commonly sold as pharmaceuticals.

(3) **When is syrup tax imposed and how is it determined?** Syrup tax is imposed on the wholesale or retail sales of syrup within this state. The syrup tax is determined by the number of gallons of syrup sold. Fractional amounts are taxed proportionally.

(a) **When should syrup tax be reported and paid?** The frequency of reporting and paying the syrup tax coincides with the reporting periods of taxpayers for their business and occupation (B&O) tax. For example, a wholesaler who reports B&O tax monthly would also report any syrup tax liability on the monthly excise tax return.

(b) **What if I sell both previously taxed and nontaxed syrups?** Persons selling syrups in this state, some of which have been previously taxed in this or other states and some of which have not, may contact the department of revenue (department) for authorization to use formulary tax reporting. Prior to reporting in this manner, the person must receive a special ruling from the department that allows formulary reporting. A ruling may be obtained by writing the department at [dor.wa.gov/content/ContactUs/Default.aspx](http://dor.wa.gov/content/ContactUs/Default.aspx); or

Taxpayer Information and Education  
Washington State Department of Revenue  
P.O. Box 47478  
Olympia, WA 98504-7478

Persons selling previously taxed syrups should refer to subsections (5)(a) and (6) of this rule for information about an exemption or credit that may be applicable to such sales.

(4) **Who is responsible for paying the syrup tax?** This subsection explains who is responsible for payment of the syrup tax for both wholesale and retail sales of syrup in this state.

(a) **Wholesale sales.** A wholesaler making a wholesale sale of syrup in this state must collect the tax from the buyer and report and pay the tax to the department. If, however, the wholesaler is prohibited from collecting the tax under the Constitution of this state or the Constitution or laws of the United States, the wholesaler is liable for the tax. A wholesaler who fails or refuses to collect the syrup tax with intent to violate the provisions of chapter 82.64 RCW, or to gain some advantage directly or indirectly is guilty of a misdemeanor. The buyer is responsible for paying the syrup tax to the wholesaler. The syrup tax required to be collected by the wholesaler is a debt from the buyer to the wholesaler, until the tax is paid by the buyer to the wholesaler. Except as provided in subsection (5)(b)(ii) of this rule, the buyer is not obligated to pay or report the syrup tax to the department.

(b) **Retail sales.** A retailer making a retail sale in this state of syrup purchased from a wholesaler who has not collected the tax must report and pay the tax to the department. Except as provided in subsection (5)(b)(ii) of this rule, the buyer is not obligated to pay or report the syrup tax to the department.

(5) **Exemptions:** This subsection provides information on exemptions from the syrup tax.

(a) **Previously taxed syrup.** Any successive sale of previously taxed syrup is exempt. See RCW 82.64.030(1). "Previously taxed syrup" is syrup on which tax has been paid under chapter 82.64 RCW.

(i) All persons selling or otherwise transferring possession of taxed syrup, except retailers, must separately itemize the amount of the syrup tax on the invoice, bill of lading, or other instrument of sale. Beer and wine wholesalers selling syrup on which the syrup tax has been paid and who are prohibited under RCW 66.28.010 from having a direct or indirect financial interest in any retail business may, instead of a separate itemization of the amount of the syrup tax, provide a statement on the instrument of sale that the syrup tax has been paid. For purposes of the payment and the itemization of the syrup tax, the tax computed on standard units of a product (e.g., cases, liters, gallons) may be stated in an amount rounded to the nearest cent. In competitive bid documents, unless the syrup tax is separately itemized in the bid documents, the syrup tax will not be considered as included in the bid price. In either case, the syrup tax must be separately itemized on the instrument of sale except when the separate itemization is prohibited by law.

(ii) Any person prohibited by federal or state law, ruling, or requirement from itemizing the syrup tax on an invoice, bill of lading, or other document of delivery must retain the documentation necessary for verification of the payment of the syrup tax.

(iii) A subsequent sale of syrup sold or delivered upon an invoice, bill of lading, or other document of sale that contains a sepa-

rate itemization of the syrup tax is exempt from the tax. However, a subsequent sale of syrup sold or delivered to the subsequent seller upon an invoice, bill of lading, or other document of sale that does not contain a separate itemization of the syrup tax is conclusively presumed to be previously untaxed syrup, and the seller must report and pay the syrup tax unless the sale is otherwise exempt.

(iv) The exemption for syrup tax previously paid is available for any person selling previously taxed syrup even though the previous payment may have been satisfied by the use of credits or offsets available to the prior seller.

(v) Example. Company A sells to Company B a syrup on which Company A paid a similar syrup tax in another state. Company A takes a credit against its Washington tax liability in the amount of the other state's tax paid (see subsection (6) of this rule). It provides Company B with an invoice containing a separate itemization of the syrup tax. Company B's subsequent sale is tax exempt even though Company A has not directly paid Washington's tax but has used a credit against its Washington liability.

(b) **Syrup transferred out-of-state.** Any syrup that is transferred to a point outside the state for use outside the state is exempt. See RCW 82.64.030(2). The exemption for the sale of exported syrup may be taken by any seller within the chain of distribution.

(i) **Required documentation.** The prior approval of the department is not required to claim an exemption from the syrup tax for exported syrup. The seller, at the time of sale, must retain in its records an exemption certificate completed by the buyer to document the exempt nature of the sale. This requirement may be satisfied by using the department's "Certificate of Tax Exempt Export Carbonated Beverage Syrup," or another certificate with substantially the same information. A blank exemption certificate can be obtained through the following means:

(A) From the department's internet web site at dor.wa.gov; or

(B) By writing to: Taxpayer Services, Washington State Department of Revenue, P.O. Box 47478, Olympia, Washington 98504-7478.

(ii) The exemption certificate may be used so long as some portion of the syrup is exported. Sellers are under no obligation to verify the amount of syrup to be exported by their buyers providing such certificates. The buyer is liable for tax on syrup that is not exported.

(iii) Example. Company A sells a previously untaxed syrup to Company C. Company C provides the seller with a completed exemption certificate as explained in (b)(i) of this subsection. Company C sells the syrup to Company D, who provides Company C with an exemption certificate. Company D decides to not export a portion of the purchased syrup. Companies A and C can both accept exemption certificates. Company D is responsible for paying syrup tax on the syrup not exported.

(iv) Persons who make sales of syrup to persons outside this state must keep the proofs required by WAC 458-20-193 (Inbound and outbound interstate sales of tangible personal property) to substantiate the out-of-state sales.

(c) **Taxation prohibited under the United States Constitution.** Persons or activities that the state is prohibited from taxing under the United States Constitution are exempt. See RCW 82.64.050(1).

For instance, consider the sales of syrup to Indian tribes when the syrup is delivered in Indian country. In the following examples, the assumption is that the sale to the tribal business qualifies under the subsection on preemption of state tax for "sales of tangible per-

sonal property or provisions of service by nonmembers in Indian country" in WAC 458-20-192, Indians—Indian country.

(i) **Example 1.** Big Cola (an instate manufacturer) sells syrup wholesale to Little Cola Distribution (a nonbottler). Big Cola collects and pays the syrup tax and shows it on the invoice of Little Cola Distribution. Little Cola Distribution then sells and delivers the syrup to a tribal business in Indian country. In this situation the tax is due because the legal incidence of the tax is on Little Cola Distribution, a non-Indian outside of Indian country, as the first purchaser in a wholesale sale. Thus, the syrup tax is not preempted by the second wholesale sale to Indians in Indian country of syrup. In this circumstance, the legal incidence of the tax is not on the sale to the tribal business in Indian country. The syrup tax was previously owed and paid by Little Cola Distribution in its purchase from Big Cola. This tax is only collected once, notwithstanding that Little Cola Distribution separately itemized its syrup tax obligation as provided for in subsection (5)(a)(i) of this rule.

(ii) **Example 2.** Big Cola sells syrup wholesale to Little Cola Bottling (a trademarked bottler). Big Cola does not collect or pay the syrup tax from the sale to Little Cola Bottling due to the trademarked bottler exemption under subsection (5)(d) of this rule. Little Cola Bottling then sells and delivers the bottled syrup to a tribal business in Indian country. The syrup tax is not due.

(iii) **Example 3.** Big Cola sells and delivers syrup directly to a tribal business in Indian country. The syrup tax is not due.

(d) **Wholesale sales of trademarked syrup to bottlers.** Any wholesale sale of a trademarked syrup by any person to a person commonly known as a bottler who is appointed by the owner of the trademark to manufacture, distribute, and sell the trademarked syrup within a specific geographic territory is exempt. See RCW 82.64.030(3).

(6) **Syrup tax credits.**

(a) **B&O tax credit for syrup tax paid.** RCW 82.04.4486 provides a B&O tax credit that was effective July 1, 2006. The credit is available to any buyer of syrup using the syrup in making carbonated beverages that are then sold, provided that the syrup tax, imposed by RCW 82.64.020, has been paid. The tax credit is a percentage of the syrup tax paid.

(i) **How much is the credit?** For syrup purchased July 1, 2006, through June 30, 2007, the B&O tax credit for the buyer was equivalent to twenty-five percent of the syrup tax paid. From July 1, 2007, through June 30, 2008, the allowable credit was fifty percent. From July 1, 2008, through June 30, 2009, the credit was seventy-five percent. As of July 1, 2009, the buyer is entitled to a B&O tax credit of one hundred percent of the syrup tax paid.

(ii) **When can the credit be taken?** The B&O tax credit can be claimed against taxes due for the tax reporting period in which the taxpayer purchased the syrup. The credit cannot exceed the amount of B&O tax due, nor can credit be refunded. Unused credit may be carried over and used for future reporting periods for a maximum of one year. The year starts at the end of the reporting period in which the syrup was purchased and credit was earned. See (b)(ii)(B)(iii) of this subsection for record documentation and retention.

(b) **Credit for syrup tax paid to another state.** Credit is allowed against the taxes imposed by chapter 82.64 RCW for any syrup tax paid to another state with respect to the same syrup. The amount of the credit cannot exceed the tax liability arising under chapter 82.64

RCW. The amount of credit is limited to the amount of tax paid in this state upon the wholesale sale of the same syrup in this state. In addition, the credit may not be applied against any tax paid or owed in this state other than the syrup tax imposed by chapter 82.64 RCW.

(i) **What is a state?** For purposes of the syrup tax credit, "state" is any state of the United States other than Washington, or any political subdivision of another state; the District of Columbia; and any foreign country or political subdivision of a foreign country.

(ii) **What is a syrup tax?** For purposes of the syrup tax credit, "syrup tax" means a tax that is:

(A) Imposed on the sale at wholesale of syrup and is not generally imposed on other activities or privileges; and

(B) Measured by the volume of the syrup.

(iii) **How and when to claim the credit.** Any tax credit available to the taxpayer should be claimed and offset against tax liability reported on the same excise tax return when possible. The excise tax return provides a line for reporting syrup tax, and the credit must be taken in the credit section under the credit classification "other credits." A statement showing the computation of the credit must be provided. It is not required that any other documents or other evidence of entitlement to credits be submitted with the return. Such proofs must be retained in permanent records for the purpose of verification of credits taken.
